

**Mission**

I, Malia Tallett, desire to become a strong and a well-recognized physical therapist in my community. I strive to provide the best possible care for the patient and my community. My career goals are to continue to expand my knowledge base, become a roll model for my peers and future therapists; and hopefully, assist in molding the future of physical therapy in my hometown. It is important that I am able to learn, teach, and educate those who walk into my office: students, patients, and family members.
