Post Office Box 621
Honolulu, Hawaii 96809**

Testimony of
Leimana DaMate, Executive Director

Before the House Committees on
Water & Land
Ocean, Marine Resources, & Hawaiian Affairs

Monday, March 23, 2015
11:00 P.M.
State Capitol, Conference Room 325

**In SUPPORT of
Senate Bill 786 SD 2
Relating to the Aha Moku Advisory Committee**

Senate Bill 786 SD 2 appropriates funds for the administration and operation of the Aha Moku Advisory Committee and for community outreach. SD 2 has an effective date of 7/1/2050. **The Aha Moku Advisory Committee (AMAC) supports this measure but asks that the effective date be changed to July 1, 2015.** Currently, funding for AMAC will be exhausted by the end of June, 2015.

The Aha Moku System encompasses the eight main Hawaiian Islands and supports the traditional and generational knowledge of the people who are connected to each of the 43 moku and 587 ahupua'a. The system was restored by John Kaimikaua, a noted Moloka'i historian through translations of ancient oral chants from the 9th century, a time where sustainability and protection of resources ensured existence. It was a time where the focus of the people of the land was on survival. Those resource practices were handed down through the generations and many are still used today. The Aha Moku today is centered around sharing that knowledge with those who are now part of ahupua'a communities – the focus is on natural and cultural resource sustainability.

The purpose of the Aha Moku Advisory Committee, representatives of each of the eight main Hawaiian Islands is to be the liaison between their islands to the Chairman of the Board of Land and Natural Resources to whom recommendations in regards to resources may be made on behalf of their ahupua'a communities. This continues to progress and is done successfully as reflected in the Legislative Report submitted each year in English and Hawaiian. An administrative structure that ensures this collaboration with the islands and the AMAC has been instigated along with a communications and reporting format.

However, organizing all of the ahupua'a so resource issues can be accurately addressed in each one is daunting because of budget restraints. The AMAC has only been in operation since June of 2013 and yet has completed many of the objectives listed in their strategic plan. This is reflected in the 2014 and 2015 legislative reports.

The AMAC is in the process of community outreach educational efforts on the benefits of the Aha Moku System in its relationship with DLNR, OHA and many other non-governmental agencies, Native Hawaiian

**Department of Land and Natural Resources
Aha Moku Advisory Committee
State of Hawaii
Post Office Box 621
Honolulu, Hawaii 96809**

Organizations, groups and communities. It is open to the public and although is Native Hawaiian in nature, it focuses on protection and sustainability of Hawaii's unique and special ecosystem. Everyone now is a Stakeholder in the fortification of our lands and oceans. Aha Moku is a strong partner in safeguarding our assets. However, we need the funding and support of the Legislature to ensure the protection of our wealth – the wealth of Hawaii, the irreplaceable natural and cultural resources that can be found nowhere else in the world.

We humbly ask that the Senate Ways and Means Committee pass SB 786 SD 2 but ask that the effective date be changed from 7/1/2050 to 7/1/2015.

SB786 SD2
RELATING TO THE AHA MOKU ADVISORY COMMITTEE
House Committee on Water & Land
House Committee on Ocean, Marine Resources, & Hawaiian Affairs

March 23, 2015

11:00 a.m.

Room 325

The Office of Hawaiian Affairs offers the following **COMMENTS** on SB786 SD2, which appropriates an unspecified amount of funds to be spent by the Department of Land and Natural Resources for the administration, operation, and outreach of the Aha Moku Advisory Committee.

The Advisory Committee has a commendable mission of advising the Chairperson of the Board of Land and Natural Resources on such important matters as:

- Integrating indigenous resource management practices with Western management practices in each moku;
- Fostering the understanding and practical use of Native Hawaiian resource knowledge, methodology, and expertise; and
- Sustaining the state's marine, land, cultural, agricultural, and natural resources.

Although the Advisory Committee's mission and efforts benefit all who call Hawai'i home, OHA is currently the sole funder of the committee, and has kept it alive by an infusion of nearly \$250,000 in OHA trust funds. Funding from the state, as this measure proposes, is critically necessary for the Advisory Committee to continue to carry out its mission. OHA believes that it is appropriate for the state to resume funding this important and innovative approach to natural and cultural resource management.

Mahalo for the opportunity to testify on this measure.

Comments: The Kalihi Palama Hawaiian Civic Club testifies in support of SB 786, SD2, Relating to the 'Aha Moku Advisory Committee, that would appropriate funds for the administration and operation of the 'Aha Moku Advisory Committee and for community outreach. In 2012, the legislature established the 'Aha Moku Advisory Committee by Act 288, Session Laws of Hawaii 2012 and placed it within the Department of Land and Natural Resources for administrative purposes. Passage of this bill is critically needed in order to enable the Committee to do the work envisioned by the legislature. Otherwise, Act 288 is an empty action of the legislature and this state. Please support SB786, SD2.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.

SB 786SD2 RELATING TO THE AHA MOKU ADVISORY COMMITTEE

HOUSE COMMITTEE ON WATER & LAND

Monday, 3/23/15; 11:00 a.m.; Room 325

Aloha Chairman Yamane, Vice Chair Cullen and members of the House Committee on Water and Land. The Association of Hawaiian Civic Clubs (AHCC), including sixty seven component clubs in all areas of Hawaii and sixteen states on the continent, stands in support of the Aha Moku Advisory Committee.

Since its inception the AHCC has supported the Aha Moku concept and continues to do so. Always underfunded, the members of the committee have persevered and slowly but surely the committee has begun to make its presence felt. We respect their patience and endurance as once again the committee seeks funding to continue to exist and share their expertise.

We urge passage of this bill. Thank you for the opportunity to support SB786SD1.

Subject: Support of the passage of S.B. 786 S.D.2

To Whom it May Concern,

I am a coach for Kamaha'o Canoe Club located in the Moku of Ewa. Since learning about the Aha Moku and its advisory committee a year ago, I believe that its existence is necessary to the Native Hawaiian community. The Aha Moku Advisory Committee (AMAC) and its connection with DLNR and The Legislature helps perpetuate and preserve cultural land and ocean practices. With the help of DLNR and The Legislature, cultural practitioners help increase awareness through community involvement. I strongly support the Aha Moku and its need for appropriation of funds.

Since the establishment of the Aha Moku, they have continuously fulfilled the mandates of Act 288 by working with 43 moku throughout the state of Hawaii. Today, 587 traditional ahupua'a are now recognized within the state and are currently becoming organized Island by island. In 2014 alone, over 40 individual issues were brought forth by the ahupua'a people to DLNR and were either mitigated or are in the process of being mitigated.

The Moku and ahupua'a communities are comprised of Native Hawaiian communities and the general public who are dedicated to the sustainability of Hawaii's natural and cultural resources. Without the support of the Aha Moku, many of these issues would have not been discussed. It is our Kuleana as Hawaiian people to keep the traditions of our kupuna alive.

I am strongly in support of the Aha Moku and urge the passage of S.B. 786 S.D.2.

KO`OLAUPOKO HAWAIIAN CIVIC CLUB

March 22, 2015

To: Rep. Ryan I. Yamane, Chair
Rep. Ty J.K. Cullen, Vice Chair
& Members, Committee on Water & Land

Rep. Kaniela Ing, Chair
Rep. Nicole E. Lowen, Vice Chair
& Members, Committee on Ocean, Marine Resources & Hawaiian Affairs

From: Alice P. Hewett, President
Ko'olaupoko Hawaiian Civic Club

Subject: S.B. 786, S.D. 2 – Relating to the Aha Moku Advisory Committee

Aloha Chairs Yamane and Ing, Vice Chairs Cullen and Lowen, and Committee Members:

The Ko'olaupoko Hawaiian Civic Club strongly supports the Aha Moku Advisory Committee and urges your concurrence with a vote to provide full and necessary funding for its operations.

Our civic club, one of the largest of nearly 70 Hawaiian Civic Clubs in the islands and across the continent, has followed closely the preparation for and establishment of this Aha Moku Advisory Committee for many years. One of our members, Leialoha “Rocky” Kaluhiwa, was appointed to serve as the O`ahu representative on the Advisory Committee. As such, she has provided valuable input and advice to the Department of Land & Natural Resources on cultural practices and how to integrate them into the policies and regulations of DLNR. She has also been working with cultural practitioners from throughout Mokupuni Kakuhihewa to encourage them to form moku councils and, ultimately, Aha councils for their ahupua`a.

