## A BILL FOR AN ACT

RELATING TO ELECTRONIC SMOKING DEVICES.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that electronic smoking  
2 devices, also known as electronic cigarettes or e-cigarettes,  
3 are battery-powered devices, often resembling cigarettes,  
4 cigars, or pipes, designed to deliver nicotine or other  
5 substances to users in the form of a vapor smoke that is  
6 breathed in then exhaled. Sales of electronic smoking devices  
7 in the United States have doubled each year since 2008, with  
8 sales in 2013 projected to reach \$1,700,000,000. Findings from  
9 the National Youth Tobacco Survey also indicate the growing  
10 popularity of electronic smoking devices among youth, with  
11 1,800,000 middle and high school students stating they had tried  
12 these products in 2012.

13           The legislature further finds that, due to the relative  
14 lack of research data on electronic smoking devices, many public  
15 health organizations and policymakers are concerned about the  
16 safety and impact of these products on public health.

17 Furthermore, because the federal government has not yet  
18 exercised its regulatory authority over electronic smoking

1 devices, the products are manufactured without regulatory  
2 oversight or quality control, and promoted, advertised, and sold  
3 without appropriate health warnings or legal age restrictions.

4 In response, a growing number of state and local  
5 governments have taken steps to regulate the sale, marketing,  
6 and use of electronic smoking devices. The legislature  
7 concludes that Hawaii should also take additional steps to  
8 regulate these products.

9 Accordingly, the purpose of this Act is to:

- 10 (1) Require persons engaged as wholesalers and dealers of  
11 electronic smoking devices to obtain a license from  
12 the department of health;
- 13 (2) Require retailers of electronic smoking devices to  
14 obtain a license from the department of health;
- 15 (3) Specify that electronic smoking devices may only be  
16 sold where cigarettes and other tobacco products are  
17 sold by limiting the retail sale of electronic smoking  
18 devices to those retailers who also hold a retail  
19 tobacco permit;
- 20 (4) Specify that the revenue from the electronic smoking  
21 device license fees shall be used to support smoking  
22 cessation programs in the State;

1 (5) Amend Hawaii's anti-smoking statute to prohibit the  
2 use of electronic smoking devices in places open to  
3 the public and places of employment; and

4 (6) Further clarify that the sale, distribution, or  
5 display of electronic smoking devices is restricted in  
6 the same manner as cigarettes and other tobacco  
7 products.

8 SECTION 2. The Hawaii Revised Statutes is amended by  
9 adding a new chapter to be appropriately designated and to read  
10 as follows:

8 twelve months ending the succeeding June 30.

10 section shall be used to support smoking cessation programs in  
11 the State.

12 (g) The department may suspend or, after hearing, revoke

14 whenever the department finds that the applicant or licensee has  
15 failed to comply with this chapter or any rule adopted under  
16 this chapter, or for any other good cause. Good cause includes  
17 but is not limited to instances where an applicant or licensee

5 requested.

6 (h) Whenever the department suspends, revokes, or declines
