# SENATE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF EDUCATION TO REDUCE THE USE OF  
STANDARDIZED TESTING IN THE PUBLIC EDUCATION SYSTEM.

1           WHEREAS, enactment of the federal No Child Left Behind law  
2 in 2001 and Race to the Top program in 2009 shifted national  
3 education priorities from inquiry-based teaching to standardized  
4 testing; and

5  
6           WHEREAS, our nation's school systems spend increasing  
7 amounts of time, money, and energy on standardized testing, in  
8 which student performance on standardized tests is used to  
9 evaluate individual students, educators, and schools; and

10  
11           WHEREAS, an overemphasis on standardized testing has  
12 negatively impacted public schools, teachers, and students by  
13 narrowing academic curricula, reducing arts and cultural  
14 education, causing teachers to teach to the test, decreasing  
15 whole child and vocational programming, and creating a climate  
16 of compliance and fear among students, teachers, and  
17 administrators; and

18  
19           WHEREAS, the negative impact of standardized testing most  
20 directly affects low-income students, English language learners,  
21 students from minority ethnic backgrounds, and students with  
22 disabilities; and

23  
24           WHEREAS, according to a 2014 study conducted by the  
25 National Education Association, seventy-two percent of teachers  
26 feel considerable pressure to improve test scores and a majority  
27 of teachers report spending too much time on testing and test  
28 preparation, with the average teacher spending approximately  
29 thirty percent of their time on tasks related to standardized  
30 tests; and

31  
32           WHEREAS, the 2014 PDK/Gallup Poll of the Public's Attitudes  
33 Toward the Public Schools found that only thirty-one percent of

1 parents support using standardized test scores to evaluate  
2 teachers; and

3  
4 WHEREAS, there is a diverse and bipartisan movement to opt  
5 out of standardized testing led by students, parents, teachers,  
6 administrators, and organizations including the National Center  
7 for Fair and Open Testing and United Opt Out National; and

8  
9 WHEREAS, the Department of Education administers  
10 standardized tests in multiple grade levels that are aligned  
11 with the Common Core State Standards, including the Smarter  
12 Balanced Assessment; and

13  
14 WHEREAS, in the 2014-2015 school year, approximately 93,000  
15 Hawai'i public school students in grades three to eight and grade  
16 eleven took standardized tests aligned with the Common Core  
17 State Standards, at a cost of \$65 per test; and

18  
19 WHEREAS, the estimated cost of standardized testing does  
20 not include time spent on test preparation, interim testing,  
21 test-driven curricula, classroom materials related to  
22 standardized testing, computer equipment and personnel needed to  
23 administer standardized tests, consultants contracted to assist  
24 with assessment preparation and delivery, and the opportunity  
25 cost of educational programs eliminated to increase time for  
26 standardized testing; and

27  
28 WHEREAS, in 2015, President Barack Obama criticized the  
29 proliferation of standardized testing throughout the nation and  
30 called on school districts to limit time spent preparing for and  
31 taking standardized tests to no more than two percent of a  
32 student's instructional time; and

33  
34 WHEREAS, the federal Every Student Succeeds Act provides  
35 states with increased flexibility in the use of standardized  
36 testing, including eliminating federally mandated inclusion of  
37 standardized tests in teacher evaluations, allowing states to  
38 choose what test to use for annual school assessments,  
39 permitting states to institute a cap limiting the amount of time  
40 that students spend preparing for and taking standardized tests,  
41 and providing funding to states for auditing and streamlining  
42 assessment systems; and

# S.C.R. NO. 157

1  
 2 WHEREAS, numerous states have begun implementing authentic  
 3 assessments, which deemphasize standardized testing and,  
 4 instead, focus on student performance indicators that promote  
 5 critical thinking, open-ended questioning, and collaborative  
 6 learning; now, therefore,

7  
 8 BE IT RESOLVED by the Senate of the Twenty-eighth  
 9 Legislature of the State of Hawaii, Regular Session of 2016, the  
 10 House of Representatives concurring, that the Department of  
 11 Education is requested to reduce the use of standardized testing  
 12 in the public education system; and

13  
 14 BE IT FURTHER RESOLVED that the Board of Education is  
 15 requested to develop and implement authentic assessments for  
 16 schools that do not require extensive standardized testing; and

17  
 18 BE IT FURTHER RESOLVED that the Department of Education is  
 19 requested to limit the number of days a student spends preparing  
 20 for or taking standardized tests, including practice and interim  
 21 tests, to no more than three days per school year; and

22  
 23 BE IT FURTHER RESOLVED that the Department of Education is  
 24 requested to inform students and parents about the purpose,  
 25 potential impact, and protocol of any standardized test that a  
 26 student is expected to take, including the right to opt out of  
 27 statewide standardized testing; and

28  
 29 BE IT FURTHER RESOLVED that certified copies of this  
 30 Concurrent Resolution be transmitted to the Governor, Lieutenant  
 31 Governor, Chairperson of the Board of Education, and  
 32 Superintendent of Education.
