SCR148

Submitted on: 4/1/2014

Testimony for WTL/ENE/CPN/WAM on Apr 1, 2014 09:35AM in Conference Room 211

Submitted By	Organization	Testifier Position	Present at Hearing
Harry Kim	Individual	Oppose	No

Comments: This is in strong opposition to the proposed resolution SCR 148. I am shocked at the substitution of the proposed geothermal language in a resolution originally about fencing state parks. This is the type of action that results in people losing all faith and trust in their government to do what is right. What the proposed text would mandate the PUC to do is totally inappropriate. Please oppose this resolution. Thank you. Harry Kim 933-9208

Dear Senator,

I am writing to request that you do not allow proposed SD1 to proceed for SCR148/SR84. It is inappropriate to bypass the PUC which has the experience and responsibility to protect the community and ratepayers. It is especially inappropriate to make this back-door effort to advance the interests of companies vying to exploit Hawaii's geothermal resources. If the geothermal developer cannot provide a proposal to their prospective customer Helco that is compelling enough to make the customers want to proceed, then legislation probably isn't the answer.

Thank you for your consideration.

Paul Kuykendall

Aloha Senators,
Our organization strongly opposes these resolutions. We see them as a sneak attack to push geothermal development in resolutions concerning fencing at state parks. This is not due process. It's geothermal development jumping the fence of citizens rights to be involved in the decision making process. Please reject these resolutions.

Mahalo.

Jim Albertini
president

Subject: STRONGLY OPPOSE SCR 148/SR84

"Friday's notice for the hearing of a concurrent resolution originally urging fences around state parks includes a proposal to replace that language (see attached proposed SD1) so that the resolution tells the PUC to "ensure that the [HELCO geothermal] Request for Proposals final award is made no later than September 2014, by Decision and Order in the event HELCO refuses to make or is incapable of making an award to one or more bidders..." That's pretty brazen. The rest of the resolution is equally bold in what seems to be an attempt to advance the commercial interests of a would-be geothermal developer by over-riding the roles and responsibilities of the utility company and the regulatory agency. Even though it is untimely, late testimony opposing the proposed resolution would seem to be appropriate."

Unbelievable.

Sincerely,

Caroline Kong

Aloha Senate

I have to hand it to you, SCR 148/SR 84 crosses the line! As long as you are showing geothermal and probably a number of other industries that won't be regulated any more than the current geothermal plant is now which is not at all, when should we expect your official declaration of war against the Puna District? In all but one, perhaps two sites, they would have to frack and that means there would be a lot of angry residents up in arms. This is one of state's really bad ideas that's even worse than introducing the albezia.

Mahalo,
Dave Kisor, a rather disgusted Puna resident

To: All Senators
Subject: OPPOSE SCR 148/SR 84

Aloha Senators,
Please OPPOSE this resolution and it's proposed SD 1.

Hawai'i needs for energy development must be considered and applied while examining all of the facts and issues, not based on the desires of specific commercial interests or those proponents who have access to the legislative system.

Please OPPOSE this resolution.

Mahalo,
Suzanne Wakelin
Hawai'i resident

It would seem completely inappropriate to ask the Legislature to ignore recent developments in the world of energy production, attempting to advance commercial interests of would-be geothermal developers by over-riding the roles and responsibilities of the Hawai'i Island utility company and the regulatory agency that oversees it. The prudent idea that planning should precede action is contradicted by false urgency in compelling the award of a geothermal contract by September 2014.
