
A BILL FOR AN ACT

RELATING TO VETERANS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State of Hawaii
2 has an opportunity to meet a growing community need: long-term
3 care resources. The number of aging baby-boomers continues to
4 increase, not only in the State of Hawaii, but across the
5 nation. Increasing advancements in medical science and
6 technology have also resulted in citizens in our communities
7 living longer. As such, the number of residents needing long-
8 term care has grown exponentially and includes an ever-growing
9 veterans population. This has resulted in a significant
10 shortage of long-term care facilities statewide.

11 Through the efforts of our congressional delegation,
12 particularly the late Senator Daniel K. Inouye, steps were
13 initiated to address some of these long-term care needs,
14 particularly for those who provided military service to our
15 country. In 2004, the State built its first veterans home in
16 Hilo, Hawaii, naming it in honor of Medal of Honor recipient
17 Yukio Okutsu. The cost for completing this ninety-five-bed
18 capacity nursing care facility, a cost which included planning,

1 design, and construction costs, as well as expenditures for
2 equipment, furnishings, and interior decoration, was
3 \$45,000,000. Sixty-five per cent of these costs were paid for
4 using federal funds acquired through the Department of Veterans
5 Affairs with the legislature providing the remaining thirty-five
6 per cent.

7 The Yukio Okutsu state veterans home is owned and licensed
8 by the State and managed by contract with oversight provided by
9 the Hawaii health systems corporation. There is no operational
10 or maintenance cost to the State. Those who are eligible for
11 residency in the home include honorably discharged veterans,
12 their spouses, and Gold Star parents who are disabled by age or
13 disease, or those incapable of earning a living due to
14 disability. Services include domiciliary, nursing home, and
15 adult day health care. Eligible individuals residing in a state
16 veterans home also receive a federal per diem allowance of \$94
17 per day with veterans who are one hundred per cent disabled
18 receiving a higher per diem allowance.

19 With approximately one hundred twenty thousand veterans in
20 Hawaii, forty-four thousand of whom are over the age of sixty-
21 five, and a shortfall of one hundred seventy-three long-term
22 care beds, Hawaii's veterans would greatly benefit from the

1 development of another facility to address their long-term care
2 needs.

3 At the time the Yukio Okutsu state veterans home was built,
4 Hawaii was one of three states in the nation that did not
5 possess a state veterans home. Consequently, the Veterans
6 Affairs grant application for Hawaii's first veterans home
7 received priority consideration, and the project rose to the
8 number one position on the federal funding list.

9 The Department of Veterans Affairs distributes
10 approximately \$85,000,000 annually to assist states with
11 providing state veterans homes. With a shortfall of one hundred
12 seventy-three beds, an increasingly aging veteran population,
13 and the general growth of the population of veterans in Hawaii
14 due to the drawdown of troops in Iraq in 2011 and the
15 forthcoming pullout of troops from Afghanistan in 2014, the
16 State can make a strong case to receive federal funds to build
17 an additional veterans home based on need. Furthermore, there
18 is expected to be a need for additional long-term care
19 facilities and services for veterans in the near future since
20 the Department of Veterans Affairs estimates that, across the
21 nation, over one million members of the armed services will
22 become veterans within the next five years.

1 thereof as may be necessary and the same sum or so much thereof
2 as may be necessary is appropriated for fiscal year 2014-2015
3 for the purpose of funding the State's portion of construction
4 of a one hundred seventy-three bed veterans long-term care
5 facility; provided that no bond issuance shall be made unless
6 the federal government appropriates per cent of the funds
7 needed to complete the facility.

8 SECTION 3. The appropriation made for the capital
9 improvement project authorized by this Act shall not lapse at
10 the end of the fiscal biennium for which the appropriation is
11 made; provided that all moneys from the appropriation
12 unencumbered as of June 30, 2016, shall lapse as of that date.

13 SECTION 4. The sum appropriated shall be expended by the
14 Hawaii health systems corporation for the purposes of this Act.

15 SECTION 5. This Act shall take effect on July 1, 2050.

Report Title:

Long-term Care Facility; Veterans; General Obligation Bonds

Description:

Authorizes the issuance of GO bonds for the construction of a long-term care facility for veterans contingent upon the receipt of federal funds. Effective 7/1/2050. (SD1)
