# A BILL FOR AN ACT

RELATING TO HEALTH.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that community health  
2 centers serve uninsured, underinsured, low-income patient  
3 populations with demographic complexities and co-morbidities, in  
4 addition to one-fourth of the State's medicaid members.

5 Community health centers:

6           (1) Are nonprofit, community-based organizations whose  
7 purpose and expertise lie in providing quality person-  
8 centered health care to underserved populations and  
9 areas;

10           (2) Provide culturally and linguistically appropriate  
11 health care and a broad range of integrated primary  
12 care and preventive services;

13           (3) Operate in medically-underserved areas where people  
14 have limited access to other health care providers  
15 because of geographic and socio-economic barriers;

16           (4) Contribute greatly to the economies and livability of  
17 the communities they serve; and

1           (5) Are cost-effective quality health care providers whose  
2           care results in healthier patients and decreased use  
3           of emergency, specialty, and in-patient services.

4           Community health centers save the health care system \$1,263  
5 per patient per year due to timely, effective care and care  
6 management that reduces unnecessary emergency room, in-patient,  
7 and specialty utilization. This translated to savings of more  
8 than \$90,000,000 for Hawaii's medicaid program in 2013. Their  
9 patient-centered delivery system features comprehensive primary  
10 medical, behavioral health, and dental services; care management  
11 and enabling services that enhance access, compliance, and  
12 patient engagement; and focus on quality outcomes supported by  
13 electronic health records that conform to meaningful use  
14 requirements. Community health centers are smart investments  
15 that result in healthier communities while saving the State  
16 money.

17           The legislature finds that it is in the best interest of  
18 the State to ensure access to primary, behavioral, dental, and  
19 preventive health care for its residents. In addition to  
20 facilitating a healthier population, improving access to health

1 care reduces state expenditures attributable to hospital and  
2 emergency room services for preventable injuries or illnesses.

3 SECTION 2. The legislature finds that the State's  
4 federally-matched medicaid and med-QUEST programs form an  
5 essential support for underserved individuals and for community  
6 health centers. Among the medicaid programs that need to be  
7 fully funded are dental benefits for adults and outreach and  
8 enrollment services.

9 Oral health is as important as any other physical or mental  
10 health need and dental diseases contribute to cardiac health and  
11 premature births. Unaddressed dental needs affect the ability  
12 of individuals to obtain and keep employment.

13 Med-QUEST programs offer insurance options for low-income  
14 uninsured citizens. Under the federal Patient Protection and  
15 Affordable Care Act of 2010, such programs will expand to  
16 accommodate additional uninsured adults. It is in the best  
17 interest of the State to ensure that community programs reach  
18 out to and assist individuals and families with children to  
19 enroll in med-QUEST and other social support programs for which  
20 they are eligible.

1           Accordingly, the purpose of this Act is to provide quality,  
2 cost-effective health care for Hawaii residents who are  
3 uninsured, newly uninsured, underinsured, potential medicaid  
4 enrollees, or medicaid enrollees.

5           SECTION 3. There is appropriated out of the general  
6 revenues of the State of Hawaii the sum of \$4,800,000 or so much  
7 thereof as may be necessary for fiscal year 2015-2016 and the  
8 same sum or so much thereof as may be necessary for fiscal year  
9 2016-2017 to restore basic adult dental benefits to medicaid  
10 enrollees.

11           The sums appropriated shall be expended by the department  
12 of human services for the purposes of this Act.

13           SECTION 4. There is appropriated out of the general  
14 revenues of the State of Hawaii the sum of \$800,000 or so much  
15 thereof as may be necessary for fiscal year 2015-2016 and the  
16 same sum or so much thereof as may be necessary for fiscal year  
17 2016-2017 to provide outreach and eligibility services,  
18 including medicaid and children's health insurance program  
19 eligibility, for children, families, and individuals at  
20 federally qualified health centers. The department of human

1 services shall obtain the maximum federal matching funds  
2 available for this expenditure.

3 The sums appropriated shall be expended by the department  
4 of human services for the purposes of this Act.

5 SECTION 5. There is appropriated out of the community  
6 health centers special fund the sum of \$1,000,000 or so much  
7 thereof as may be necessary for fiscal year 2015-2016 and the  
8 same sum or so much thereof as may be necessary for fiscal year  
9 2016-2017 to be transferred to the department of human services  
10 and expended to establish health care homes for medicaid  
11 enrollees at federally qualified community health centers as  
12 provided in the federal Patient Protection and Affordable Care  
13 Act of 2010. The department of human services shall obtain the  
14 maximum federal matching funds available for this expenditure.

15 The sums appropriated shall be expended by the department  
16 of human services for the purposes of this Act.

17 SECTION 6. This Act shall take effect on July 1, 2015.
