Aloha-

Senate Resolution 121 and Senate Concurrent Resolution 164, request the Governor establish a working group to develop a conservation action plan to explore and identify conservation alternatives for the undeveloped portions of the Turtle Bay Hotel and resort property and surrounding lands with conservation or historic value. I write today in support of passage of these resolutions.

As you may know, the future of Turtle Bay Resort is in question again and the threat of this unfortunate legacy development in our rural communities still looms large. Current plans reflected in the developer's Supreme-court ordered Draft Supplemental Impact Statement (DSEIS) would result in a 300% increase in the development footprint on property and wreak havoc on traffic, native and endangered species, and infrastructure in Ko'olauloa and the North Shore. The State of Hawaii taxpayer would end up picking up the tab for such short-sighted planning and reckless lack of vision.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive and vital role in solving this dilemma that has been unfolding for over 25 years. These resolutions will help to begin the effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

I am grateful for your support during this critical time in Oahu's history.

Comments: Support for SR121 and SCR164 Senate Resolution 121 and Senate Concurrent Resolution 164. request the Governor establish a working group to develop a conservation action plan to explore and identify conservation alternatives for the undeveloped portions of the Turtle Bay Hotel and resort property and surrounding lands. As one of the former Leasehold land revocation residents displaced more than twenty five years ago through the proposal of this development, I urge you to carefully review this precious resource. Mahalo.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.

I write today in support of passage of these resolutions.

As you may know, the future of Turtle Bay Resort is in question again and the threat of this unfortunate legacy development in our rural communities still looms large. Current plans reflected in the developer's Supreme-court ordered Draft Supplemental Impact Statement (DSEIS) would result in a 300% increase in the development footprint on property and wreak havoc on traffic, native and endangered species, and infrastructure in Ko'olauloa and the North Shore. The State of Hawaii taxpayer would end up picking up the tab for such short-sighted planning and reckless lack of vision.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive and vital role in solving this dilemma that has been unfolding for over 25 years. These resolutions will help to begin the effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

***** I have lived on North Shore for five years now and will remain so as it's COUNTRY! I am originally from Ventura, CA, which is a beach town and I have always related more to my mom's side of the family as they are all citrus ranchers on the nearby Oxnard Plain. I have always felt the most comfortable living in the country with the beach near by and that's why I have chosen to live on the North Shore.

I moved here because my only child, now in his mid thirty's, and my four grand children are here living in Mililani. I want to watch them grow up. My daughter-in-law is part Hawaiian.

Kawela Bay and Waimea Botanical Gardens are both near & dear to me as I hiked into the former EVERY DAY for two years straight and the other side, too. (I know all of the trails inside out.) I also hike from my home to the later a great deal. These areas are still pristine, natural & gorgeous; namely, Nature at her finest! I feel it would be abominal and a sin to take these places away! I still go to these places now as they both give me semblance of peace and joy and they were both what helped me get through the horrific murders of my sister and brother-in-law. My sister was a botony major in college.

Right now the traffic on North Shore is gross already! One can't expect the Kamehameha Hwy that only has one lane going each way to accommodate any more traffic! On week ends, holidays, when shool is out, the surf is up and the turtles are out, it takes a hideous amount of time to get out &/or back in so one has to leave really early and come back later when it's dark! These issues are very bad now, but it's part of living here. However, if added building and traffic were allowed, it would be past a nightmare!! So, please do everything you possibly can to at least keep it the way it is now. It would be very much appreciated as I feel this is the last and only COUNTRY left on this island!

In addition, there's the issues regarding the sacred and religious Hawaiian sites that exist on the North Shore and the farming land. These are specific people's heritage and lively hoods that I feel should NEVER be taken away!

I am grateful for your support during this critical time in Oahu's history.

Aloha! Senator Clayton Hee and Members of the Committee.

I write today in strong support of the passage of these two resolutions to be heard before your Committee.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive and vital role in solving the dilemma that has been unfolding for over 25 years.

