WRITTEN TESTIMONY ONLY

**Testimony COMMENTING on S.C.R. 5  
Requesting the Convening of an Early Childhood Sexual Abuse Working Group to  
Address and Reduce Child Sexual Abuse in Hawaii**

SENATOR ROSALYN H. BAKER, CHAIR  
SENATE COMMITTEE ON COMMERCE, CONSUMER PROTECTION, AND HEALTH  
AND  
SENATOR SUZANNE CHUN OAKLAND, CHAIR  
SENATE COMMITTEE ON HUMAN SERVICES

Hearing Date: March 14, 2016

Room Number: 229

1 **Fiscal Implications:** The Department of Health (DOH) defers to the Department of Human  
2 Services (DHS) for fiscal implications. Convening an early childhood sexual abuse working  
3 group to address and reduce child sexual abuse in Hawaii would require staff resources and  
4 possible funding.

5 **Department Testimony:** This measure requests the Department of Human Services to convene  
6 an early childhood sexual abuse working group to identify the means of addressing early  
7 childhood sexual abuse and create strategies for reducing child sexual abuse in Hawaii.

8 At least 26 states and the territory of Guam have enacted "Erin's Law," legislation requiring  
9 states to either study or develop age-appropriate child sexual abuse identification and prevention  
10 curricula for pre-k through fifth, eighth or 12<sup>th</sup> grades to help children, teachers, and parents  
11 recognize and identify child sexual abuse. Legislation for Erin's Law generally provides for  
12 some type of referral, counseling or safe way for children to report incidences of child sexual  
13 abuse and requires training for school personnel. Many states have also required task forces to  
14 further study the issue and provide statewide recommendations.

15 Currently, the DOH, Maternal and Child Health Branch (MCHB) contracts with the Sex Abuse  
16 Treatment Center (SATC) to provide K-12 sex abuse prevention curricula training and youth  
17 education sessions statewide. The SATC's curricula consists of four (4) separate age-appropriate  
18 curricula for grades K-2, 3-5, middle, and high school to prevent sexual abuse. At this time,  
19 SATC does not have sex abuse prevention curricula specifically for early childhood, ages birth to  
20 five years.

1 Using effective principles and strategies in the primary prevention of sexual violence results in  
2 better outcomes. Should this resolution pass, the DOH MCHB encourages the early childhood  
3 sexual abuse working group to align efforts with Hawaii's K-12 sexual abuse prevention  
4 curricula.

5 Thank you for this opportunity to testify.

SUBJECT: **SCR 5 REQUESTING THE CONVENING OF AN EARLY CHILDHOOD SEXUAL  
ABUSE WORKING GROUP TO ADDRESS AND REDUCE CHILD SEXUAL ABUSE  
IN HAWAII**

Hearing: Monday, March 14, 2016, 10:15 a.m.  
Conference Room 229, State Capitol

**DEPARTMENT'S POSITION:** The Department appreciates the intent of this resolution and offers the following comments regarding the similar multiple efforts and data gathering.

**PURPOSE:** The purpose of this bill is to convene an early childhood sexual abuse working group to address and reduce child sexual abuse in Hawaii.

In addition to this Keiki Caucus resolution, HB1787 HD2 creates and appropriates funds for Erin's Law Task Force to review policies, programs, and curricula for educating public school students about sexual abuse prevention, and report recommendations for the establishment of a program to educate public school children on sexual abuse prevention through age-appropriate curricula. Amongst others, HB1787 HD2 similarly names the Department as a member to the Erin's Law task force and lists members of the Senate and House of Representatives to serve as co-chairs. The Department is concerned that education and prevention efforts for parents, providers, and children should contain fundamental principles and consistency which provides continuity across the children's ages and settings.

The Department supports and participates in multiple collaborative efforts to improve system response and reduce child sexual abuse, such as:

1. Hawaii Children's Justice Centers' (CJC) Interagency Advisory Committee (Judiciary)

The CJC brings together a multi-disciplinary team of professionals to coordinate and improve the investigation of and system response to child abuse and neglect reports.

