SENATE COMMITTEE ON HEALTH

SB2045, RELATING TO THE COLORECTAL CANCER SCREENING PILOT PROGRAM

**Testimony of Gary L. Gill
Acting Director of Health**

**February 3, 2014
1:30 PM, Room 229**

1 **Department's Position:** The Department of Health (DOH) supports SB2045 and defers to the priorities
2 of the Governor's Supplemental Budget request.

3 **Fiscal Implications:** Appropriated out of the general fund, the sum of \$200,000 or so much thereof as
4 may be necessary for fiscal year 2014-2015 for the establishment of the Hawaii Colorectal Cancer
5 Screening Awareness Pilot Program to the DOH.

6 **Purpose and Justification:** The DOH recognizes the importance of increasing awareness and
7 education of colorectal cancer screening and early detection in cancer control. Colorectal cancer is the
8 second leading cause of cancer death in Hawaii. Early detection of colorectal cancer greatly reduces
9 costs and increases survival rates. The DOH, through the Comprehensive Cancer Control Program will
10 continue to work with partners, including the Department of Human Services on the overall effort to
11 support awareness and screening of colorectal cancer.

12 Thank you for the opportunity to testify.
