
A BILL FOR AN ACT

RELATING TO YOUTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that in the United
2 States, more than one-fourth of the children, or fifteen
3 million, are left alone and unsupervised after school. Thirty
4 per cent of middle school students, or nearly four million, are
5 left unsupervised until their parents return home from work.

6 The legislature further finds that juvenile violence peaks
7 in the after-school hours on school days and in the evenings on
8 non-school days. Sixty-three per cent of violent crimes
9 committed by juveniles occur on school days, while nearly one-
10 fifth of all juvenile violent crimes occur between the hours of
11 3:00 p.m. and 7:00 p.m. During fiscal year 2013, police in
12 Hawaii made more than three thousand arrests of juveniles
13 between the ages of twelve and fourteen.

14 The legislature finds that according to the superintendent
15 of education's annual report of 2011, Hawaii's school dropout
16 rate has reached over sixteen per cent, with a graduation rate
17 of only approximately eighty per cent. Nearly half of the high

1 school dropouts reported that they started high school ill-
2 prepared.

3 The legislature further finds that research indicates that
4 each disconnected youth costs taxpayers nearly \$14,000 per year.
5 This amount can continue and even increase as some
6 disenfranchised youth come into contact with the juvenile
7 justice system. The stakes of youth disengagement are high.
8 Once students are disconnected, recruitment, enrollment, and
9 retention programs require stronger and more persistent
10 outreach, more intensive services, and more long-term
11 participation.

12 Middle and intermediate school years are a pivotal time for
13 keiki, a time when they can succumb to peer pressure and
14 significantly derail their education and futures. Accordingly,
15 participation in high-quality after-school programs can lead to
16 improved school attendance, better behavior, and better academic
17 performance. Keeping our keiki engaged in positive after-school
18 activities will help keep them on the path toward graduation and
19 productive futures.

20 Currently, there are approximately thirty-nine thousand
21 middle and intermediate public school students in Hawaii.
22 Approximately half of the roughly fifty-one middle and

1 intermediate schools in the State receive some federal or state
2 funding for after-school programing; however, the funding is
3 inconsistent or unreliable.

4 The legislature finds that in March 2013, the lieutenant
5 governor established the resources for enrichment, athletics,
6 culture, and health initiative to develop a standardized
7 framework and funding for after-school programs for public
8 middle and intermediate school students throughout the State.
9 The establishment of a state-subsidized after-school program for
10 middle and intermediate public school students is important to
11 the future of keiki and the welfare of our State as a whole.

12 The legislature further finds that the office of youth
13 services, within the department of human services, provides
14 comprehensive front-end services and programs for youth to
15 prevent delinquency and reduce the incidence of recidivism. The
16 office is dedicated to creating opportunities for youth to
17 develop competencies that foster resiliency and enable them to
18 achieve a successful transition to young adulthood. The
19 legislature determines that the objectives of the resources for
20 enrichment, athletics, culture, and health initiative are wholly
21 aligned with those of the office of youth services.

22 The purpose of this Act is to:

- 1 (1) Statutorily establish the resources for enrichment,
- 2 athletics, culture, and health program within the
- 3 office of youth services to provide a standardized
- 4 framework and funding for after-school programs in
