
SENATE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENTS OF HEALTH AND EDUCATION TO
COLLABORATE ON EDUCATIONAL INFORMATION AND MATERIALS ABOUT
THE HUMAN PAPILLOMAVIRUS VACCINE THAT CAN BE PROVIDED TO
PARENTS OF PUBLIC MIDDLE AND INTERMEDIATE SCHOOL CHILDREN.

1 WHEREAS, according to the federal Centers for Disease
2 Control and Prevention, human papillomavirus is a very common
3 virus, with about 79,000,000 Americans currently infected and
4 about 14,000,000 people newly infected each year; and
5

6 WHEREAS, human papillomavirus can cause cervical, vaginal,
7 and vulvar cancers in women; penile cancer in men; and anal
8 cancer, cancer of the throat, and genital warts in men and
9 women; and
10

11 WHEREAS, the human papillomavirus vaccine is an important
12 vaccine that can protect against infection and the cancers
13 caused by human papillomavirus; and
14

15 WHEREAS, the federal Centers for Disease Control and
16 Prevention recommends the human papillomavirus vaccine for
17 preteen boys and girls at age eleven or twelve, so they are
18 protected prior to being exposed to the virus; and
19

20 WHEREAS, the human papillomavirus vaccine also produces a
21 more robust immune response during the preteen years, which
22 could mean better protection for preteens who receive this
23 vaccine; and
24

25 WHEREAS, according to the federal Centers for Disease
26 Control and Prevention, vaccination rates in Hawaii to protect
27 against human papillomavirus are relatively low, with only
28 thirty-four per cent of women and fifteen percent of men in the
29 State being fully immunized; and
30

1 WHEREAS, there is a need to increase public awareness about
2 the human papillomavirus vaccine among parents and children;
3 now, therefore,
4

5 BE IT RESOLVED by the Senate of the Twenty-eighth
6 Legislature of the State of Hawaii, Regular Session of 2016, the
7 House of Representatives concurring, that the Departments of
8 Health and Education are requested to collaborate on educational
9 information and materials about the human papillomavirus vaccine
10 that can be provided to parents of public school children; and
11

12 BE IT FURTHER RESOLVED that the Department of Health is
13 requested to develop the information on human papillomavirus and
14 produce educational information and materials for distribution,
15 based on recommendations of the Advisory Committee on
16 Immunization Practices of the Centers for Disease Control and
17 Prevention; and
18

19 BE IT FURTHER RESOLVED that the educational information and
20 materials produced by the Department of Health are requested to
21 be disseminated by the Department of Education during student
22 orientation to parents of children who are attending public
23 middle schools and public intermediate schools in Hawaii; and
24

25 BE IT FURTHER RESOLVED that the Departments of Health and
26 Education are requested to seek and obtain private or federal
27 funding to assist with the financing of the actions requested by
28 this measure; and
29

30 BE IT FURTHER RESOLVED that certified copies of this
31 Concurrent Resolution be transmitted to the Director of Health
32 and Chairperson of the Board of Education.
