Comments: When I taught second grade many years ago, I had a student who came to me who had been testing herself since she was a small child. Her family and I had to fight to allow her to continue to do so. At that time, it was important for me to be able to help her read her charts and though she administered to be there for her. I think this is an important issue and if someone volunteers to help then they should be clear to do so with no liability personally.

*“People will forget what you said, they will forget what you did, but they will never forget how you made them feel! Maya Angelou*

*I stand in resounding support of HB 2494 which authorizes DOE employees to volunteer to administer or assist a student with blood glucose monitoring with reservation. They are as follows:*

- *That there be a minimum of (3) persons trained if no full time nurse is assigned to the school.*
- *That there must be a training, test administered to check skill.*
- *That there be a record of the staff school by school of who has been trained with expiration date.*
- *That there be a sample task, skills checklist.*
- *That there be a minimum passing score of 80%.*
- *That there be a card issued similar to the CPR indicating training.*
- *That they be included with the Good Samaritan coverage.*
