Comments: Aloha Senators, I am in full support of this bill and encourage it's passing and immediate implementation, 7/1/2014. This will help more people participate in the Energy market, save money and increase our efforts towards energy security. We do still need to address the interconnection issues discussed within SB2656. Hawaii cannot wait until 2016 to have resolution on interconnection rules. We need it in conjunction with this bill. Mahalo for your consideration.

Comments: I strongly support this bill for community solar. Renewable energy will go nowhere without the participation of the poor and those that rent. We need community solar so everyone can participate. Please pass this bill. Mahalo Ronnie Perry
