Comments: We Do Not Support any Further funding that would deny access to the people. Do not waste our hard earned taxpayers money for a project that is not needed where the rains falls frequently. Paauilo is our home town and such a project would deny access to our resources that we have access to for generations. This is not about water resources and the watershed areas, it is about recreation on our resource plains, the rains in Hamakua feeds all of the aquafirs. It should be about the former plantations to restore the running gulches to its former terrain, so that the ecosystem may again thrive with life in all the gulches that feeds the shorelines.