Our one disappointment so far, however, has been the inadequate funding available to help make this council of cultural advisors more successful – for example, this Legislature has failed to provide funding even though you created the AMAC two years ago. We think it is unfair that the members of this group are unable to travel to convene their meetings on O`ahu or elsewhere, unless they use their own personal funds to meet and discuss matters of importance to Hawaiian cultural practitioners.

We call upon all of you to honor the commitment you made just two short years ago and support this cultural resource by providing them the funding needed to enable them to convene and to cover other operating costs of the Aha Moku Advisory Committee.

Me kealoha pumehana – mahalo for allowing us to share our mana`o.

The Ko'olaupoko Hawaiian Civic Club was established in 1937 and is a not-for-profit community organization dedicated to preserving and perpetuating the history, heritage and culture of Native Hawaiians. Its membership is open to people of Hawaiian ancestry and those who are “Hawaiian at heart”.

Testimony of Dwyann Kamai, Moku 'O 'ahu

Before The Senate, Twenty-Eight Legislature, 2015

In Support of S.B. No. 786 SD2
Relating to the Aha Moku Advisory Committee

Appropriates funds for the administration and operation of the Aha Moku Advisory Committee and for community outreach.

On behalf of myself and the Kamai Ohana, we support the Bill S.B. No. 786 SD2.

As described in the "A Bill for An Act", our beautiful State are has experienced extensive changes to our land, culture, language, and surrounding waters.

Over the years, actions of our peoples have created extensive damage to our Hawai'i and we have come to a point that requires an advisory committee to ensure that there is no further damage and we can restore our homelands to a healthy environment.

Through a watchful eye, education, assessing and reassessing the damage, the advisory committee can assist and manage the restoration, education and promotion of a healthy environment. Thus the Aha Moku Advisory Committee was formed and assigned the duties.

As of 2012, the Aha Moku Advisory Committee has been assigned to the State of Hawaii, Department of Land and Natural Resources, but funded by the Office of Hawaiian Affairs. With this Bill, it is suggested that the funding be the responsibility of the State of Hawaii.

We the Kamai Ohana support this Bill to transfer the funding responsibility to the budget of the State of Hawaii. We also pray for the continued support of this Advisory Committee.

Aloha

My name is Joyclynn Costa from the island of Maui and I live in the Hamakualoa Moku. I believe in the Aha Moku system and wanted to become pro-active in this Act. I have committed myself to becoming the Representative for my Moku to provide a voice for my communitte in a way that can deliver a sense of hope for the future. We represent the focus of our resources which gives each Moku a traditional perspective of ownership to the kuleana we should have in achieving health and lasting life for generations to come. After all we cannot be so narrow minded as to think long range planning is only about our life span. Our kupuna always thought in the range of seven generations in front of them and lived accordingly not to exist to take but to live to give back. That was thier lifes mission. It gave them a sense of pride that is unmeasurable. I pray your full support for the Aha Moku Advisory Committee not only in equitable measure but in lifes daily practice in all decisions made in your capacity and all influences you may have.

Re: S.B. 786 SD2 A bill to appropriate funds for the administration and
operation of the Aha Moku Advisory Committee and for
community outreach.

I OPPOSE SB 786 SD2

As an advisory committee to the chairperson of the board of land and natural
resources, the aha moku advisory committee has breached their responsibilities
in an ADVISORY capacity:

Advisory: Counselling, suggesting, or advising, but not imperative or conclusive

The aha moku advisory committee, specifically chairperson Leslie Kuloloio and
executive director Leimana DaMate has engaged in various supporting and/or
opposing positions related to community affairs without appropriate consultation

or consensus of constituents from the respective islands (see attached documents). Act 288 mandates:

“...the committee may advise the chairperson of the board of land and natural resources in carrying out the purposes of this section...”

Should funding be established for administrative purposes, taxpayer’s money must be appropriated accordingly to support the consensus of the people and not the committee’s and/or executive director’s select views and decisions.

Subject: Aha Moku Advisory Committee's (AMAC) letter of support to the Department of Interior's Advance Notice for the Proposed Rulemaking seeking to establish a Government-to-Government relationship with the native Hawaiian Community.

Aloha Chairperson, Aila,

As the chairperson of the Board of Land and Natural Resources who has the oversight over the AHA Moku Advisory Committee, I am writing you in regards to a letter of support sent on behalf of the AHA Moku Advisory Committee to the Department of Interior to support 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government-to-Government Relationship with the native Hawaiian Community.

Aha Moku Advisory Committee Executive Director, Leimana DaMate, who authored and signed the letter to the DOI, acknowledged to me that the letter of support was done without the consultation of **ALL** the island mokus (see attached correspondences). **THIS IS UNACCEPTABLE!!** As a Maui AHA Moku constituent, **I DO NOT SUPPORT** the letter sent by AMAC Executive Director, Leimana DaMate, as it misrepresents my position related to the reestablishment of a government-to-government process. Therefore as the Director of the Board of Land and Natural Resources, I petition you to **RESCIND** the letter of support by AMAC for 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government-to-Government Relationship with the Native Hawaiian Community.

Mahalo,

SUBJECT: OPPOSITION TO 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government- to-Government Relationship with the Native Hawaiian Community Letter of Support from AHA MOKU ADVISORY COMMITTEE, State of Hawaii, Department of Land and Natural Resources

This letter is to inform you that **I OPPOSE** and **DO NOT GIVE MY VERBAL OR WRITTEN CONSENT** to the COMMENTS OF THE AHA MOKU ADVISORY COMMITTEE IN SUPPORT OF ACTION TO REESTABLISH A GOVERNMENT-TO-GOVERNMENT RELATIONSHIP WITH THE NATIVE HAWAIIAN GOVERNMENT.

Hawaii State employee within the Department of Land and Natural Resources, Leimana DaMate, Executive Director of the Aha Moku Advisory Committee **MISREPRESENTED** my position and that of the Native Hawaiian community from the forty-three traditional land areas of the eight main Hawaiian Islands and the 589 smaller land districts called ahupua'a. The Aha Moku from the islands of Hawaii, Maui, Molokai, Lanai, Kahoolawe, Oahu, Kauai, and Niihau were not consulted before submitting a letter on behalf of the Aha Moku Advisory Committee supporting 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government-to-Government Relationship with the Native Hawaiian Government (see attached).

My **OPPOSITION**, since June 18, 2014 when I learned of the Public Meetings scheduled to be held throughout the Main Hawaiian Islands from June 23 to July 8, 2014, and when I testified in person on July 8, 2014 at Pomaikai Elementary School, Kahului, Maui in **OPPOSITION** of 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government-to-Government Relationship with the Native Hawaiian Government remains unchanged. Therefore **REMOVE** my name from **ANY AND ALL LISTS AND DATABASES** that supports the 43 CFR Part 50 RIN 1090-AB05 Procedures for Reestablishing a Government-to-Government Relationship with the Native Hawaiian Government.

Michele Hoopii

AHA MOKU ADVISORY COMMITTEE
State of Hawaii
Department of Land and Natural Resources
1150 Punchbowl Street
Honolulu, Hawai'i 96813

**COMMENTS OF THE AHA MOKU ADVISORY
COMMITTEE IN SUPPORT OF ACTION TO
REESTABLISH A GOVERNMENT-TO- GOVERNMENT
RELATIONSHIP WITH THE NATIVE HAWAIIAN
GOVERNMENT**

Aloha mai kākou. The Aha Moku Advisory Committee (AMAC) expresses its mahalo for this historic and long-overdue discussion about reestablishing a government-to-government relationship between the United States and the Native Hawaiian community. The AMAC is an entity that has re-established the traditional cultural and natural resource management system, called the Aha Moku throughout the eight (8) islands of Hawai'i. In 2012, this system was formally accepted by the Hawaii State Legislature and signed into law by Governor Abercrombie as Act 288. The Aha Moku has been restored from a traditional land/ocean system used throughout the islands in the 9th century – before the arrival of the Tahitian and the more commonly known alii system.

The Aha Moku is comprised of the forty-three traditional land areas of the eight main Hawaiian Islands and the 589 smaller land districts called ahupua'a. Those who practice Aha Moku are grassroots Hawaiian communities who are expert practitioners of different disciplines that are spiritually and physically connected to the land. They are the foundation of the Hawaiian culture and are represented by the Po'o, or spokespersons of each of the main Hawaiian Islands which as a group are called the Aha Moku Advisory Committee (AMAC).

As representatives of the Aha Moku, the AMAC has determined that the reestablishment of a government-to-government relationship between the United States and the Native Hawaiian community is the most viable action that could be taken to protect and expand existing trust assets, federal programmatic funding, federal consultation rights and other self-determination rights under federal law.

