

GOV. MSG. NO. 1351

EXECUTIVE CHAMBERS
HONOLULU

DAVID Y. IGE
GOVERNOR

July 12, 2016

The Honorable Ronald D. Kouchi,
President
and Members of the Senate
Twenty-Eighth State Legislature
State Capitol, Room 409
Honolulu, Hawai'i 96813

The Honorable Joseph M. Souki,
Speaker and Members of the
House of Representatives
Twenty-Eighth State Legislature
State Capitol, Room 431
Honolulu, Hawai'i 96813

Dear President Kouchi, Speaker Souki, and Members of the Legislature:

This is to inform you that on July 12, 2016, the following bill was signed into law:

HB254 HD2 SD1 CD1

RELATING TO MEDICINES
ACT 242 (16)

Sincerely,

DAVID Y. IGE
Governor, State of Hawai'i

A BILL FOR AN ACT

RELATING TO MEDICINES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that biologics are a
2 class of medicines available to treat disease. Unlike
3 traditional drugs, which are chemically manufactured, biologics
4 are manufactured in living cells. Common biologics in use today
5 include human growth hormone, injectable treatments for
6 arthritis and psoriasis, the Hepatitis B vaccine, and stem cell
7 therapy.

8 The term "biosimilars" refers to substitute versions of
9 brand-name biologics, similar to generic versions of brand-name
10 drugs. These substitutes are not exactly identical to brand-
11 name biologics but are designed to provide commensurate benefits
12 to patients at lower costs. At least nineteen biosimilars are
13 currently approved for use in the European Union.

14 The Patient Protection and Affordable Care Act, signed into
15 law by President Barack Obama in 2010, created an abbreviated
16 licensure pathway for biological products that are demonstrated
17 to be biosimilar to or interchangeable with a biologic product
18 licensed by the United States Food and Drug Administration

1 (FDA). In early 2015, the FDA approved its first biosimilar
2 drug, Zarxio for use in the United States. Zarxio is used to
3 help prevent infections in cancer patients receiving
4 chemotherapy and is a close copy of an existing medication
5 called Neupogen. Market research reports that there are at
6 least one hundred fifty biosimilars in development.

7 As of September 15, 2015, sixteen states and Puerto Rico
8 have passed legislation to regulate the substitution of
9 biosimilars for brand-name biologics by pharmacists, and at
10 least thirty-one states have considered similar legislation.
11 Other important issues relating to state regulation of
12 biosimilars include the powers and duties of prescribing
13 authorities, notice to patients, safety, and recordkeeping.

14 The legislature further finds that the drug product
15 selection board is no longer necessary and its purpose, namely
16 creating the Hawaii additions and deletions list, is better
17 served by reassigning that responsibility to the director of
18 health and combining the responsibility to amend the list of
19 substitutable generic drug products and biological products with
20 the responsibility the director already has for initially
21 creating that same list.

1 The purpose of this Act is to:

2 (1) Allow for the regulation of biosimilar medicines to
3 ensure patient safety and access to medicines at lower
4 prices; and

5 (2) Repeal the drug product selection board and transfer
6 the board's duties of creating the list of
7 substitutable generic drug products and biological
8 products to the director of health.

9 SECTION 2. Section 328-16, Hawaii Revised Statutes, is
10 amended by amending subsection (a) to read as follows:

11 "(a) A prescription drug shall be dispensed only if its
12 label bears the following:

13 (1) The name, business address, and telephone number of
14 the seller. The business address shall be the
15 physical location of the pharmacy or the dispensing
16 practitioner's office;

17 (2) Except as otherwise authorized for expedited partner
18 therapy in section 453-52, the name of the person for
19 whom the drug was prescribed or the name of the owner
20 of the animal for which the drug was prescribed;

21 (3) The serial number of the prescription;

- 1 (4) The date the prescription was prepared;
- 2 (5) The name of the practitioner if the seller is not the
3 practitioner;
- 4 (6) The name, strength, and quantity of the drug;
- 5 (7) The "use by" date for the drug, which shall be:
- 6 (A) The expiration date on the manufacturer's
7 container; or
- 8 (B) One year from the date the drug is dispensed,
9 whichever is earlier;
- 10 (8) The number of refills available, if any;
- 11 (9) In the case of the dispensing of an equivalent generic
12 drug product, the statement "same as (brand name of
13 the drug product prescribed or the referenced listed
14 drug name)", or words of similar meaning; [~~and~~]
- 15 (10) In the case of the dispensing of an interchangeable
16 biological product, the statement "interchangeable
17 with (brand name of the biological product prescribed
18 or the referenced biological drug name)", or words of
19 similar meaning; and
- 20 [~~(10)~~] (11) Specific directions for the drug's use; provided
21 that if the specific directions for use are too

1 lengthy for inclusion on the label, the notation "take
2 according to written instructions" may be used if
3 separate written instructions for use are actually
4 issued with the drug by the practitioner or the
5 pharmacist, but in no event shall the notation "take
6 as directed", referring to oral instructions, be
7 considered acceptable.

