## A BILL FOR AN ACT

RELATING TO TELEHEALTH.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that one of the  
2 challenges facing the country's health care system is providing  
3 quality care to segments of the population who do not have  
4 access to essential services because of geographic limitations.  
5 The use of telehealth to deliver health care from a distance is  
6 an effective way of overcoming certain barriers to care,  
7 particularly for communities located in rural and remote areas.  
8 This is especially important in a state like Hawaii, where  
9 residents on the neighbor islands and in rural areas lack the  
10 same level of access to care that residents on Oahu enjoy.

11           The legislature further finds that telehealth services are  
12 used extensively across the country with no compromise in  
13 quality of care when the services are within the scope of  
14 practice of a provider. However, reimbursement policies vary  
15 between health plans, leading to confusion among health care  
16 providers and restrictions on patient access to quality health  
17 care.

1           The legislature additionally finds that requiring parity  
2 for telehealth services will empower consumer choice, reduce  
3 disparities in access to care, enhance health care provider  
4 availability, and improve quality of care.

5           The legislature also finds that various sections of the  
6 Hawaii Revised Statutes contain different definitions for or  
7 references to "telemedicine" and "telehealth" and notes that  
8 these definitions and references should be harmonized for  
9 consistency.

10           Accordingly, the purpose of this Act is to:

- 11           (1) Require reimbursement for services provided through  
12 telehealth to be equivalent to reimbursement for the  
13 same services provided via face-to-face contact  
14 between a health care provider and a patient;
- 15           (2) Clarify that a health care provider of telehealth  
16 includes primary care providers, mental health  
17 providers, and oral health providers such as  
18 physicians and osteopathic physicians, advanced  
19 practice registered nurses, psychologists, and  
20 dentists; and
- 21           (3) Amend references to "telemedicine" in the Hawaii  
22 Revised Statutes to "telehealth" for consistency.

1 SECTION 2. Section 209E-2, Hawaii Revised Statutes, is  
2 amended by amending the definition of "medical and health care  
3 services" to read as follows:

4 "Medical and health care services" means medical research,  
5 clinical trials, and [~~telemedicine,~~] telehealth, but not routine  
6 medical treatment or services."

7 SECTION 3. Section 431:10A-116.3, Hawaii Revised Statutes,  
8 is amended by amending subsection (c) to read as follows:

9 "(c) Reimbursement for services provided through  
10 telehealth shall be equivalent to reimbursement for the same  
11 services provided via face-to-face contact between a health care  
12 provider and a patient. There shall be no reimbursement for a  
13 telehealth consultation between health care providers unless a  
14 health care provider-patient relationship exists between the  
15 patient and one of the health care providers involved in the  
16 telehealth interaction.

17 For the purposes of this section, "health care provider"  
18 means a provider of services, as defined in 42 U.S.C. 1395x(u),  
19 a provider of medical and other health services, as defined in  
20 42 U.S.C. 1395x(s), and any other person or organization who  
21 furnishes, bills, or is paid for health care in the normal  
22 course of business[-], including but not limited to primary care

1 providers, mental health providers, and oral health providers  
2 such as physicians and osteopathic physicians licensed under  
3 chapter 453, advanced practice registered nurses licensed under  
4 chapter 457, psychologists licensed under chapter 465, and  
5 dentists licensed under chapter 448."

6 SECTION 4. Section 432:1-601.5, Hawaii Revised Statutes,  
7 is amended by amending subsection (c) to read as follows:

8 "(c) Reimbursement for services provided through  
9 telehealth shall be equivalent to reimbursement for the same  
10 services provided via face-to-face contact between a health care  
11 provider and a patient. There shall be no reimbursement for a  
12 telehealth consultation between health care providers unless a  
13 health care provider-patient relationship exists between the  
14 patient and one of the health care providers involved in the  
15 telehealth interaction.

16 For the purposes of this section, "health care provider"  
17 means a provider of services, as defined in 42 U.S.C. 1395x(u),  
18 a provider of medical or other health services, as defined in 42  
19 U.S.C. 1395x(s), and any other person or organization who  
20 furnishes, bills, or is paid for health care in the normal  
21 course of business[=], including but not limited to primary care  
22 providers, mental health providers, and oral health providers

1 such as physicians and osteopathic physicians licensed under  
2 chapter 453, advanced practice registered nurses licensed under  
3 chapter 457, psychologists licensed under chapter 465, and  
4 dentists licensed under chapter 448."

5 SECTION 5. Section 432D-23.5, Hawaii Revised Statutes, is  
6 amended by amending subsection (c) to read as follows:

7 "(c) Reimbursement for services provided through  
8 telehealth shall be equivalent to reimbursement for the same  
9 services provided via face-to-face contact between a health care  
10 provider and a patient. There shall be no reimbursement for a  
11 telehealth consultation between health care providers unless an  
12 existing health care provider-patient relationship exists  
13 between the patient and one of the health care providers  
14 involved in the telehealth interaction.