Moreover, as a matter of justice and equity, this opportunity should be available for the Native Hawaiian community to pursue. We should not be denied the basic self-governance rights afforded all other major indigenous groups in the nation. We have suffered through colonization and the dispossession of our lands, resources and culture, and the hearts of our people continue to be burdened by these historic injustices, as recent oral testimony made clear. Our community cannot heal until the federal government shows meaningful respect for our dignity by engaging us as a sovereign Native nation under federal law.

Therefore, the grassroots people who live within the natural and cultural resources of all of Pae'Aina, or lands of Hawai'i **STRONGLY SUPPORTS** the Advanced Notice of Proposed

Rulemaking (ANPRM) that has been offered by the federal government and the Department of the Interior that would reestablish a government-to-government relationship with the official Native Hawaiian government formed by the qualified Native Hawaiians on the certified base roll. In accordance with this position, Aha Moku respectfully offers the following specific comments:

RESPONSES TO GENERAL QUESTIONS

Question 1: Should the Secretary propose an administrative rule that would facilitate the Reestablishment of a government-to-government relationship with the Native Hawaiian Community?

Answer to Question 1: YES

Question 2: Should the Secretary assist the Native Hawaiian community in reorganizing its government, with which the United States could reestablish a government-to government relationship?

Answer to Question 2: YES

Question 3: If so, what process should be established for drafting and ratifying a reorganized Native Hawaiian government's constitution or other governing document?

Answer to Question 3: The process for drafting and ratifying a reorganized Native Hawaiian government documents should be left to the Hawaiian people to decide.

Question 4: Should the Secretary instead rely on the reorganization of a Native Hawaiian government through a process established by the Native Hawaiian community and facilitated by the State of Hawaii, to the extent such a process is consistent with Federal law?

Answer to Question 4: YES

Question 5: If so, what conditions should the Secretary establish as prerequisites to Federal acknowledgment of a government-to-government relationship with the reorganized Native Hawaiian government?

Answer to Question 5: A federal policy needs to be established regarding the formal relationship with the Native Hawaiian people.

In conclusion, the Aha Moku wishes to express our sincere Mahalo to all who have come forward to hear the mana'o of our people. We offer our assistance in any way you may need. Please call on us.

Mahalo nui loa!

SUBJECT: Aha Moku Advisory Committee's Letter of Support to Re-establish a Government-to-Government Relationship with the Native Hawaiian Government

It is with a heavy heart that I write to the Aha Moku Advisory Committee in protest of AMAC's submission of support to the Advanced Notice of Proposed Rulemaking (ANPRM) offered by the federal government and the Department of Interior that would establish a government-to-government relationship with the so-called Native Hawaiian government formed by the qualified Native Hawaiians on the certified base roll.

My understanding of AMAC is that it is an agency created to represent the voices of the people from the Island Moku's of Hawaii, Maui, Lanai, Moloka'i, Kahoolawe, O'ahu, Kauai and Niihau islands, respectively in an unbiased position. As such the position AMAC has taken to support the government-to-government relationship process without discussing, let alone holding Moku meetings throughout these islands Moku-s is in direct conflict with my objectives and values. Therefore, I DO NOT CONSENT to any and all support of the Aha Moku Advisory Committee.

The Aha Moku Advisory Committee DOES NOT HAVE MY CONSENT to use any and all correspondences, emails, documents, maps, diagrams, genealogy, verbal or written communications to support the government-to-government relationship process or any other process related to the Aha Moku Advisory Committee.

It is disheartening that the Kanaka Oihi heritage has been usurped to promote the advancement of political agendas and that the voices of the people, once again, have been asphyxiated.

Subject: Fw: Letter to AMAC

Aloha Michele,

It is also with a heavy heart that I respond to you. You are correct in that not all of the moku were notified of the AMAC response to DOI in regards to their support of the ANPRM offered by the DOI in regards to governance. However, there were a lot of correspondence and phone calls from moku people from the different islands asking for us to send a letter of support. This was because they felt they could not testify in person because the independence people overwhelmed them at the different hearings.

Yours is the only letter in opposition. However, it is important and I will forward it on to the DOI so that your letter and count will be taken off of the AMAC position. I'm truly sorry that this happened but we could not get to all of the people connected to AMAC in time before the letter went out. We waited until the last minute and it was a hard decision, but it was done with the best intent - to also give a voice to those who felt they were pushed out and asked us to voice for them. In hind sight, I should have just listed all their names (although some did not give me their names), or put a disclaimer in stating that not all moku people supported this decision.

This was a lesson learned, and again - I am truly sorry.

Leimana

Subject: RE: Letter to AMAC

Aloha Leimana,

With all due respect the division created between the pro government-to-government supporters and those in opposition is NOT the fault of the people but independence or otherwise. The lack of transparency and sufficient time given for the hearings is why there is so much upheaval. AMAC's position to take a side without full disclosure to all the moku's is highly irresponsible and a direct obstruction to the kuleana of those who DO NOT agree such as myself. Let's be clear here, I am NOT opposed to those who choose to support govt-to-govt, it is a personal choice but as an agency who is suppose to represent the greater whole, AMAC had NO RIGHT to speak for me and assume that any prior communications I had with AMAC was consent to place my position in a supporting roll for the govt-to-govt process. In addition, my contact information was available to AMAC via all the correspondences previously submitted and yet I received no contact from you or any other member of the committee.

Moving forward please ensure that my name is removed from any and all lists or databases supporting the govt-to-govt process.

Mahalo,

Aloha,

We are in support of SB786, SD2 and request you pass this important bill, to insure the important work which AMAC and Aha Moku has been put to task to complete. We on Kauai are facing important issues which can adversely affect the future of this sacred island environment.

We have worked diligently over the past 9 years, to insure an opportunity to help resurrect a system of resource management essential to our environment.

Please help us make this a reality.

PASS SB 786 AND ENABLE OUR WORK TO CONTINUE TO FRUITION.

Mahalo,

Re: S.B. 786 SD2 A bill to appropriate funds for the administration and
operation of the Aha Moku Advisory Committee and for
community outreach.

Though I support the original purpose and goals for establishing the Aha Moku
Advisory Committee I am writing in **OPPOSITION to S.B. 786 SD2.**

In part, Act 288 establishing the Aha Moku Advisory Committee states

*'...to remediate the deterioration of the Hawaiian culture, language, values, and
land tenure system and to advise the Chairperson of the Board of Land and
Natural Resources and the Department of Land and Natural Resource regarding
the aha moku system, including issues relating to Hawaiian reserve management
and environmental preservation...'*

The current leadership of the Aha Moku Advisory Committee Chairperson, Leslie Kuloloio and Aha Moku Advisory Executive Director, Leimana DaMate misrepresented constituents and misled lawmakers when they omitted the following two (2) Activities from the “*REPORT ON THE ACTIVITIES AND PLANS OF THE AHA MOKU ADVISORY COMMITTEE*” received by DEPT. COMM. NO. 34 dated December 29, 2014, for the 28th Legislature-2015 Session.

- 1. August 19, 2014** - Submitted Letter of Support to the U.S. Department of Interior’s Advance Notice for Proposed Rulemaking (ANPRM) on behalf of the Maui and Molokai Moku constituents without consultation and consensus of all eight Aha Moku Advisory Committee members and their respective Moku (43) constituents. (See attached copy of letter).
- 2. September 19, 2014** - Submitted Letter of Support by Aha Moku Advisory Committee Chairperson, Leslie Kuloloio and Executive Director, Leimana DaMate to the DLNR-Commission on Water Resource Management (CWRM) supporting a cease and desist order to shut down a native Hawaiian taro farmer at Iao Valley, Maui without consultation and consensus of the Aha Moku Advisory Committee, Maui Po’o, Kyle Nakanelua and its Wailuku Moku Constituents.

Both activities are high-profile, extremely passionate, controversial and divisive issues native Hawaiian communities (e.g. Moku) are actively and publicly encountering.

The documentation and records provided herein demonstrate a pattern of blatant disrespect and disregard for the fundamental tenants of a democratic society and its basic rule of law. Furthermore the exclusion of information from lawmakers undermines the credibility and integrity of Act 288.

Remedy:

Oppose SB786 SD2 and remove and/or replace current Aha Moku Advisory Committee Chairperson, Leslie Kuloloio and Aha Moku Advisory Executive Director, Leimana DaMate.

DEPT. COMM. NO. 34

President Donna Mercado Kim
Hawaii State Legislature
415 South Beretania Street
Room 409
Honolulu, HI 96813

Aloha President Kim,

On behalf of the Aha Moku Advisory Committee (AMAC), we would like to respectfully submit the 2015 Legislative Report on the 2014 Activities and Status of the Aha Moku as mandated by Act 288, HRS Legislative Session 2012.

