
HOUSE CONCURRENT RESOLUTION

URGING THE DEPARTMENT OF LAND AND NATURAL RESOURCES TO MANAGE
WILDLIFE TO SUSTAIN GAME POPULATIONS, PROVIDE GREATER
PUBLIC ACCESS TO LAND FOR HUNTING, AND IMPROVE MANAGEMENT
TO SUPPORT HUNTING.

1 WHEREAS, the Department of Land and Natural Resources and
2 its Division of Forestry and Wildlife have not adopted a plan
3 for wildlife management that addresses game as a resource for
4 food and recreation; and

5
6 WHEREAS, the Legislature finds that active game management
7 to produce game for subsistence and recreational hunting should
8 be a goal of wildlife management; and

9
10 WHEREAS, interpretations of wildlife management vary
11 considerably among biologists and other wildlife experts but the
12 following three concepts are common among definitions of
13 wildlife management:

- 14
15 (1) Efforts directed toward wild animal populations;
16
17 (2) Relationship of habitat to wild animal populations;
18 and
19
20 (3) Manipulation of habitats or populations to meet some
21 specified societal goal; and
22

23 WHEREAS, the Legislature affirms that managing game for
24 subsistence and recreational hunting is a goal of wildlife
25 management; and
26

27 WHEREAS, the Department of Land and Natural Resources and
28 its Division of Forestry and Wildlife are responsible for
29 conducting habitat and wildlife population inventories and

1 evaluations, determining public priorities for wildlife
2 resources, and directing management efforts to pursue goals that
3 recognize public priorities, including priorities regarding the
4 manipulation of habitat and wildlife populations; and

5
6 WHEREAS, the Legislature finds that many people confuse
7 game management with wildlife preservation; and

8
9 WHEREAS, the Legislature finds that conservation is an
10 effort to maintain and use natural resources wisely with the
11 goal of ensuring that those resources remain available for
12 future generations; and

13
14 WHEREAS, the wise use of resources may vary from actively
15 managing wildlife populations by hunting to protecting and
16 preserving populations and habitats; and

17
18 WHEREAS, in situations where wildlife populations are in
19 danger of extinction, the preservation of wildlife and habitat
20 can require leaving natural systems undisturbed by humans; and

21
22 WHEREAS, game management is also a component of
23 conservation and usually involves controlling, directing, or
24 manipulating wildlife populations or their habitats; and

25
26 WHEREAS, wildlife managers often seek to increase,
27 decrease, or stabilize wildlife populations so that wildlife may
28 be removed on a regular and continuing basis; now, therefore,

29
30 BE IT RESOLVED by the House of Representatives of the
31 Twenty-eighth Legislature of the State of Hawaii, Regular
32 Session of 2016, the Senate concurring, that the Department of
33 Land and Natural Resources and its Division of Forestry and
34 Wildlife are urged to actively manage wildlife to sustain game
35 populations; and

36
37 BE IT FURTHER RESOLVED that the Department of Land and
38 Natural Resources and its Division of Forestry and Wildlife are
39 also urged to provide greater public access to land for hunting;
40 and

H.C.R. NO. 100

1 BE IT FURTHER RESOLVED that the Department of Land and
2 Natural Resources and its Division of Forestry and Wildlife are
3 further urged to improve evaluation and management efforts on
4 each island to support hunting; and

5
6
7
8
9
10
11
12

BE IT FURTHER RESOLVED that certified copies of this
Concurrent Resolution be transmitted to the Governor, the
Chairperson of the Board of Land and Natural Resources, and the
Mayor of each county.
