
A BILL FOR AN ACT

RELATING TO YOUTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that youth suicide is a
2 serious public health problem and is the third leading cause of
3 death in the United States for people between the ages of
4 fifteen and twenty-four. Feelings of stress, confusion, self
5 doubt, pressure to succeed, financial uncertainty, or other
6 fears may cause some teenagers to feel that suicide is a
7 solution to their problems and stresses. The rate at which
8 Hawaii teens and young adults are taking their own lives has
9 more than doubled over the past five years. Compared
10 nationally, Hawaii's suicide rate is significantly higher among
11 fifteen- to nineteen-year-olds, but drops below the national
12 average for ages twenty to twenty-four.

13 The legislature further finds that according to data from
14 forty-two reporting states in the *2013 Youth Risk Behavior*
15 *Survey*, Hawaii high school students had the seventh highest
16 self-reported prevalence of considering suicide, the seventh
17 highest for making a plan to commit suicide, the seventh highest

1 for attempting suicide, and the fifteenth highest for being
2 treated for a self-inflicted injury. These statistics mean that
3 suicide is killing more teenagers than anything except for
4 serious illness.

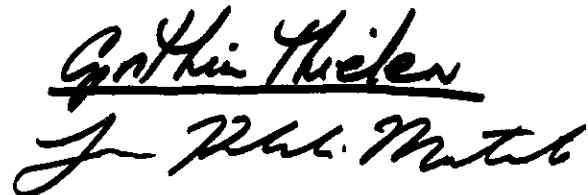

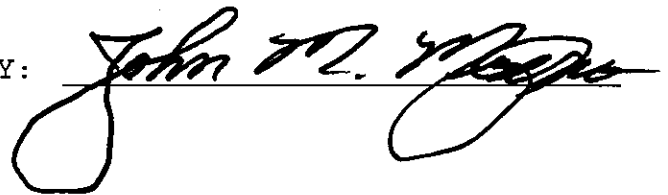

5 SECTION 2. There is appropriated out of the general
6 revenues of the State of Hawaii the sum of \$ or so
7 much thereof as may be necessary for fiscal year 2015-2016 and
8 the same sum or so much thereof as may be necessary for fiscal
9 year 2016-2017 for anti-bullying and suicide prevention efforts
10 in Hawaii's public schools.

11 The sums appropriated shall be expended by the department
12 of education for the purposes of this Act.

13 SECTION 3. This Act shall take effect on July 1, 2015.