8 If any prescription for a drug does not indicate the number of
9 times it may be refilled, if any, the pharmacist shall not
10 refill that prescription unless subsequently authorized to do so
11 by the practitioner. The act of dispensing a prescription drug
12 other than a professional sample or medical oxygen contrary to
13 this subsection shall be deemed to be an act that results in a
14 drug being misbranded while held for sale."

15 SECTION 3. Section 328-91, Hawaii Revised Statutes, is
16 amended as follows:

17 1. By adding five new definitions to be appropriately
18 inserted and to read:

19 "Biological product" or "biologic product" has the same
20 meaning as defined in Title 42 United States Code section 262,
21 as the same may be amended.

1 "Drug product" means a drug as defined in section 328-1
2 other than a biological product as defined in this part.

3 "Hawaii list of equivalent generic drug products and
4 interchangeable biological products" means the list of
5 equivalent generic drug products and interchangeable biological
6 products, which may include references to the Orange Book, the
7 Purple Book, and other published findings and approvals of the
8 United States Food and Drug Administration, created and
9 published by the director pursuant to the director's authority
10 in this part to approve drug products and biological products
11 that pharmacists may substitute with equivalent generic drug
12 products and interchangeable biological products.

13 "Interchangeable biological product" means a biological
14 product approved by the director as substitutable by pharmacists
15 and included in the Hawaii list of equivalent generic drugs and
16 interchangeable biological products.

17 "Purple Book" means the United States Food and Drug
18 Administration's "List of Licensed Biological Products with
19 Reference Product Exclusivity and Biosimilarity or
20 Interchangeability Evaluations" publication and its cumulative

1 supplements, which include a list of licensed biological
2 products with biosimilarity and interchangeability evaluations."

3 2. By amending the definition of "equivalent generic drug
4 product" to read:

5 "Equivalent generic drug product" means a drug product
6 ~~[with the same established name, active ingredient strength,~~
7 ~~quantity, and dosage form as the drug product identified in the~~
8 ~~prescription, and: (1) that is listed as therapeutically~~
9 ~~equivalent (i.e., addition) in the current Hawaii additions and~~
10 ~~deletions list; or (2) that is listed in the compendia of~~
11 ~~therapeutically equivalent generic drug products and is not~~
12 ~~listed as therapeutically inequivalent (i.e., deletion) in the~~
13 ~~Hawaii additions and deletions list.] approved by the director~~
14 as substitutable by pharmacists and included in the Hawaii list
15 of equivalent generic drug products and interchangeable
16 biological products."

17 3. By amending the definition of "savings" to read:

18 "Savings" means the financial benefit derived from
19 utilizing the substituted equivalent generic drug product or
20 interchangeable biological product from the perspective of the
21 consumer or the ultimate payer, including third party payers."

1 4. By repealing the definition of "board".

2 [~~"Board" means the drug product selection board.~~"]

3 5. By repealing the definition of "compendia of
4 therapeutically equivalent generic drug products".

5 [~~"Compendia of therapeutically equivalent generic drug
6 products" means the Orange Book and any United States Food and
7 Drug Administration documentation of any United States Food and
8 Drug Administration approved generic drug product with
9 therapeutic equivalency evaluations, including but not limited
10 to:~~

11 ~~(1) Letters of approval of Abbreviated New Drug
12 Applications with therapeutic equivalency evaluations,~~

13 ~~(2) Published listings of approved New Drug Applications
14 or approved Abbreviated New Drug Applications with
15 therapeutic equivalency evaluations; and~~

16 ~~(3) Listings of first time generics with therapeutic
17 equivalency evaluations, adopted by the director."]~~

18 6. By repealing the definition of "Hawaii additions and
19 deletions list".

20 [~~"Hawaii additions and deletions list" means:~~

1 ~~(1) A list of drug products that the board has determined~~
2 ~~to be safe, effective, and therapeutically equivalent~~
3 ~~generic drug products but are not in the compendia of~~
4 ~~therapeutically equivalent generic drugs; and~~

5 ~~(2) A list of drug products that are included in the~~
6 ~~compendia of therapeutically equivalent generic drugs,~~
7 ~~but that the board has determined not to be safe,~~
8 ~~effective, therapeutically equivalent, or~~
9 ~~bioequivalent generic drug products."]~~

10 7. By repealing the definition of "multiple source drug".

