

**LATE**

February 27, 2016

Senator Rosalyn Baker  
Chair of Commerce, Consumer Protection and Health Committee  
Hawaii State Legislature

Dear Senator Baker,

I would like to provide testimony in supporting Tammie Napoleon for appointment to the State Board of Nursing Board of Directors. I have known Tammie for over 6 years as a colleague at Kauai Community College. I believe she would make an excellent candidate for the State Board of Nursing. Tammie displays a well-rounded knowledge of nursing education and its requirements. She is intelligent and hardworking and always gives 100 percent of her effort to everything that she does. Tammie is also well-liked by her peers and is easy to get along with and I believe will be a wonderful asset to the State Board of Nursing. Tammie demonstrates excellent leadership qualities as she is currently the Division Chair for the Health Education Division at KCC. Tammie and I worked closely together when I was the Program Director at Kauai Community College and I always found her to be very approachable, friendly and eager to provide assistance when needed. These are important characteristics to have when serving on a board with others.

Thank you for allowing me to send testimony in support of Tammie. I hope that the Committee will recommend her to the State Board of Nursing. If you have any questions or concerns, please feel free to contact me at [Tstogner@chamberlain.edu](mailto:Tstogner@chamberlain.edu).

Sincerely,

Tracy Stogner  
Faculty Manager Graduate Program-Online  
Chamberlain College of Nursing
