Comments: I support ending this unrealistic proposal.

Aloha...

With respect I support this bill to end the big wind and cable threat to Lanai. Individual islands need to look at energy solutions that are sized appropriately for their island. How is it "green" to turn parts of neighbor islands into industrial facilities so that Oahu has renewable energy. Oahu, as an island, must come up with their own plan for energy which is right for them, but not at the cost of the other islands. Bring some sense to the energy picture.