The Aha Moku Advisory Committee is comprised of the following representatives:

- Piilani Kaawaloa, Moku O Keawe (Island of Hawai'i)
- Kyle Nakanelua, Moku O Pi'ilani (Island of Maui)
- Leslie Kuloloio, Moku O Kanaloa (Island of Kaho'olawe)
- Winifred Basques, Nana'I Kaula (Island of Lana'i)
- Karen Poepoe, Moloka'i Pule O'o (Island of Moloka'i)
- Leialoha "Rocky" Kaluhiwa, Moku O Kakuhihewa (Island of O'ahu)
- Thomas Hashimoto, Manokalanipo (Island of Kaua'i)
- Keith Robinson, Ka Aina O Kawelonakala (Island of Ni'ihau)

The directive of the Aha Moku is that they may advise the Chairman of the Board of Land and Natural Resources on issues related to land and natural resources management through the Aha Moku System – a system of best practices that is based upon the indigenous resource management practices of moku (regional) and ahupua'a (land districts based on geography) boundaries, which acknowledges the natural contours of land, the specific resources located within those areas, and the methodology necessary to sustain resources and the community.

The Aha Moku System fosters understanding and practical use of knowledge, including Native Hawaiian methodology and expertise, to assure responsible stewardship of Hawaii's precious ecosystem and natural environment. In their concern for the health and welfare of our cultural and natural resources which showed serious decline in the past decades, the Legislature created the opportunity for the general public, including Native Hawaiians, to bring forth their generational resource knowledge of site-specific areas. This collaboration with our legislators and the Hawaii State Department of Land and Natural Resources has proven to be fruitful and successful. Thank you for the opportunity to share our collective knowledge and methodology, to fulfill your mandates for resource protection, but most of all to serve all people of Hawaii Nei.

Respectfully yours,

Handwritten signature of Leslie Kuloloio.

Leslie Kuloloio, Chairman, AMAC

REPORT ON THE ACTIVITIES AND PLANS OF THE AHA MOKU ADVISORY COMMITTEE

This report is prepared pursuant to Section 171-4.5, Hawaii Revised Statutes (HRS), and covers the period January 2014 through December 30, 2014.

INTRODUCTION

The Department of Land and Natural Resources (DLNR), Chairperson's Office houses the "Aha Moku Advisory Committee", Act 288 Session Laws of Hawaii 2012. This Act governs the Aha Moku System and their mandate to report to the Legislature and the Chairperson of the Board of Land and Natural Resources (BLNR) on the recommendations made by the Aha Moku Advisory Committee, their activities and resulting actions taken by DLNR.

The Senate Bill 3053, House Draft 2 (relating to Native Hawaiians) was signed into law as Act 288 on July 9, 2012. The purpose of the Act is to formally recognize the Aha Moku System and to establish the Aha Moku Advisory Committee (AMAC) within DLNR and may serve in an advisory capacity to the Chairperson of the BLNR. The AMAC may advise on issues related to land and natural resources management through the Aha Moku System, a system of best practices based upon the indigenous resource management practices of moku boundaries, which acknowledges the natural contours of land, the specific resources located within those areas, and the methodology necessary to sustain resources and the community.

Pursuant to Section 171-4.5, HRS, the AMAC shall submit an annual report to the Legislature and the Chairperson of the BLNR. The report includes:

- I. Purpose of the AMAC
- II. Objectives, Goals and Estimated Time Frames
- III. Recommendations to the Board of Land and Natural Resources

I. Purpose of the AMAC

The purpose of the AMAC is to incorporate, appropriate Native Hawaiian knowledge and protocols for the preservation, cultivation, and management of all native Hawaiian natural and cultural resources for the future generations; and, to further define the Aha Moku System, a system of best practices that is based upon the indigenous resource management practices of moku and ahupua'a (regional) boundaries.

II. Objectives, Goals and Estimated Time Frame.

Objective A: To integrate indigenous resource management practices with western management practices in each moku.

Goals and Estimated Time Frame:

- A.1. Revitalize traditions by sharing important and known practices that are site specific so awareness of traditional resource management is shared including methods, traditions, practices, and important traditional gathering areas. (ongoing)
- A.2. Develop and organize traditional Ahupua'a Councils. (ongoing)
- A.3. Pursue additional grant and non-traditional grant sources. (ongoing)

Objective B: Identify a comprehensive set of indigenous practices for natural resource management

Goals and Estimated Time Frame:

B.1. Unify Traditional Moku Statewide by defining standards at a statewide level that demonstrates a unified and organized approach (ongoing)

Objective C: To foster understanding and practical use of Native Hawaiian resource knowledge, methodology and expertise.

Goals and Estimated Time Frame:

C.1. Publicize successes and work with establishments (implementation started and ongoing)

C.2. Partner with other agencies and entities interested in the preservation and conservation of Hawaii's ecosystem (ongoing)

Objective D: To sustain state's marine, land, cultural, agricultural, natural resources.

Goals and Estimated Time Frame:

D.1. Unify Process for Reporting (implemented)

D.2. Support hiring of additional staff, as appropriate, through the budgetary process, to provide additional resources for administrative support. (ongoing)

D.3. Develop a stronger rapport with the DLNR Divisions to share Native Hawaiian expertise on natural and cultural resources (implemented and ongoing)

Objective E: To provide community education; foster cultural awareness on benefits of the Aha Moku System.

Goals and Estimated Time Frame:

E.1. Educate the next generation, general community, community groups on the merits of the Aha Moku System (ongoing)

E.2. Work with education organizations so they are familiar with the site-specific care of natural and cultural resources (ongoing)

E.3. Begin work with schools to offer curriculum that include site-specific resource knowledge – tie this in with DLNR divisions (begin in 2015)

E.4. Develop strong media tools such as video and printed matter spot lighting Native Hawaiian resource methodology experts who live the Aha Moku system (ongoing)

Objective F: To foster protection and conservation of the State's natural resources

Goals and Estimated Time Frame:

F.1. Utilize multi-media presentations for briefing members of the Legislature, community groups, user groups, and other interested parties. (ongoing)

F.2. Update interactive web pages on the Internet for access by interested parties. (ongoing)

F.3. Promote and improve community education on understanding conservation through traditional resource methodology which is island specific and site specific (ongoing)

- F.4. Develop plan to actively market what traditional resource practices in partnership with current DLNR resource management does for users, the State, and the environment while conveying a vision of what ought to be. (begin in 2015)
- F.5. Establish and reinforce partnerships with local and national conservation organizations to utilize existing resources and unify efforts in public education campaigns. (ongoing)
- F.6. Pursue development of a public outreach campaign designed to inform Hawaii residents and visitors about the importance of being knowledgeable about Hawaii state resources and its protection. Work with DLNR divisions in this development (ongoing)
- F.7. Develop financial resources to cover the cost of site specific (ahupua'a) planning and oversight. (ongoing)

Objective G: To develop an administrative structure that oversees the Aha Moku System.

Goals and Estimated Time Frame:

- G.1. Create a strategic plan that implements a successful community conservation effort with integration of traditional Hawaiian resource management and best practices into the contemporary state framework of management. (completed)
- G.2. Create a communications process between communities and administration that ensures site-specific resource concerns are effectively addressed by AMAC and DLNR. (Ongoing)
- G.3. Organize moku and ahupua'a aha (groups) that encompass district area communities with Native Hawaiian practitioners from that district who have generational knowledge of those resources. (Ongoing)
- G.4. Develop a 3 and 5-year budget that encompasses the needs of the AMAC and individual islands to ensure success in its mandates and permanence within the state system.
- G.5. Organize an annual State Puwahu (Conference) that is open to the public. (Not begun yet due to budget restraints)

III. RECOMMENDATIONS TO THE BLNR:

As mandated in Act 288, the Report to the Legislature shall include a list of all recommendations made by the committee and the resulting action taken by the department over the course of the prior year (2014-2015).

Natural resource issues and concerns from the ahupua'a and moku of the islands were conveyed to the AMAC and addressed. However, true to the intent of the Act, these issues were shared with DLNR and many were resolved between the department and the communities without the need to bring it before the BLNR. To date, there are still issues that are in progress. These issues are on-going and are listed as an attachment to this report.

Following are a list of submittals to the BLNR and the recommendations rendered by the AMAC. The testimonies of the AMAC are attached as Appendix A.

Submitted Request to BLNR by the University of Hawaii- Manoa: Consent to Sublease under General Lease No. S-4191 to the Univeristy of Hawaii, Lessee, to TMT International Observatory LLC, Sublessee, Kaohe, Hamakua, Island of Hawaii, Tax Map Key: 3rd/4-4-15:09 por.

