JUSTIFICATION SHEET

DEPARTMENT: Accounting and General Services.

TITLE: A BILL FOR AN ACT RELATING TO PROCUREMENT OF PROFESSIONAL SERVICES.

PURPOSE: To specifically authorize the Procurement Policy Board to adopt administrative rules to provide an effective procurement process for situations where a review committee receives less than three qualified persons' submittals to provide professional services under specific selection criteria.

MEANS: Amend section 103D-304, Hawaii Revised Statutes.

JUSTIFICATION: The Procurement Policy Board has authority and responsibility to adopt rules governing the procurement of professional services. The 2014 Hawaii Supreme Court case of Asato v. Procurement Policy Board, found that the Legislature specifically intended that there be a minimum of three qualified professional service providers ranked in order to proceed with procurement pursuant to section 103D-304. The Asato case noted alternative methods of procurement (small purchases pursuant to section 103D-305, sole source pursuant to section 103D-306, or emergency pursuant to section 103D-307) available to address situations of less than three qualified persons; however, there are no alternatives available for professional services by licenses under chapter 464 (professional engineers, architects, surveyors and landscape architects) other than emergency procurement (section 103D-307), pursuant to section 103D-304(a). Alternative methods of procurement that are available to other professional services in certain circumstances are often not practicable or advantageous to the state: there is often not enough time to resolicit;

redefining the scope of services is inappropriate if proper acquisition planning accurately defined the scope; emergency procurement is not intended to be utilized for ineffective solicitations; and small purchase procurement does not address the specific circumstances of professional services.

This bill will allow the Procurement Policy Board to adopt rules that provide an alternative procurement process for professional services with oversight in a realistic process for appropriate and efficient acquisition planning and implementation.

Impact on the public: None.

Impact on the department and other agencies: Agencies that procure for professional services (within the scope of the practice of architecture, landscape architecture, professional engineering, land surveying, real property appraisal, law, medicine, accounting, dentistry, public finance bond underwriting, public finance bond investment banking, or any other practice defined as professional by the laws of this State or the professional and scientific occupation series contained in the United States Office of Personnel Management's Qualifications Standards Handbook) pursuant to section 103D-304, Hawaii Revised Statutes, will be authorized to utilize alternative methods of procurement pursuant to adopted rules of the Procurement Policy Board. The Procurement Policy Board will have authority to reinstate section 3-122-66, Hawaii Administrative Rules, waiver to requirement for procurement of professional services, as an appropriate method of managing situations where the names of less than three qualified persons are submitted pursuant to section 103D-304(g), Hawaii Revised Statutes. Procurement officers will be authorized to proceed with an alternative method of

H.B. 895

procurement with less than three qualified persons.

OTHER FUNDS: None.

PPBS PROGRAM DESIGNATION: None.

OTHER AFFECTED AGENCIES: All state and county agencies that procure for professional services under the procurement code.
