**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

5           §346-A Program goals. The legislature finds that  
6 affordability is critical in providing Hawaii residents with  
7 access to prescription drugs. This part is enacted by the  
8 legislature to enable the State to make prescription drugs more  
9 affordable for qualified Hawaii residents and thereby increase  
10 the overall health of Hawaii residents, promote healthy  
11 communities, and protect the public health and welfare. The  
12 legislature also intends that the program be integrated as much  
13 as possible with other state health programs. It is not the  
14 intention of the legislature that this law discourage employers  
15 from offering to pay, or from paying for prescription drug  
16 benefits for their employees, or that the law supplant employer-