BLNR Decision: The request was deferred on June 17, 2014 to allow the University of Hawaii time to address certain questions raised during the public testimony portion of the Land Board meeting.

AMAC Recommendation of Opposition – That the BLNR wait to approve until the final ruling regarding the CDUP HA-3568 has been decreed in the Appeal Process in the Hawaii State Intermediate Court of Appeals and the Hawaii State Supreme Court; until Section 106 and the consultation process with Native Hawaiians regarding the TMT project has been completed as required by federal law and as outlined in the National Historic Preservation Act; and until all concerns presented in the November 2013 meeting have been addressed.

Submitted Request to BLNR for Mutual Termination, Grove Farm Fish & Poi, LLC, Lessee, General Lease No. 5654, off Ewa Coast, Ewa, O'ahu, TMK: (1)9-1-005:000 seaward.

BLNR Decision: The Request was unanimously approved as submitted. Much discussion centered around this issue and the decision to grant was based on the departments analysis of coral growing on the concrete blocks left behind which now provide a habitat for fish and coral.

AMAC Recommendation of Opposition – This General Lease, under Grove Farm Fish & Poi (GFFP) centered around fish cages off of the Ewa coast of O'ahu. In 2010, GFFP declared bankruptcy and liquidated all of their assets. After paying all debts, they were not able to remove the four concrete ballast weights that now sit on the ocean floor. The AMAC opposition was based on the fear that a precedence of entities leaving their equipment behind on the ocean floor when their activity was over would be a dangerous one.

Submitted Request for BLNR to Grant a Term, Non-exclusive Easement to Lana'i Resorts, LLC dba Pulama Lana'i for Tide Pool Stairs Encroachment Purposes, Pulawai, Lana'i, Seaward of Tax Map Key: (2) 4-9-017:002.

BLNR Decision: Approved as submitted.

AMAC Recommendation of Support – The Tide Pool Stairs area, more commonly known as the “Keiki Pond” is located on the lava shelf of the eastern cliffs of Hulopo'e and has been consistently used by the people of Lana'i since 1951. In recent times, the original steps became a safety hazard for the community. The “Pipi Chute” was built in 1919-1920 and used to load/unload interisland steamers-livestock, supplies and passengers. This chute is part of the area containing the Keiki Pond. Both are considered historic sites by the people of Lana'i and access to both are through the Tide Pool Stairs. AMAC supports Pulama Lana'i in their efforts to stabilize the Tide Pool Stairs as well as commending the BLNR in granting the easement that would make the stabilization possible.

Submitted Request that the Conservation District Use Application (CDUA) ST-3703 for a Statewide Programmatic General Permit and Programmatic Agreement for the repair, restoration, maintenance, and operation of traditional fishpond systems in Hawai'i by the Department of Land and Natural Resources, Office of Conservation and Coastal Lands be granted.

BLNR Decision: Unanimously approved as submitted.

AMAC recommendation of Support – Ho’ala Loko Ia, the name of the Statewide Programmatic General Permit and Agreement of this CDUA Application will provide cultural practitioners with a single application and permit. It will enable Native Hawaiians who have generational knowledge of loko ia in their specific ahupua’a and moku to restore and maintain important fishponds that can benefit their ‘ohana and communities. It also allows the traditional Native Hawaiian knowledge, methodology and cultural attachment to a fishpond to be perpetuated and shared – an important part of the sustainability of a Hawaiian ecosystem.

TESTIMONY IN SUPPORT FOR AGENDA ITEM J-1

Before the Board of Land and Natural Resources

BLNR Agenda Item J-1

Authorize Consent to Mortgage and Amendment of Boating Lease No. B-93-02, Trilogy Corporation for Extension of Lease Term, Manele Small Boat Harbor, Lana'i, Tax Map Key: (2) 4-9-017-006-0002.

Aloha Chair Aila and members of the Board of Land and Natural Resources,

On behalf of the Aha Moku Advisory Committee, Po'o Winifred Basques, Nana'i Kaula (Lana'i) we offer testimony in support of the Division of Boating and Ocean Recreation (DOBOR) submittal, Agenda Item J-1, which is a request for authorization for a Consent to Mortgage and to extend an existing lease to the Trilogy Corporation for commercial maintenance and the operation of a pavilion and appurtenant marine facilities. We recommend that this submittal be approved by the Land Board.

As you are aware, the Aha Moku Advisory Committee, through Act 288 may advise the BLNR on issues that deal with the natural and cultural resources of the site-specific 'aina and kai. In this case, ahupua'a and moku resource practitioners of Lana'i are in support of the Trilogy request. There is no adverse impact to the cultural areas, either on land or in the ocean where the improvements are proposed. We agree with the Department DOBOR staff in their analysis that the proposed plan, renovations and improvements will better serve the community of Lana'i as well as visitors who arrive by sea.

We also believe that while an Environment Assessment, including a Cultural Impact Statement is normally required in projects like this, it would not be necessary because this is an extension on an existing lease.

sites pertaining to natural resources on Nana'i Kaula. Indeed, Jim Coon is perceived to be part of the local community.

On behalf of the Aha Moku, we urge the Board of Land and Natural Resources to authorize the Consent to Mortgage and the Amendment of the Boating Lease No. B-93-02, Trilogy Corporation for Extension of Lease Term, Manele Small Boat Harbor, Lana'i, TMK. (2)4-9-017-006-0002.

Respectfully yours,

Leimana DaMate, Executive Director

TESTIMONY IN OPPOSITION TO AGENDA ITEM D-8

Before the Board of Land and Natural Resources

BLNR Agenda Item D-8

Consent to Sublease under General Lease No. S-4191 to the University of Hawaii, Lessee, to TMT International Observatory LLC, Sub lessee, Ka'ohe, Hamakua, Island of Hawaii, Tax Map Key: (3) 4-4-015: 009 por.

Aloha Chair Aila and members of the Board of Land and Natural Resources,

On behalf of the Aha Moku Advisory Committee Po'o Piilani Kaawaloa, Moku O Keawe (Island of Hawaii), and its Moku of Hamakua, Kohala, Hilo, Puna, Ka'u and Kona, we offer testimony in strong opposition to the Land Division submittal, Agenda Item D-8, which is a request to sublease under General Lease No. S-4191 to the University of Hawaii, Lessee, to TMT International Observatory LLC, Sub lessee, Ka'ohe, Hamakua, Island of Hawaii, TMK: (3) 4-4-015: 009 Por.

As you are aware, the issue of the use of Mauna Kea, the most sacred wahi pana throughout the islands has been of great concern to native Hawaiians ever since the Mauna Kea Science Reserve was created. This concern has not been alleviated in the years that the UH has had the lease. There are many grounds why the Hawaiian community does not support the lease that UH is requesting, nor the most recent request for a sublease to TMT International Observatory LLC. Among those reasons are:

- ❖ Concerns stated in our November 8, 2013 testimony before the BLNR Board included our continuing fears that 1) there are still no protections generated by the UH to protect against invasive species; 2) there are no burial plans for the native Hawaiian 'iwi found on the mountain; and 3) there has never been a plan to decommission existing telescopes when their use is over.
- ❖ The final decision on whether or not the BLNR is going to approve the UH request, made this past November, 2013, to re-lease Mauna Kea for gratis has not been made. At that meeting, the request was deferred until certain conditions were met. Have those conditions been met?

WILLIAM J. AILA, JR.

STATE PARKS

- ❖ We had asked that the existing General Lease No. S-4191 and General Lease No. S-5529 to the UH for the Mauna Kea Science Reserve, and for the Hale Pohaku Mid-Level Facilities be amended by inserting a clause that says the UH must pay fair market rent for the use of public lands.

Again, the Aha Moku has been receiving many calls and requests that their concerns be heard by the BLNR. Many are sending their own testimonies in reiterating the very concerns that we are expressing. We ask that the Board of Land and Natural Resources re-examine this issue carefully and listen to the concerns of the very people they are mandated to serve in their capacity as Board members by initiating the following:

1. Wait until the final ruling regarding the CDUP HA-3568 has been decreed in the Appeal Process in the Hawaii State Intermediate Court of Appeals and the Hawaii State Supreme Court.
2. Wait until the Section 106 and consultation process with Native Hawaiians regarding the TMT project has been completed as required by federal law and as outlined in the National Historic Preservation Act.
3. Wait until all of the concerns as presented in the November 2013 BLNR meeting have been addressed.