11 ~~["Multiple source drug" means a drug marketed or sold by~~
12 ~~two or more manufacturers or labelers or a drug marketed or sold~~
13 ~~by the same manufacturer or labeler under two or more different~~
14 ~~brand names, or both, under a brand name and without such a~~
15 ~~name."]~~

16 SECTION 4. Section 328-92, Hawaii Revised Statutes, is
17 amended to read as follows:

18 "§328-92 Drug product and biological product selection.

19 (a) When filling a prescription order for a drug prescribed by
20 its brand name, a pharmacist or the pharmacist's authorized
21 agent shall:

- 1 (1) Offer to the consumer an equivalent generic drug
2 product or an interchangeable biological product from
3 the [~~formulary~~] Hawaii list of equivalent generic drug
4 products and interchangeable biological products
5 adopted pursuant to section 328-96; [and]
- 6 (2) Upon the request of the consumer, inform the consumer
7 of the savings; and
- 8 (3) Inform the consumer of the consumer's right to refuse
9 substitution.

10 The pharmacist shall substitute an equivalent generic drug
11 product or an interchangeable biological product if the
12 practitioner does not prohibit substitution under subsection
13 (b), and the substitute equivalent generic drug product or
14 interchangeable biological product results in a savings. The
15 pharmacist shall not substitute if the consumer refuses.

16 (b) The pharmacist shall not substitute an equivalent
17 generic drug product or an interchangeable biological product if
18 the practitioner indicates "brand medically necessary" or words
19 of similar meaning on the prescription. The designation "brand
20 medically necessary" or other similar words or phrases must be
21 handwritten by the practitioner and shall not be preprinted or

1 stamped on the written prescription. The pharmacist shall not
2 substitute an equivalent generic drug product or an
3 interchangeable biological product if a prescription is orally
4 or electronically ordered and the practitioner or authorized
5 employee of the practitioner indicates "brand medically
6 necessary" or other similar words or phrases.

7 The pharmacist shall note the practitioner's instructions
8 on the prescription record required to be maintained under
9 section 328-17.7.

10 This subsection shall not apply when it does not comply
11 with any federal requirement for services reimbursable by
12 medicaid or medicare.

13 (c) The pharmacist shall not substitute an equivalent
14 generic drug product or an interchangeable biological product
15 for any prescription for an anti-epileptic drug, except upon the
16 consent of the practitioner and the patient or the patient's
17 parent or guardian. This narrow exception for epileptic
18 patients shall not be construed as a policy decision to make
19 exceptions for any other conditions.

20 (d) Within two business days following the dispensing of a
21 biological product, the dispensing pharmacist or the

1 pharmacist's designee shall communicate to the practitioner the
2 specific product provided to the patient, including the name of
3 the product and the manufacturer. The communication shall be
4 conveyed by making an entry that is electronically accessible to
5 the practitioner through:

6 (1) An interoperable electronic medical records system;

7 (2) An electronic prescribing technology;

8 (3) A pharmacy benefit management system; or

9 (4) A pharmacy record.

10 (e) Entry into an electronic records system as described

11 in subsection (d) is presumed to provide notice to the

12 prescriber. Otherwise, the pharmacist shall communicate the

13 biological product dispensed to the prescriber using facsimile,

14 telephone, electronic transmission, or other prevailing means,

15 provided that communication shall not be required where:

16 (1) There is no interchangeable biological product

17 approved by the United States Food and Drug

18 Administration for the product prescribed; or

19 (2) A refill prescription is not changed from the product

20 dispensed on the prior filling of the prescription.

1 ~~[(d)]~~ (f) The county prosecutors and the attorney general
2 may bring action upon complaint by an aggrieved person or upon
3 their own motion in the name of the State against any person to
4 enjoin any violation of this part."

5 SECTION 5. Section 328-94, Hawaii Revised Statutes, is
6 amended to read as follows:

7 "§328-94 Prescription record. Each pharmacist or
8 practitioner shall maintain a record of any substitution of an
9 equivalent generic drug product or an interchangeable biological
10 product for a prescribed brand name drug product as provided in
11 this part."

