LATE

SB3031

Submitted on: 2/10/2016

Testimony for WLA on Feb 10, 2016 15:30PM in Conference Room 224

Submitted By	Organization	Testifier Position	Present at Hearing
Dave Kisor	Individual	Support	No

Comments: Repairing aging systems often takes up more money and materials than it would be to install a new system, but if there is to be hemp grown and it is essentially a weed, it doesn't need as much water as sugarcane. Unless of course it's a GMO variety and it needs twice as much water, like the cotton Monsanto sold the farmers in India, then all bets are off!

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.