15 For the purposes of this section, "health care provider"  
16 means a provider of services, as defined in 42 U.S.C. 1395x(u),  
17 a provider of medical or other health services, as defined in 42  
18 U.S.C. 1395x(s), and any other person or organization who  
19 furnishes, bills, or is paid for health care in the normal  
20 course of business[-], including but not limited to primary care  
21 providers, mental health providers, and oral health providers  
22 such as physicians and osteopathic physicians licensed under

1 chapter 453, advanced practice registered nurses licensed under  
2 chapter 457, psychologists licensed under chapter 465, and  
3 dentists licensed under chapter 448."

8 deployment of, expanded broadband applications,

21 SECTION 7. Section 453-1.3, Hawaii Revised Statutes, is  
22 amended to read as follows:

1           "~~[+]§453-1.3[+]~~ Practice of ~~[telemedicine.]~~ telehealth.

2       (a) Subject to section 453-2(b), nothing in this section shall  
3 preclude any physician acting within the scope of the  
4 physician's license to practice from practicing ~~[telemedicine]~~  
5 telehealth as defined in this section.

6       (b) For the purposes of this section, ~~["telemedicine"]~~  
7 "telehealth" means the use of telecommunications services, as  
8 that term is defined in section 269-1, including but not limited  
9 to real-time video ~~[or web conferencing]~~ conferencing-based  
10 communication ~~[or]~~, secure interactive and non-interactive web-  
11 based communication ~~[to establish], and secure asynchronous~~  
12 information exchange, to transmit patient medical information,  
13 including diagnostic-quality digital images and laboratory  
14 results for medical interpretation and diagnosis, for the  
15 purposes of delivering enhanced health care services and  
16 information to parties separated by distance, establishing a  
17 physician-patient relationship, ~~[to evaluate]~~ evaluating a  
18 patient, or ~~[to treat]~~ treating a patient. ~~["Telehealth" as~~

20 defined in this section.]

21       (c) ~~[Telemedicine]~~ Telehealth services shall include a

8 do not include a face-to-face visit but in which prescribing is  
9 appropriate, including on-call telephone encounters and  
10 encounters for which a follow-up visit is arranged. Issuing a  
11 prescription based solely on an online questionnaire is not  
12 treatment for the purposes of this section and does not  
13 constitute an acceptable standard of care. For the purposes of  
14 prescribing a controlled substance, a physician-patient  
15 relationship shall be established pursuant to chapter 329.

16 (e) All medical reports resulting from [~~telemedicine~~  
17 telehealth services are part of a patient's health record and

20 federal requirements including privacy requirements.

21 (f) A physician shall not use [~~telemedicine~~] telehealth to  
22 establish a physician-patient relationship with a patient in

 3 or physician licensed in this State may use [~~telemedicine~~  
 4 telehealth for any purpose, including consultation with a  
 5 medical provider licensed in another state, authorized by this  
 6 section, or as otherwise provided by law."

 8 amended by amending subsection (b) to read as follows:

9 "(b) Nothing herein shall:

 21 providing direct [~~telemedicine~~] telehealth support or  
 22 services to neighbor island beneficiaries within a

1 Hawaii National Guard armory on the island of Kauai,

3 commissioned medical officer employed by the United  
4 States Department of Defense is credentialed by

19 for the provision of care for a patient who is  
20 located in this State;

21 (B) The licensed physician or osteopathic physician  
22 of this State retains control and remains

1 responsible for the provision of care for the  
2 patient who is located in this State; and

3 (C) The laws and rules relating to contagious  
4 diseases are not violated;

5 (5) Prohibit services rendered by any person certified  
6 under part II of this chapter to provide emergency  
7 medical services, or any physician assistant, when the  
8 services are rendered under the direction and control

10 this State except for final refraction resulting in a  
11 prescription for spectacles, contact lenses, or visual  
12 training as performed by an oculist or optometrist  
13 duly licensed by the State. The direction and control  
14 shall not be construed in every case to require the  
15 personal presence of the supervising and controlling  
16 physician or osteopathic physician. Any physician or  
17 osteopathic physician who employs or directs a person  
18 certified under part II of this chapter to provide

2 person or physician assistant;

3 (6) Prohibit automated external defibrillation by:

4 (A) Any first responder personnel certified by the

10 663-1.5(e); or

11 (7) Prohibit a radiologist duly licensed to practice

13 state from using [~~telemedicine~~] telehealth while  
14 located in this State to provide radiology services to  
15 a patient who is located in the state in which the  
16 radiologist is licensed. For the purposes of this  
17 paragraph:

5            interactive and non-interactive web-based  
6            communication, and secure asynchronous information  
7            exchange, to transmit patient medical information,  
8            [~~such as~~] including diagnostic-quality digital images  
9            and laboratory results for medical interpretation and  
10           diagnosis, [~~and deliver~~] for the purpose of delivering