These resolutions will help to begin the necessary efforts to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of a negative impact due to these massive developments, which is only one of the mega-developments which has been proposed for the Windward coastline in the Ko'olau Loa Ahupua'a.

I am grateful for your support during this critical time in Oahu's history and respectfully ask for the passage of SR121 and SCR164.

Aloha elected representative, please do all you can to stop the paving over of rural Oahu. Our poor little island is bursting at the seams. Visitors will no longer want to visit our island home if it's gridlock from one end of Oahu to the other. Let's plant food instead of hotels. We need to stop putting all of our economic eggs in the visitor industry egg basket. Please Reflect the overwhelming majority of your constituents and please help Keep the Country COUNTRY.

Thank you for your consideration and doing what's best for the residents and taxpayers of Oahu as opposed to offshore investors and speculators.

Aloha-

Senate Resolution 121 and Senate Concurrent Resolution 164, request the Governor establish a working group to develop a conservation action plan to explore and identify conservation alternatives for the undeveloped portions of the Turtle Bay Hotel and resort property and surrounding lands with conservation or historic value. I write today in support of passage of these resolutions.

As you may know, the future of Turtle Bay Resort is in question again and the threat of this unfortunate legacy development in our rural communities still looms large. Current plans reflected in the developer's Supreme-court ordered Draft Supplemental Impact Statement (DSEIS) would result in a 300% increase in the development footprint on property and wreak havoc on traffic, native and endangered species, and infrastructure in Ko'olauloa and the North Shore. The State of Hawaii taxpayer would end up picking up the tab for such short-sighted planning and reckless lack of vision.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive and vital role in solving this dilemma that has been unfolding for over 25 years. These resolutions will help to begin the effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

I am grateful for your support during this critical time in Oahu's history.

Mahalo,

Mike & Nancy McGovern

Aloha,

We appreciate the state Senate taking leadership in this issue.

The fundamental question we have to ask ourselves is whether we want to preserve rural Ko'olauloa and the north shore as the last vestiges of rural Hawaii, or not.

"Keep the Country Country" is consistent with the Oahu General Plan that organizes growth in an orderly manner for Oahu. The Oahu General Plan is a viable compromise for all stakeholders in Oahu.

The touristy resort, high-density, and urban developments are focused in Honolulu and Kapolei. Ewa and Mililani agricultural tracts are sacrificed to provide subdivisions. Low-density and rural areas are delineated in the Ko'olauloa and north shore regions.

There is no doubt that developers drool over every inch of Hawaii's agriculture-zoned land.

This incessant coveting, in part, is a result of the poor record and leadership of the City County Department of Planning and Permitting. DPP has recently NOT opposed any massive developments despite clear and compelling merits against them.

If we continue to allow massive spot developments in this rural region, we will incrementally destroy what is special, unique, and luring about this rural region. We will become Mililani or Waikele

Decision-makers cannot continue to display bi-polar behavior in our land-use planning. Too much is at stake.

We can't profess to want to encourage food security on our small island, protect agricultural lands, tout open space, advertise Hawaii's charm and sense of place on one hand and on the other, approve damaging massive developments at any time and at any place.

This rural region plays a MAJOR part in Oahu's tourism industry. It is also a region where many from town escape to during the weekends and holidays. This region also offers the breadbasket, watershed, and recreation resources for Oahu. Needless to say, tourists find their way here to enjoy Hawaii.

Most people who live in this region choose this country lifestyle over urbanized Ewa or Mililani or Kaneohe.

You probably have heard enough about the 100-year-old Kam Hwy which is actually a 2-lane country road. This scenic 2-lane road has no capacity to handle more massive developments and the inevitable traffic.

Widening Kam Hwy will assuredly trigger eminent domain of mom-and-pop stores, iconic historical places and homes. Building another road will open up a new can of worms and costs.

Can you imagine the costs involved economically, socially, culturally and environmentally in this process?