12 SECTION 6. Section 328-96, Hawaii Revised Statutes, is
13 amended to read as follows:

14 "§328-96 ~~[Drug formulary; Hawaii additions and deletions~~
15 ~~list.] Hawaii list of equivalent generic drug products and~~
16 interchangeable biological products. (a) The ~~[board]~~ director
17 may adopt rules, pursuant to chapter 91, to effectuate the
18 purpose of this part. Without regard to chapter 91, the
19 director may adopt as rules, and amend as necessary, the
20 ~~[compendia of therapeutically equivalent generic drug products~~
21 ~~as the state drug formulary of equivalent multiple source drug~~

1 ~~products. The board may adopt rules pursuant to chapter 91 to~~
2 ~~establish a Hawaii additions and deletions list. Upon the~~
3 ~~adoption of the compendia of therapeutically equivalent generic~~
4 ~~drug products by the director, the department shall notify all~~
5 ~~pharmacies in the State and other interested individuals, within~~
6 ~~thirty working days, that the formulary has been updated.]~~

7 Hawaii list of equivalent generic drug products and
8 interchangeable biological products, which shall serve as the
9 state list of substitutable equivalent generic drug products and
10 interchangeable biological products. The director's approval of
11 the substitutability of equivalent generic drug products and
12 interchangeable biological products shall be informed by the
13 findings of the United States Food and Drug Administration,
14 which are documented and periodically updated through the
15 following:

16 (1) For a generic drug product: the Orange Book and any
17 United States Food and Drug Administration
18 documentation of any United States Food and Drug
19 Administration-approved generic drug product with
20 therapeutic equivalency, including:

- 1 (A) Letters of approval of Abbreviated New Drug
2 Applications with therapeutic equivalency
3 evaluations;
- 4 (B) Published listings of approved New Drug
5 Applications or approved Abbreviated New Drug
6 Applications with therapeutic equivalency
7 evaluations; and
- 8 (C) Listing of first time generics with therapeutic
9 equivalency evaluations;
- 10 (2) For a biological product: approval under the Public
11 Health Service Act, the Purple Book, and any United
12 States Food and Drug Administration documentation of
13 any United States Food and Drug Administration-
14 approved interchangeability determination, including:
- 15 (A) Letters of approval of Biologic Licensing
16 Applications with a determination that the
17 biological product meets the criteria for
18 interchangeability as set forth in title 42
19 United States Code section 262(k)(4); and
- 20 (B) Published listings of approved Biologic Licensing
21 Applications with a determination that the

1 biological product meets the criteria for
2 interchangeability as set forth in Title 42
3 United States Code section 262(k) (4); and
4 (3) For a biological product approved under the Federal
5 Food, Drug, and Cosmetic Act: the Orange Book and any
6 United States Food and Drug Administration
7 documentation of any United States Food and Drug
8 Administration-approved interchangeability
9 determination, including:
10 (A) Letters of approval of approved New Drug
11 Applications or approved Abbreviated New Drug
12 Applications with therapeutic equivalency
13 evaluations; and
14 (B) Published listings of approved New Drug
15 Applications or approved Abbreviated New Drug
16 Applications with therapeutic equivalency
17 evaluations.
18 (b) The director shall maintain an official record of, and
19 update as necessary, the Hawaii list of equivalent generic drugs
20 and interchangeable biological products electronically on the

1 department's website, which shall be accessible to pharmacists
2 and other interested persons.

3 (c) The Hawaii [~~additions and deletions~~] list [~~may list~~
4 ~~additional~~] of equivalent generic drug products and
5 interchangeable biological products shall only include
6 substitutable generic drug products and interchangeable
7 biological products that are determined by the [~~board~~] director
8 to be safe, effective, and therapeutically equivalent [~~—The~~
9 ~~Hawaii additions and deletions list may delete drug products~~
10 ~~listed in the compendia of therapeutically equivalent generic~~
11 ~~drug~~] or interchangeable. The director shall not approve as
12 substitutable, and the Hawaii list of equivalent generic drug
13 products and interchangeable biological products shall not
14 include, any biological products that the United States Food and
15 Drug Administration has neither licensed and determined as
16 meeting the standards for interchangeability pursuant to Title
17 42 United States Code section 262(k) (4) nor determined as
18 therapeutically equivalent as set forth in the latest edition of
19 or supplement to the United States Food and Drug
20 Administration's approved drug products with therapeutic
21 equivalence evaluations.

1 (d) The director may remove from the Hawaii list of
2 equivalent generic drug products and interchangeable biological
3 products any products upon the [board's] director's finding that
4 [product] the safety, quality, efficacy, or therapeutic
5 equivalency or bioequivalency, as appropriate, is not adequately
6 assured.