Thank you for the opportunity to render our testimony and recommendation on this issue. Per the request of Moku O Keawe, its Moku and Ahupua'a communities, we urge the BLNR to deny the application of the UH to sublease a portion of land under the General Lease No. S-4191.

Respectfully yours,

Leimana DaMate, Executive Director

TESTIMONY IN SUPPORT OF AGENDA ITEM D-10

Before the Board of Land and Natural Resources

BLNR Agenda Item D-10.

Grant of Term, Non-Exclusive Easement to Lana'I Resorts, LLC dba Pulama Lana'i for Tide Pool Stair Encroachment Purposes, Pulawai, Lana'i, Seaward of Tax Map Key: (2) 4-9-017:002.

Aloha Chair Aila and members of the Board of Land and Natural Resources,

On behalf of the Aha Moku Advisory Committee Po'o Winifred Basques, Nana'i Kaula (Island of Lana'i), and the local community of the Moku Pulawai, we offer testimony in support of the Land Division submittal, Agenda Item D-10 requesting a grant of term, non – exclusive easement to Lana'I Resorts, LLC; db Pulama Lana'I for Tide Pool Stairs Encroachment Purposes. The comments below were given by Kepa Maly, moku representative of Lana'i.

“More commonly known as the “Keiki Pond” located on the lava shelf on eastern cliffs of Hulopo'e, the popular pond was created by dynamite blasted tidal pools in Hulopo'e Bay and built by HAPCo employees during the pineapple strike in 1951. The original steps became a safety hazard and the improved steps installed to maintain what would be a customary access.”

“The “Pipi Chute” was built in ca. 1919-1920, and used to load/unload interisland steamers – livestock supplies and passengers. The attached photograph from the Munro collection/Kenneth Emory album is from 1921. The S.S. Mikahala is pulled to the bluff, and the chute led down onto the steamer deck. One of the two historic cement stanchions that held up the chute is visible. The wooden chute was still extant through the 1970's when I was growing up. It is historical features also associated with cement salt-making basins just a little to the north of the chute and wing fence that kept cattle in line for loading.” (Kepa Maly, June 2014)

The Keiki Pond and Pipi Chute are considered historic sites by the people of Lana'i. We thank you for the opportunity to testify and ask that you protect this area that is so loved by the people of Lana'i. We support the Grant of Term, Non-Exclusive Easement to Lana'I Resorts, LLC dba Pulama Lana'I for the Tide Pool Stair Encroachment Purposes.

Respectfully yours,

Leimana DaMate, Executive Director

June 13, 2014

TESTIMONY IN SUPPORT OF AGENDA ITEM K-3

Before the Board of Land and Natural Resources

BLNR Agenda Item K-3

Conservation District Use Application (CDUA) ST-3703 for a Statewide Programmatic General Permit and Programmatic Agreement for the repair, restoration, maintenance, and operation of traditional fishpond systems in Hawai'i by the Department of Land and Natural Resources, Office of Conservation and Coastal Lands (OCCL).

Aloha Chair Aila and members of the Board of Land and Natural Resources,

On behalf of the Aha Moku Advisory Committee (AMAC) comprised of the Po'o of the eight main Hawaiian Islands and the forty-three (43) traditional moku districts encompassed within the Pae'aina, we offer testimony in strong support of the Office of Conservation and Coastal Lands (OCCL) submittal, Agenda Item K-3 requesting approval for a Statewide Programmatic General Permit and Programmatic Agreement for the repair, restoration, maintenance, and operation of traditional fishpond systems in Hawai'i by the Department of Land and Natural Resources.

Prior to the arrival of guests from other lands, the Native Hawaiian population thrived upon the sustainability of their resources. Much of this depended on and centered on the loko 'iā, fishponds that served needs of the community. Every ahupua'a on every island maintained, protected and sustained a fishpond for community subsistence needs. At one time, there were so many fishponds throughout the islands that they were a common sight and contributed to a healthy environment in which a vigorous Native Hawaiian people thrived. However, over the past two hundred years with the arrival of many western influences over the cultural and natural landscapes of the coastal areas, the maintenance of traditional fishponds became problematic. At last listing, over 40 fishponds were listed. However, only two of them were able to be permitted due to the difficulty in the necessary completion of numerous permits that are difficult to read or understand with agencies that had overlapping jurisdictions.

Ho'ala Loko I'a is a proposed Statewide Programmatic General Permit for the repair, restoration, maintenance and operation of traditional fishpond systems in Hawai'i. In providing cultural practitioners with single application and permit, The DLNR- OCCL will enable Native Hawaiians who have generational knowledge of loko I'a in their specific ahupua'a and moku to restore and maintain important fishponds that can benefit their 'ohana and communities. It also allows the traditional Native Hawaiian knowledge, methodology and cultural attachment to a fishpond to be perpetuated and shared - an important part of the sustainability of the Hawaiian ecosystem.

BLNR Meeting, June 27, 2014

AMAC Testimony, Page Two

Representatives of our many moku throughout the islands attended the state-wide public hearings on the proposed permit and agreement for the fishponds last February, 2014. The many questions and concerns were answered honestly and candidly. Our people are convinced that this is an important step in the continuing effort to work with the state in sustaining our culture and our natural resources.

Thank you for the opportunity to render our testimony and recommendation on this issue. We urge the BLNR to approve the submittal of a CDUA ST-3703 for a Statewide Programmatic General Permit for the repair, restoration, maintenance and operation of traditional fishpond systems in Hawaii.

Respectfully yours,

Leimana DaMate, Executive Director

TESTIMONY IN SUPPORT OF AGENDA ITEM F-1

Before the Board of Land and Natural Resources

BLNR Agenda Item F-1.

REQUEST FOR FINAL APPROVAL TO ADOPT A NEW CHAPTER UNDER HAWAII ADMINISTRATIVE RULES AS TITLE 13 CHAPTER 60.8, HA'ENA COMMUNITY-BASED SUBSISTENCE FISHING AREA, KAUA'I, TO MANAGE AND PROTECT FISH STOCKS AND TO REAFFIRM TRADITIONAL AND CUSTOMARY NATIVE HAWAIIAN SUBSISTENCE FISHING PRACTICES WITHIN THE AHUPUA'A OF HA'ENA.

Aloha Chair Aila and Members of the Board of Land and Natural Resources,

My name is Thomas Hashimoto, and I am the Aha Moku Advisory Committee Representative of Manokalanipo, the Island of Kaua'i. I am also the Moku Representative of Halele'a, the Moku on which Ha'ena is located. On behalf of my island, the natural resource and cultural participants in the Aha Moku System, we strongly support the adoption of a New Chapter under the Hawai'i Administrative Rules relating to the establishment of the Ha'ena Community-Based Subsistence Fishing Area.

Before people came to Hawai'i from other lands, Native Hawaiians thrived and sustained their oceans and lands – our survival depended on how well we took care of our resources. We depended on the ocean to feed us so we took care of our oceans, our fishing stock, our limu, our coral and the fresh water needed so our spawning grounds in the ocean were healthy.

However, over the past two hundred years with the arrival of many western influences over the cultural and natural landscapes of the coastal areas, taking care of our resources became harder. Kaua'i became a major tourist attraction and commercial fishing interests began competing for the use of the ocean areas that our Ha'ena 'ohana depended upon for subsistence. And, while Kaua'i people are well-known for their hospitality, we have become unwitting casualties of too many people trying to use every inch of Ha'ena for different purposes. We welcome visitors, but we need to feed our families. Most of all, we need to sustain Ha'ena.

The Ha'ena CBSFA allows the people of Ha'ena to protect their subsistence fishing area. It allows others to learn how sustainability is the result of careful Native Hawaiian practices within a specific area. It gives cultural practitioners and lawai'a that have generational knowledge of Ha'ena the opportunity to restore and maintain important marine areas that can benefit their 'ohana and communities. It also allows the traditional Native Hawaiian knowledge, methodology and cultural attachment to a place to be perpetuated and shared - an important part of the sustainability of a Hawaiian ecosystem.

Much discussion within our communities and with DLNR has taken place over the past few years. Our people are convinced that this is an important step in the continuing effort to work with the state in sustaining our culture and our natural resources.

Thank you for the opportunity to give our testimony of support. We urge the DLNR – Division of Aquatics to approve the adoption of a New Chapter under the Hawai'i Administrative Rules relating to the establishment of the Ha'ena Community-Based Subsistence Fishing Area.