The costs would be in the BILLIONS just in infrastructure alone; the taxpayers would be forced to foot this bill, not the developers who come and go.

Oahu is at its critical threshold.

I submit to you with great confidence that the Everyman does not want to see the entire Oahu cemented over. We have discussed these issues many times on our COUNTRY TALK STORY Olelo Program. We consistently have strangers share similar sentiments expressed here wherever we go.

If we fail to plan, we plan to fail. Let's be bold and forward-thinking. The Hawaii legislature can provide this needed leadership! We want to be blessed by those in the future for saving Hawaii's inheritance, resources, and identity, rather than be cursed by them for selling Hawaii short.

Mahalo!

These resolutions will help to begin the effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

I am grateful for your support during this critical time in Oahu's history.

I live at the curve across from St. Peter & Paul Church. The traffic conjection is currently ridiculous more than 4 days of the week depending on surf contests, swells, motor cross events, tourism...etc. There can be no development without improvements in infrastructure (widening roads, updating sewage system, upgrading water supply). This precious place could be destroyed by further development without a balance of public improvements. We need new toilets at Pueana Point. What an embarrassment to any tourist who may use the public facility. Our delicate economy relies in a large degree on tourism and the military families. We need to clean up what we have and make more public parks, not more hotels out here in the country. Build more hotels in Waikiki, start shark tours 2 miles off shore of Waikiki.

Subject: Support for SR121 and SCR164

Aloha-

Senate Resolution 121 and Senate Concurrent Resolution 164, request the Governor establish a working group to develop a conservation action plan to explore and identify conservation alternatives for the undeveloped portions of the Turtle Bay Hotel and resort property and surrounding lands with conservation or historic value. I write today in support of passage of these resolutions.

As you may know, the future of Turtle Bay Resort is in question again and the threat of this unfortunate legacy development in our rural communities still looms large. Current plans reflected in the developer's Supreme-court ordered Draft Supplemental Impact Statement (DSEIS) would result in a 300% increase in the development footprint on property and wreak havoc on traffic, native and endangered species, and infrastructure in Ko'olauloa and the North Shore. The State of Hawaii taxpayer would end up picking up the tab for such short-sighted planning and reckless lack of vision.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive and vital role in solving this dilemma that has been unfolding for over 25 years. These resolutions will help to begin the effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

I am grateful for your support during this critical time in Oahu's history.

Aloha-

As you may know, Senate Resolution 121 & Senate Concurrent Resolution 164 request that the Governor establish a working group to develop a conservation action plan to explore & identify conservation alternatives for the undeveloped portions of the Turtle Bay Hotel, resort property & surrounding lands with conservation or historic value. I write you today in strong support of passage of these resolutions.

The future of Turtle Bay Resort is again in question, and thus threatened by this unfortunate legacy development in our rural communities. Current plans reflected in the developer's Supreme-court ordered Draft Supplemental Impact Statement (DSEIS) would result in a 300% increase in the development footprint on property and wreak havoc on traffic, native and endangered species, and infrastructure in Ko'olauloa and the North Shore. The State of Hawaii taxpayer would end up picking up the tab for such short-sighted planning.

Your support of SR 121 and SCR 164 enables the State of Hawaii to play a proactive & vital role in solving this dilemma which has been unfolding for over 25 years. These resolutions will help to begin an effort to protect communities in Ko'olau Loa and the North Shore from the dangerous effects of massive development.

I'm grateful for your support during this critical time in Oahu's history - we need to really think ahead deeply & act wisely to preserve our beautiful island home.

SCR164

Submitted on: 4/2/2013

Testimony for WTL/JDL on Apr 2, 2013 13:15PM in Conference Room 225

Submitted By	Organization	Testifier Position	Present at Hearing
India Paige	Individual	Support	No

Comments: Please do all we can in our power to renegotiate the impact additional resort development will have on this critical part of the north Shore. Back to the table..not just for the state to buy some land for another park area called (conservation)...but to reexamine the impact on the roads, the reef, the beaches, the community.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.
