TESTIMONY BY DOMINIC CAMELO IN SUPPORT OF S.B.2002 AND S.B.2003

My immediate family are victims of CPS enforcements of falsehood reports and continued fabrications of lies. They also would continue to carryout and materialize the lies by executing confirmations with a second court. Thus using this practice as a genuine evidence for family court trials.

March of 2013 my hanai son went face to face with HPD, being humble and honest to demonstrate the lies of him being accused. The police department was shameful because of errors and wrongs during questions that made no sense, because it was nothing but full fabrications of lies.

During trial, all reports from HPD immediately vanished in thin air. There were no evidence that my son's approached face to face with HPD existed.

CPS personally steered and participated into the abortion proceedings without family authorization. A court motion was set in place, as they wanted to use the court to force our family approval. When we knew it was illegal to strike. The motion vanished in thin air, again.

CPS allowed my granddaughter to drink hard liquor, meet boys, have sex, and get pregnant. This is what my family would not allow our 15 years old girl to do.

Respectfully senator Oakland, your office is going to have to purge more laws to help the innocent families of this state.

There are super professionals in this state. These bills must be presented as equal for all families and pros. You must give these bills an opened atmosphere for all professionals to digest into a better government, and not lies.

(My grandchild at age 6, releases his harm from foster care by talking to people about it. Now, he feels good and free).
