**Enterprise Honolulu, the Oahu Economic Development Board, strongly supports
SCR69 and SR34.**

We follow the lead of our Governor, Mayors, and OHA Leadership to commitment to the challenge of finding solutions to a healthy and sustainable future for Hawaii. In this regard this challenge also provides an opportunity to be mindful, open, and active in addressing the same issues which are affecting all island communities around the world. The 6 targets are a committed starting point that must inspire greater actions.

We have a crisis upon us and I have committed to be party to the solution. Our water, land, food, energy, waste, jobs, and physical infrastructure development and uses are all in our control and responsibility.

Thank you for your consideration,

Sincerely,

Pono Shim
President and CEO