7 ~~[(b) Pursuant to chapter 91, the Hawaii additions and~~
8 ~~deletions list may be changed, added to, or deleted from as the~~
9 ~~board deems appropriate.]~~

10 (e) Any person who requests that any [change] modification
11 be made to, or that a drug product or biological product be
12 [included or] added to [or deleted] or removed from, the Hawaii
13 [additions and deletions] list of equivalent generic drug
14 products and interchangeable biological products shall have the
15 burden of proof to show cause why the [change, inclusion,]
16 modification, addition, or [deletion] removal should be made.

17 ~~[(c) The board shall revise or supplement the Hawaii~~
18 ~~additions and deletions list as necessary.]~~

19 ~~(d) The department shall provide for distribution of the~~
20 ~~Hawaii additions and deletions list and its revisions and~~
21 ~~supplements, and the dissemination of notices of changes to the~~

1 ~~compendia of therapeutically equivalent generic drug products to~~
2 ~~all pharmacies in the State and to any other interested~~
3 ~~individuals. The department may establish fees to be charged to~~
4 ~~persons who receive the Hawaii additions and deletions list and~~
5 ~~its revisions and supplements, and notices of changes to the~~
6 ~~compendia of therapeutically equivalent generic drug products.~~
7 ~~The amounts of the fees charged shall be approximately the same~~
8 ~~as the costs of producing and distributing the Hawaii additions~~
9 ~~and deletions list and its revisions and supplements, and the~~
10 ~~notices of changes to the compendia of therapeutically~~
11 ~~equivalent generic drug products.~~

12 ~~(e)]~~ (f) Each pharmacy in the State shall [↔
13 ~~(1) Maintain and]~~ update [the compendia of therapeutically
14 ~~equivalent generic drug products]~~ and maintain its
15 physical copies and electronic records of the Hawaii
16 list of equivalent generic drug products and
17 interchangeable biological products as it is approved
18 and periodically updated and amended by the director [↔
19 and
20 ~~(2) Obtain the Hawaii additions and deletions list].~~

1 [~~f~~] (g) The department shall provide for public
2 education regarding the provisions of this part and shall
3 monitor the effects of this part."

4 SECTION 7. Section 328-97, Hawaii Revised Statutes, is
5 amended to read as follows:

6 "[~~f~~]§328-97 [~~f~~] Posting requirements. Every pharmacy shall
7 prominently display, in clear and unobstructed public view, a
8 sign in block letters [~~which~~] that shall read:

9 "HAWAII LAW REQUIRES THAT LESS EXPENSIVE GENERICALLY EQUIVALENT
10 DRUG PRODUCTS AND INTERCHANGEABLE BIOLOGICAL PRODUCTS BE OFFERED
11 TO THE CONSUMER. CONSULT YOUR PHYSICIAN AND PHARMACIST
12 CONCERNING THE AVAILABILITY OF THE LEAST EXPENSIVE DRUG PRODUCT
13 FOR YOUR USE."

14 The letters must be at least one inch in height."

15 SECTION 8. Section 328-98, Hawaii Revised Statutes, is
16 amended to read as follows:

17 "§328-98 Pharmacist liability. A pharmacist who selects
18 an equivalent generic drug product or an interchangeable
19 biological product pursuant to this part assumes no greater
20 liability for selecting the dispensed drug product than would be

1 incurred in filling a prescription for a drug product prescribed
2 by its established name."

3 SECTION 9. Section 328-95, Hawaii Revised Statutes, is
4 repealed.

5 ~~["§328-95] Establishment of drug product selection board.~~

6 ~~(a) There is established a drug product selection board~~
7 ~~composed of one representative from the department of health,~~
8 ~~one representative from either the University of Hawaii school~~
9 ~~of medicine or the University of Hawaii school of public health,~~
10 ~~two physicians, and two pharmacists, to be appointed by the~~
11 ~~governor with the advice and consent of the senate, pursuant to~~
12 ~~section 26-34. The board shall designate the chairperson from~~
13 ~~its duly appointed membership. A seventh member shall be the~~
14 ~~director of health or the director's designated representative.~~

15 ~~(b) The drug product selection board shall be placed, for~~
16 ~~administrative purposes only, within the department of health.~~

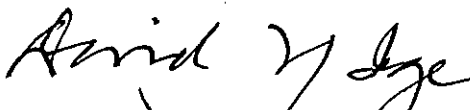

17 ~~(c) The members of the drug product selection board shall~~
18 ~~serve without compensation, but shall be reimbursed for~~
19 ~~expenses, including travel expenses, incurred in the performance~~
20 ~~of their duties."}]~~

1 SECTION 10. Statutory material to be repealed is bracketed
2 and stricken. New statutory material is underscored.

3 SECTION 11. This Act shall take effect on July 1, 2016.

APPROVED this 12 day of JUL , 2016

GOVERNOR OF THE STATE OF HAWAII
