

and materials (e.g., videos) to support recruitment and enrollment efforts for the Living Well Hawai'i Project. In May 2014, I received an award from the Governor of the State of Hawai'i and the Director of Health for my work on the Cooperative Agreement to Benefit Homeless Individuals (i.e., Hawai'i Pathways Project). In October 2014, I received a second award from the Director of Health for my work on the Primary and Behavioral Health Care Integration Initiative.

**03/2011 –
05/2012**

Lead Evaluator (Part-Time)

Hawai'i State Department of Health, Child and Adolescent Mental Health Division
Project Kealahou (SAMHSA Child Mental Health Initiative; SM059024)
Honolulu, Hawai'i

Project Kealahou is a six-year Substance Abuse and Mental Health Services Administration (SAMHSA) System of Care grant that aims to work across child-service systems to provide trauma-informed, gender-responsive, family-centered treatment services to adolescent girls who have experienced significant trauma. As the Lead Evaluator, I supervised and trained evaluation staff in collecting, managing, and submitting data for the National Evaluation of the Comprehensive Community Mental Health Services for Children and their Families Program. I developed protocols for collecting mental health services data to inform the project's process evaluation, organized dossiers to help inform the process evaluation, guided continuous quality improvement activities, and created a staff support website that provided staff access to different forms, calendars, policies and procedures, and information on different resources in the community.

**01/2011 –
03/2012**

Research Associate (Volunteer)

University of Hawai'i, Myron B. Thompson School of Social Work
Honolulu, Hawai'i

I assisted with developing the data management and evaluation plan to assist an indigenous, early intervention education program. I assisted with collective and analyzing data and writing evaluation reports.

**03/2009 –
08/2011**

Team Leader

Helping Hands Hawai'i
Community Based Case Management (CBCM) & Community Based Care Coordination (CBCC) Programs
Honolulu, Hawai'i

Helping Hands Hawai'i's CBCM and CBCC programs provide care coordination, case management, 24-hour crisis management, psychiatric services, and recovery-oriented support services to adults with serious mental illness. As the Team Leader, I supervised 12 case managers, 2 nurses, and 2 graduate social work practicum students. I revised existing policies and procedures to better guide CBCM and CBCC services. I trained staff in organizing comprehensive, strengths-based case assessments and implemented recovery-oriented standards for developing master recovery (treatment) plans. I assumed responsibility for training staff, and guiding the program's quality improvement activities. I also launched a staff support intranet site that ensured all staff had access to all policies and procedures, schedules, and community resources. In 2010, United Self-Help, a consumer-run support organization, recognized the CBCM program as Treatment Team of the Year for the State of Hawai'i.

**06/2005 –
03/2009**

Evaluation Coordinator

University of Hawai'i, Mental Health Services Research, Evaluation, and Training (MHSRET) Program
Honolulu, Hawai'i

The MHSRET Program was a collaborative project between the Hawaii State Department of Health's Adult Mental Health Division (AMHD) and the University of Hawai'i. The MHSRET program provided support to the State Mental Health Authority through grant writing, data management and program evaluation, workforce development, and management information systems. As the Evaluation Coordinator, I assisted the Lead Evaluator with meeting evaluation requirements for the Evidence Based Training and Evaluation Grant (SM56159), Mental Health Transformation State Incentive Grant (SM57457), and State Incentive Grant for Treatment of Persons with Co-Occurring Substance Related and Mental Disorders (COSIG; TI15351). In addition, I developed protocols for collecting and managing data for different research initiatives, prepared institutional review board applications, trained and supervised evaluation staff, oversaw recruitment and retention of human

subjects in a three-year cross-site evaluation study, and conducted fidelity assessments for three evidence-based practices in behavioral health (i.e., Integrated Treatment for Co-Occurring Disorders, Assertive Community Treatment, and Illness Management and Recovery).

**05/2005 –
12/2006**

Youth-to-Adult Transition Specialist

University of Hawai'i, Mental Health Services Research, Evaluation, and Training (MHSRET) Program
&
Hawai'i State Department of Health, Adult Mental Health Division
Honolulu, Hawai'i

The State Council on Mental Health approved Mental Health Block Grant monies to fund a short-term, continuous quality improvement project that aimed to enhance transition service processes between the child and adult mental health systems. As the Youth-to-Adult Transition Specialist, I introduced and helped implement standard operating procedures to improve current processes for transitioning youth from the Department of Health's Child and Adolescent Mental Health Division (CAMHD) to the AMHD, monitored referrals from the CAMHD, and supported CAMHD staff involved in transition efforts.

**06/2004 –
05/2005**

Graduate Social Work Intern

Hawai'i State Department of Health, Adult Mental Health Division
Honolulu, Hawai'i

I aided the Division with improving its capacity to serve adults with co-occurring serious mental illness and substance use disorders by training providers to systematically screen consumers for substance use, and developing agency-specific databases that helped inform management with allocating different resources.

**06/2003 –
05/2004**

Social Work Intern

Helping Hands Hawai'i, Assertive Community Treatment (ACT) Program
Honolulu, Hawai'i

I facilitated and organized a curriculum for an intensive outpatient treatment group that focused on illness management, medication management, and relapse prevention for adults with co-occurring serious mental illness and substance use disorders.
