Report Title:

Physical Therapy; Physical Therapist Assistants; Required Licensure; Addition of Physical Therapist Assistant to the Board of Physical Therapy

Description:

Amends chapter 461J, Hawaii Revised Statutes, to regulate physical therapist assistants by limiting the use of certain titles, ensuring that the regulated physical therapist assistants will have the appropriate education and training background, requiring physical therapist assistants to obtain a license to work in the State, and adds a physical therapist assistant to the composition of the Board of Physical Therapy of the Department of Commerce and Consumer Affairs.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

JUSTIFICATION SHEET

DEPARTMENT: Commerce and Consumer Affairs

TITLE: A BILL FOR AN ACT RELATING TO PHYSICAL THERAPY.

PURPOSE: The purpose of the bill is to regulate physical therapist assistants (PTAs) and to limit the use of certain titles. The bill also requires that the regulated PTAs obtain the appropriate education and training background and obtain a license to work in the State.

MEANS: Add two new sections to chapter 461J, Hawaii Revised Statutes (HRS), and amend sections 461J-1, 461J-2, 461J-3, 461J-4, and 461J-6(a), HRS.

JUSTIFICATION: The Board of Physical Therapy (Board) is in full support of this bill. The Board feels that licensure is appropriate for PTAs because it is the highest form of regulation that guarantees public protection for consumers.

Hawaii is currently the only state in the country that does not regulate PTAs. 41 states currently license PTAs, and eight states certify PTAs. Licensure will ensure that physical therapist (PT) and PTA regulations are consistent with other states. PTAs are already recognized in the existing PT rules and supervision and scope of practice is addressed in the current rules. The specific licensure of PTAs will ensure that the practice of PTAs is subject to regulatory oversight to ensure compliance with existing laws and rules.

The department estimates that there are approximately 1,400 PTs and 200 PTAs working in Hawaii.

A sunrise review on a proposal to regulate PTAs was conducted in 1995 by the Auditor's Office, as mandated by section 26H-6, HRS. In 1995, 41 other states regulated physical therapist assistants. The analysis concluded that regulation of PTAs was not warranted because they found no documented evidence of harm to the public caused by PTAs in Hawaii. However, since the time of the sunrise study, PTA involvement in patient care has grown and is likely to continue to grow. Because PTAs are being used more to provide health care services, the Board believes that licensure is appropriate at this time.

In order to implement the licensure of approximately 200 physical therapist assistants, an appropriation of \$40,000 from the compliance resolution fund is being requested. Upon the issuance of a new license and at each license renewal period, each licensee will be assessed a \$100 surcharge in addition to the normal licensing fees. Once the collection of \$40,000 is received, the assessment of the surcharge shall cease.

Impact on the public: The bill protects the public by requiring a license to practice as a PTA in the State of Hawaii. Consumers will benefit from the increased accountability of PTAs.

Impact on the department and other agencies: There will be additional workload demands on staff in addition to additional operating expenditures.

GENERAL FUND: None.

OTHER FUNDS: Compliance resolution fund - \$40,000.

PPBS PROGRAM DESIGNATION: CCA 105.

OTHER AFFECTED
AGENCIES:

None.

EFFECTIVE DATE:

Upon its approval, the Act shall take effect
on December 31, 2014.
