JUSTIFICATION SHEET

DEPARTMENT: Transportation

TITLE: A BILL FOR AN ACT RELATING TO DRIVER LICENSING.

PURPOSE: To amend the law relating to fees charged to driver's license applicants.

MEANS: Amend section 286-111, Hawaii Revised Statutes.

JUSTIFICATION: The computer equipment used in Hawaii's driver licensing program has become quite sophisticated during the State's move to comply with Real ID requirements. For example, many of the documents that are presented by applicants can be scanned and quickly authenticated to ensure the applicant's true identity. However, to continue to meet the needs of the licensing program, the computers and software need to be maintained and updated regularly so they are abreast of changes that are made to official documents that are used not only in this country but in many other countries around the world. Although federal funding was used for the acquisition and initial maintenance and update costs, the State must absorb the continuing costs and future updates. Giving the director authority to establish a small application fee can accomplish this.

Impact on the public: The maintenance fee will be less than a dollar, so it will have virtually no financial impact on the public, and the driver's license document will continue to be of high integrity and credibility.

Impact on the department and other agencies: The department will be able pay for the software maintenance and upgrades. No anticipated impact on other agencies.

GENERAL FUND: None.

OTHER FUNDS: The Highway fund will receive about \$110,000 per year to pay for the computer maintenance and software update expenses.

PPBS PROGRAM
DESIGNATION: TRN 595.

OTHER AFFECTED
AGENCIES: All county drivers license offices will function more efficiently with adequate software maintenance and updates.

EFFECTIVE DATE: Upon approval.