Respectfully yours,

Thomas Hashimoto, Po'o

TESTIMONY IN SUPPORT OF AGENDA ITEM F-5

Before the Board of Land and Natural Resources

BLNR Agenda Item F-5

REQUEST FOR APPROVAL TO HOLD PUBLIC MEETINGS AND HEARINGS PURSUANT TO HRS CHAPTER 91, TO AMEND HAWAII ADMINISTRATIVE RULES (HAR) TITLE 13, CHAPTER 60.4, "WEST HAWAII REGIONAL FISHERY MANAGEMENT AREA, HAWAII" TO ESTABLISH THE KA'UPULEHU MARINE RESERVE TO ALLOW FOR THE RECOVERY OF NEARSHORE FISHERY STOCKS.

Aloha Chair Aila and members of the Board of Land and Natural Resources,

On behalf of the Aha Moku Advisory Committee, Aha Kiolo Piilani Kaawaloa, Moku O Keawe (Island of Hawaii), and the Ahupua'a of Ka'upulehu located within the Kona Moku we offer testimony in support of the request for approval to hold public meetings and hearings to amend existing administrative rules under the West Hawaii Regional Fishery Management Area, Hawaii'i, with limited exceptions.

Located within the West Hawaii Regional Fishery Management Area (WHRFMA), the Ka'upulehu Ahupua'a has long been known to Kama'aina and local communities to be a pristine area rich in marine natural resources and steeped in Native Hawaiian cultural practices and history. The lawai'a (fishermen) of Ka'upulehu and the surrounding ahupua'a depended upon the fishery there to feed their families and 'ohana. They were careful in the sustainability of the different types of marine stock that were plentiful in different seasons. The fishery was sustained as well as the other types of near shore marine life such as opihi, kupe'e, okole, pupu and the limu pahe'e as well as various limu species which were plentiful during certain seasons along the pali areas where the waves impact.

Two of the most favorite Hawaiian fish species known to frequent Ka'upulehu are the hilu and the hou. Known to be a sweet fish, these species were a favorite of the local kama'aina.

LAND
STATE PARKS

Unfortunately, in recent times and as progress moves forward, Ka'upulehu became more accessible to people not from the area with no idea to the cultural protocols of these areas and its resources. "He ali'i ka aina he kauwa ke kanaka" is an 'ōlelo no'eau that translates as "the land is a chief, man is its servant" ('Olelo No'eau 531, Mary Kawena Pukui). Land has no need for man, but man needs the land and works it for a livelihood. This is very profound because here we are – generations later still trying to repair the damages we kanaka make. The difference is in the way we need to make these repairs that will also include the teaching, understanding, perpetuation and involvement of the next generation.

Misuse of the ocean caused a great depletion of its resources. And, aside from the loss of subsistence, the impact to the Native Hawaiian of Ka'upulehu is deeply felt. It must be said that of equal importance is the preservation of the generational Native Hawaiian families who hold the knowledge of how to maintain that place. One such family is the Keakealani 'Ohana whose patriarch, Uncle Lopaka Keakealani was the last Native Hawaiian born in Kahuwai, Ka'upulehu. His daughter Leina'ala Keakealani Lightner and her 'ohana, among other families with similar generational knowledge, continue to perpetuate those traditions today.

The Department of Land and Natural Resources and its divisions are aware of this dilemma and wish to assist in the restoration of the marine resources that are critical to the sustainability and natural balance of this part of the ecosystem.

The Aha Moku is aware that should the Ka'upulehu Reserve be solidified, there is a possibility of negative impacts to neighboring moku and ahupua'a causing much discussion as to protocols for these aina. These concerns are very important and need to be addressed so the impact on these communities does not lead to the depletion of their resources.

The Aha Moku System works with ahupua'a and moku districts to address resource issues within all districts. It is because of our actions, we need to restore the balance within all ahupua'a, that we support public hearings and meetings for all to share ike, mana'o and solutions.

Thank you for the opportunity to render our testimony and recommendation on this issue. Per the request of Moku O Keawe, the Kona Moku and the Ka'upulehu Ahupua'a, we urge the BLNR to approve the request for public hearings regarding a Marine Reserve for a limited time in Ka'upulehu which will restore the marine resources to the previously known sustainable level within that ecosystem and to assist Ka'upulehu and other communities facing the same plight. Perhaps Ka'upulehu can model the similar concepts and mana'o of other communities that have been successful in the road to restoring their resources such as Moloka'i, Kaua'i and others.

Respectfully yours,

Leimana DaMate, Executive Director

Aha Moku Advisory Committee, DLNR

ACT 288

HOUSE OF REPRESENTATIVES
TWENTY-SIXTH LEGISLATURE, 2012
STATE OF HAWAII

H.B. NO. 2806
H.D. 2
S.D. 2
C.D. 1

A BILL FOR AN ACT

RELATING TO NATIVE HAWAIIANS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that, over the past two
2 hundred years, Hawaii has experienced extensive changes. These
3 changes include the deterioration of the Hawaiian culture,
4 language, values, and land tenure system, which have in part
5 resulted in the over-development of the coastline, alteration of
6 fresh water streams, destruction of life-giving watersheds,
7 decimation of the coral reefs, and the decline of endemic marine
8 and terrestrial species.

9 Native Hawaiian culture has knowledge that has been passed
10 on for generations and is still practiced for the purpose of
11 perpetuating traditional protocols, caring for and protecting
12 the environment, and strengthening cultural and spiritual
13 connections. It is through the aha moku councils that native
14 Hawaiians protected their environment and sustained the
15 abundance of resources that they depended upon for thousands of
16 years.

17 Currently, many Hawaiian communities are becoming
18 revitalized by using the knowledge of cultural practitioners

HB2806 CD1 HMS 2012-3661-2

1 that was passed down through kupuna, experienced farmers, and
2 fishers to engage and enhance sustainability, subsistence, and
3 self-sufficiency. Furthermore, many native Hawaiian communities
4 are interested, concerned, involved, willing, and able to advise
5 government agencies, organizations, and other interested groups
6 in integrating traditional knowledge and ahupuaa management
7 practices.

8 The legislature further finds that on August 15 through 17,
9 2006, the Hoochanoano I Na Kupuna Puwalu series began and native
10 Hawaiian cultural and traditional practitioners who are versed
11 in farming and fishing, ocean, and land ahupuaa methods gathered
12 to discuss and bring forth the wisdom of the kupuna and
13 ancestors. It was a gathering of empirical knowledge handed
14 down from generation to generation on traditional fishing,
15 agriculture, streams, fishponds, and land use methodology based
16 on the ahupuaa system.

17 Representatives from forty-three regions (moku) in the
18 State and over one hundred ahupuaa Hawaiian cultural
19 practitioners, including kupuna and the acknowledged traditional
20 experts, joined together to come forth with their manao and
21 concerns.

1 The purpose of this Act is to formally recognize the aha
2 moku system and to establish the aha moku advisory committee
3 within the department of land and natural resources, which may
4 serve in an advisory capacity to the chairperson of the board of
5 land and natural resources. The aha moku advisory committee may
6 advise on issues related to land and natural resources
7 management through the aha moku system, a system of best
8 practices that is based upon the indigenous resource management
9 practices of moku (regional) boundaries, which acknowledges the
10 natural contours of land, the specific resources located within
11 those areas, and the methodology necessary to sustain resources
12 and the community. The aha moku system will foster
13 understanding and practical use of knowledge, including native
14 Hawaiian methodology and expertise, to assure responsible
15 stewardship and awareness of the interconnections of the clouds,
16 forests, valleys, land, streams, fishponds, and sea. The moku
17 system will include the use of community expertise and establish
18 programs and projects to improve communication, provide training
19 on stewardship issues throughout the region (moku), and increase
20 education. The establishment of this committee does not
21 preclude any person's or organization's right to provide advice
22 to the department of land and natural resources.

1 SECTION 2. Chapter 171, Hawaii Revised Statutes, is
2 amended by adding a new section to be appropriately designated
3 and to read as follows:

4 "§171- Aha moku advisory committee; established. (a)

5 There is established the aha moku advisory committee to be
6 placed within the department of land and natural resources for
7 administrative purposes. The committee may advise the
8 chairperson of the board of land and natural resources in
9 carrying out the purposes of this section.

10 (b) The committee shall consist of eight members appointed

11 by the governor and confirmed by the senate from a list of
12 nominations submitted by the aha moku councils of each island.

13 Oversight of the aha moku advisory committee shall be by the
14 chairperson of the board of land and natural resources. The
15 committee members shall select the committee chairperson from
16 among the members.

17 (c) The members shall not receive compensation for their

18 service, but shall be reimbursed for necessary expenses,
19 including travel expenses, incurred while participating in
20 meetings and events approved in advance by the chairperson of
21 the board of land and natural resources.

