
HOUSE CONCURRENT RESOLUTION

REQUESTING THE HAWAII INVASIVE SPECIES COUNCIL TO PROVIDE
OPPORTUNITIES FOR VARIOUS STAKEHOLDERS TO PROVIDE INPUT
REGARDING THE CONTROL AND ERADICATION OF INVASIVE ALBIZIA
TREES.

1 WHEREAS, trees of the genus *Falcataria*, commonly known as
2 albizia, were first introduced to Hawaii at the turn of the 20th
3 Century; and

4
5 WHEREAS, since albizia trees are extremely fast-growing and
6 prolific, these non-native species have become established in
7 Hawaii to the detriment of both native plant species and public
8 safety; and

9
10 WHEREAS, because of albizia's rapid growth rate, these
11 trees frequently block sunlight to surrounding plants,
12 effectively starving and killing them; and

13
14 WHEREAS, albizia trees are brittle and have weak root
15 systems and, therefore, are more likely to break or fall in
16 windy and rainy conditions than other trees of comparable size;
17 and

18
19 WHEREAS, the susceptibility of albizia trees to inclement
20 weather conditions combined with a tendency to grow in dense
21 stands make them an especially worrisome hazard in the event of
22 a hurricane or other natural disaster when falling or fallen
23 trees can endanger public safety and impede access routes; and

24
25 WHEREAS, the Hawaii Invasive Species Council, an
26 interagency collaboration housed within the Department of Land
27 and Natural Resources, and the various island-based Invasive
28 Species Committees funded by the Council are responsible for

1 planning and carrying out invasive species control and
2 eradication efforts throughout the State; and
3

4 WHEREAS, while albizia trees are present throughout the
5 State, their impact on the public and the environment in any
6 given area differs based on local conditions; and
7

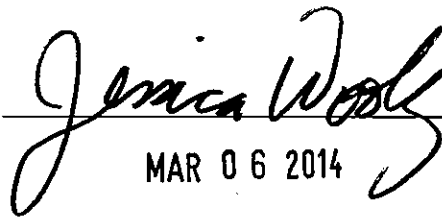

8 WHEREAS, any control and eradication response to albizia
9 must take into account the diverse interests and concerns of the
10 residents of affected areas; now, therefore,
11

12 BE IT RESOLVED by the House of Representatives of the
13 Twenty-seventh Legislature of the State of Hawaii, Regular
14 Session of 2014, the Senate concurring, that the Hawaii Invasive
15 Species Council is requested to provide opportunities for
16 various stakeholders to provide input regarding the control and
17 eradication of invasive albizia trees through its partnerships
18 with the various island-based Invasive Species Committees; and
19

20 BE IT FURTHER RESOLVED that the Council is encouraged to
21 solicit participation in this process from individuals as well
22 as from organizations or agencies from both the public and
23 private sectors in areas throughout the State that are affected
24 by invasive albizia; and
25

26 BE IT FURTHER RESOLVED that certified copies of this
27 Concurrent Resolution be transmitted to the Chairperson of the
28 Board of Land and Natural Resources, Chairperson of the Board of
29 Agriculture, Coordinator of the Hawaii Invasive Species Council,
30 and the respective Chairs of the Big Island, Kauai, Maui,
31 Molokai, and Oahu Invasive Species Committees.
