

STAND. COM. REP. NO.

2898

Honolulu, Hawaii

MAR 18 2016

RE: S.C.R. No. 49
S.D. 1

Honorable Ronald D. Kouchi
President of the Senate
Twenty-Eighth State Legislature
Regular Session of 2016
State of Hawaii

Sir:

Your Committee on Commerce, Consumer Protection, and Health,
to which was referred S.C.R. No. 49 entitled:

"SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF HEALTH
TO ENDORSE THE "SCREEN AT 23" CAMPAIGN THAT SCREENS ADULT
ASIAN AMERICANS FOR TYPE 2 DIABETES AT A BODY MASS INDEX OF
23,"

begs leave to report as follows:

The purpose and intent of this measure is to urge the
Department of Health to endorse the "Screen at 23" campaign that
screens adult Asian Americans for type 2 diabetes at a body mass
index of 23.

Your Committee received testimony in support of this measure
from the Department of Health and thirteen individuals.

Your Committee finds that diabetes is the fifth leading cause
of death among Asian Americans. Asian Americans face a health
care disparity in type 2 diabetes detection and diagnosis, as the
current guidelines for screening Asian Americans at a body mass
index of 25 not only miss thirty-two percent of diabetes diagnoses
in Hawaii, but also underestimate the prevalence of pre-diabetes
among Asian Americans.

Your Committee further finds that early detection and
treatment can mitigate diabetes-related complications, risks, and
costs, as interventions focusing on nutrition, physical activity,
and healthy weight loss have been shown to reverse pre-diabetes,

2016-1680 SCR SSCR SMA.doc

improve glucose function in people with diabetes, and reduce the need for multiple medications. Screening Asian American patients at a body mass index of 23 instead of 25 would unmask thousands of new diabetes cases and more than three times that amount of new pre-diabetes cases in the State. This measure allows Hawaii the opportunity to be one of the first states to formally recognize and recommend screening adult Asian Americans for type 2 diabetes at a body mass index of 23, enabling thousands of individuals to get the early care and treatment needed to live healthier lives.

Your Committee has amended this measure by:

- (1) Inserting findings related to the United States Preventative Services Task Force's recommendation about earlier screening for persons in certain ethnic groups due to increased risk for diabetes at a younger age or lower body mass index; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 49, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 49, S.D. 1.

Respectfully submitted on
behalf of the members of the
Committee on Commerce, Consumer
Protection, and Health,

ROSALYN H. BAKER, Chair

The Senate
 Twenty-Eighth Legislature
 State of Hawai'i