1 The aha moku advisory committee may hire an executive
2 director who shall be exempt from chapter 76. The executive
3 director may hire an administrative or executive assistant to
4 assist the executive director in accomplishing the purposes of
5 the aha moku advisory committee.

6 (d) The aha moku advisory committee may provide advice on
7 the following:

- 8 (1) Integrating indigenous resource management practices
9 with western management practices in each moku;
10 (2) Identifying a comprehensive set of indigenous
11 practices for natural resource management;
12 (3) Fostering the understanding and practical use of
13 native Hawaiian resource knowledge, methodology, and
14 expertise;
15 (4) Sustaining the State's marine, land, cultural,
16 agricultural, and natural resources;
17 (5) Providing community education and fostering cultural
18 awareness on the benefits of the aha moku system;
19 (6) Fostering protection and conservation of the State's
20 natural resources; and
21 (7) Developing an administrative structure that oversees
22 the aha moku system.

1 (e) The committee shall submit an annual report in English
2 and Hawaiian to the legislature and the chairperson of the board
3 of land and natural resources no later than twenty days prior to
4 the convening of each regular legislative session. The annual
5 report shall include a list of all recommendations made by the
6 committee and the resulting action taken by the department over
7 the course of the prior year."

8 SECTION 3. There is appropriated out the general revenues
9 of the State of Hawaii the sum of \$76,500 or so much thereof as
10 may be necessary for fiscal year 2012-2013 for the
11 administrative costs related to carrying out the duties of the
12 aha moku advisory committee.

13 The sum appropriated shall be expended by the department of
14 land and natural resources for the purposes of this Act.

15 SECTION 4. New statutory material is underscored.

16 SECTION 5. This Act shall take effect on July 1, 2012.

APPROVED this 9 day of JUL , 2012

AHA MOKU ADVISORY COMMITTEE
State of Hawaii
Department of Land and Natural Resources
1150 Punchbowl Street
Honolulu, Hawai'i 96813

**COMMENTS OF THE AHA MOKU ADVISORY
COMMITTEE IN SUPPORT OF ACTION TO
REESTABLISH A GOVERNMENT-TO- GOVERNMENT
RELATIONSHIP WITH THE NATIVE HAWAIIAN
GOVERNMENT**

Aloha mai kākou. The Aha Moku Advisory Committee (AMAC) expresses its mahalo for this historic and long-overdue discussion about reestablishing a government-to-government relationship between the United States and the Native Hawaiian community. The AMAC is an entity that has re-established the traditional cultural and natural resource management system, called the Aha Moku throughout the eight (8) islands of Hawai'i. In 2012, this system was formally accepted by the Hawaii State Legislature and signed into law by Governor Abercrombie as Act 288. The Aha Moku has been restored from a traditional land/ocean system used throughout the islands in the 9th century – before the arrival of the Tahitian and the more commonly known alii system.

The Aha Moku is comprised of the forty-three traditional land areas of the eight main Hawaiian Islands and the 589 smaller land districts called ahupua'a. Those who practice Aha Moku are grassroots Hawaiian communities who are expert practitioners of different disciplines that are spiritually and physically connected to the land. They are the foundation of the Hawaiian culture and are represented by the Po'o, or spokespersons of each of the main Hawaiian Islands which as a group are called the Aha Moku Advisory Committee (AMAC).

As representatives of the Aha Moku, the AMAC has determined that the reestablishment of a government-to-government relationship between the United States and the Native Hawaiian community is the most viable action that could be taken to protect and expand existing trust assets, federal programmatic funding, federal consultation rights and other self-determination rights under federal law.

Moreover, as a matter of justice and equity, this opportunity should be available for the Native Hawaiian community to pursue. We should not be denied the basic self-governance rights afforded all other major indigenous groups in the nation. We have suffered through colonization and the dispossession of our lands, resources and culture, and the hearts of our people continue to be burdened by these historic injustices, as recent oral testimony made clear. Our community cannot heal until the federal government shows meaningful respect for our dignity by engaging us as a sovereign Native nation under federal law.

Therefore, the grassroots people who live within the natural and cultural resources of all of Pae'Aina, or lands of Hawai'i **STRONGLY SUPPORTS** the Advanced Notice of Proposed

Rulemaking (ANPRM) that has been offered by the federal government and the Department of the Interior that would reestablish a government-to-government relationship with the official Native Hawaiian government formed by the qualified Native Hawaiians on the certified base roll. In accordance with this position, Aha Moku respectfully offers the following specific comments:

RESPONSES TO GENERAL QUESTIONS

Question 1: Should the Secretary propose an administrative rule that would facilitate the Reestablishment of a government-to-government relationship with the Native Hawaiian Community?

Answer to Question 1: YES

Question 2: Should the Secretary assist the Native Hawaiian community in reorganizing its government, with which the United States could reestablish a government-to government relationship?

Answer to Question 2: YES

Question 3: If so, what process should be established for drafting and ratifying a reorganized Native Hawaiian government's constitution or other governing document?

Answer to Question 3: The process for drafting and ratifying a reorganized Native Hawaiian government documents should be left to the Hawaiian people to decide.

Question 4: Should the Secretary instead rely on the reorganization of a Native Hawaiian government through a process established by the Native Hawaiian community and facilitated by the State of Hawaii, to the extent such a process is consistent with Federal law?

Answer to Question 4: YES

Question 5: If so, what conditions should the Secretary establish as prerequisites to Federal acknowledgment of a government-to-government relationship with the reorganized Native Hawaiian government?

Answer to Question 5: A federal policy needs to be established regarding the formal relationship with the Native Hawaiian people.

In conclusion, the Aha Moku wishes to express our sincere Mahalo to all who have come forward to hear the mana'o of our people. We offer our assistance in any way you may need. Please call on us.

Mahalo nui loa!

RE: Notice of Apparent Violation, Iao Stream, Maui, And TMK: (2) 3-3-003:003 and 3-5-003:001

Aloha Deputy Director Tam,

On behalf of the many Native Hawaiian cultural practitioners of the Wailuku Moku on Moku O Pi'ilani (Island of Maui), we would like to thank the Commission on Water Resource Management and its department for addressing the issue of water diversion from the Iao Stream by Lo'iloa on a parcel of land owned by the Wailuku Water Company without a permit.

The Iao Stream is located in a designated water management area and any diversion or use of the water from the stream requires a Surface Water Use Permit which was not done in this case. The Iao Stream is a very important resource that is used by many, including Native Hawaiian mahiai (farmers) and other Native Hawaiians working within other traditional and cultural practices.

Thank you again for your and your staff's diligence and attention to this issue.

Sincerely yours,

Handwritten signature of Leslie A. Kuloloio in cursive script.

Leslie A. Kuloloio, Chair
Aha Moku Advisory Committee

Handwritten signature of Leimana DaMate in cursive script.

LATE

To Whom it May Concern,

I am writing to support the passing of SB786 SD 2 to appropriate funds to support the Aha Moku Advisory Committee (AMAC). A lot of hard work, time, and resources were invested by a lot of dedicated people to get the Aha Moku formally recognized by the state in the passing of Act 288.

The potential benefits of having a functioning Aha Moku Advisory Council and organized Aha Moku system include

- Promoting Hawaiian perspectives based on empirical knowledge and traditional practices acquired over generations in state decision-making, can lead to more effective natural resource management
- Provides a mechanism that helps ensure the DLNR upholds its constitutional mandate to protect traditional and customary practices.
- Provides a useful mechanism for the State to reach out and share information and gather input on decisions that will affect native Hawaiian communities.

However, without funding, none of the potential benefits of the Aha Moku will be possible. Since its passing, the legislature has not allocated funding to the Aha Moku Advisory Committee, nor the work it was established to undertake. I'm not sure how the legislature intended for Act 288 to be fulfilled without allocating funding, but the given the many benefits possible, and the extensive amount of work that will need to be undertaken in order for the benefits to be realized, I believe it time the for the state to demonstrate its commitment to the original intent of Act 288 and approve SB 786 SD2.

Passing of SB786 SD 2 represents an opportunity for the State meaningfully support the integration of indigenous resource management practices within western management practices, and foster greater understanding and practical use of native Hawaiian resource knowledge, methodology, and expertise within the state's resource management decisions. These concepts are often talked about, widely acknowledged as needed, but very seldom realized in the protection of the State's natural resources, and the Aha Moku Advisory Committee is the only mechanism currently tasked with helping make this a reality. Without funding for an institutionalized role to tackle these changes, I fear the state will continue to talk about these issues, without achieving lasting change that can benefit our natural resources and communities alike.

Mahalo,

Erin Zanre
