Testimony for WTL/PSM on Feb 7, 2014 13:00PM in Conference Room 225

Submitted By	Organization	Testifier Position	Present at Hearing
Elaine Partlow	Golden Feather Farm	Support	No

Comments: Please support this important legislation to help Hawaii toward self sustainability. As an island state we are so vulnerable to disasters or even slowdowns in the world around us that supplies our goods. But as a tropical state, we have the ability to produce food and energy year round. Support the research and development of these systems.

Comments: Aloha, our family supports this bill sb2274 to exempt some sustainable living projects from certain codes and restrictions. Hawaii has a perfect climate for exploring safe, sustainable ways of living on the planet. Alternative housing and energy projects are a way for Hawaii to lead the country in development of future sustainable living on an increasingly polluted world where this is very much needed. This bill is an important step forward to support new projects and help them be successful as there are times that codes aimed at 'suburban' lifestyle developments and condo developments suddenly interfere with a landowner trying to establish solar, earth-ship or other sustainable housing projects that are kinder on the land and natural resources - which should ALWAYS be supported. Kauai cannot keep going down the full scale condo development route if it is to maintain sustainability... by supporting alternative projects to find ways of living on the island that do not put so much stress or invade so severely on natural resources - we are protecting the future generations who will live here.