2. Hawaii's Commercially Sexually Exploited Children Response Protocol Development Workgroup (Family Court of the First Circuit)

Under the leadership of the Family Court, a multi-disciplinary team of federal, State, and county government agencies is developing protocols for the detection, classification, and accompanying of commercially sexually exploited children through appropriate systems of trauma-informed care.

3. Hawaii Coalition Against Human Trafficking (Department of the Attorney General)

The Hawaii Coalition Against Human Trafficking is a statewide partnership of victim service providers and federal, State, and local government agencies that work collaboratively to: a) identify, investigate, and prosecute human trafficking cases; b) provide services to victims of trafficking; and c) increase public awareness of human trafficking, including the commercial sexual exploitation of minors.

4. Zero to Three Court (Judiciary)

The Zero to Three Court is a specialty child abuse court established by the Judiciary to provide early intervention to prevent or alleviate problems that babies and toddlers experience as a result of harm and dysfunctional family dynamics.

5. Sex Offender Management Team (SOMT) (Department of Public Safety)

The SOMT is a multi-disciplinary team established to develop and implement, through a collaborative effort and legislative support, best practice standards statewide for the evaluation, treatment, disposition, ongoing assessment, and supervision of sex offenders and youth with sexualized misbehavior.

6. Violence Against Women's Act (VAWA) State Planning Committee (VPC) The VPC was lead by the Department of the Attorney General and its membership was

comprised of representatives from state and county agencies and non-profit victim service agencies that sets forth funding priorities for the State's VAWA funds.

Regarding information concerning child sexual abuse in Hawaii, the best information readily available is contained in two reports: Sexual Assault Victims in the City and County of Honolulu, 2001-2010 Statistical Profile, which is accessible at <http://satchawaii.com/pdf/sexual-assault-victims-2001-2010-statistical-report.pdf>, and the 2004 report entitled "Sexual Assault Victims in Honolulu" --A Statistical Profile--, is accessible at <http://ag.hawaii.gov/cpja/files/2013/01/Sex-Assault-Victims-2004.pdf>. While the reports are limited in the sense that the data are derived from Sex Abuse Treatment Center client information, the analysis is comprehensive, impactful, informative, and instructive in terms of developing a strategy.

If additional statewide information is required, gathering statewide data will take additional time and likely appropriations. Fortunately, the Hawai'i Department of the Attorney General and the four county police departments have very recently committed to transitioning from participation in the FBI's traditional Summary Reporting System (SRS) version of the nationwide Uniform Crime Reporting Program, to participation in the National Incident-Based Reporting System version. Whereas the SRS is based on simple aggregate tallies of reported offenses and arrests, NIBRS provides individual, case-level data (56 data elements) for each offense and arrest, including data on victim demographics. The transition process should take only a few years to complete, after which point statistics on juvenile (and other) victims of sexual assault (and other crimes) will be readily available on an annual basis. The NIBRS data can also be used for a variety of in-depth studies on special topics, including sexual assault.

Thank you for the opportunity to testify.

**SUBJECT: SCR 5/ SR 3**  
**Hearing Date:** Monday, March 14, 2016  
**Time:** 10:15 a.m.  
**Location:** Conference Room 229

**Purpose of Bill:** REQUESTING THE CONVENING OF AN EARLY CHILDHOOD SEXUAL ABUSE WORKING GROUP TO ADDRESS AND REDUCE CHILD SEXUAL ABUSE IN HAWAII.

**EXECUTIVE OFFICE ON EARLY LEARNING'S POSITION:** The Executive Office on Early Learning (EOEL) supports the intent of this measure and its commitment to addressing the safety and well-being of students (pre-kindergarten to grade twelve) in the prevention of sexual abuse. For the purpose of addressing age appropriate curricula and developmentally appropriate practice in pre-kindergarten settings, EOEL respectfully suggests that the director of EOEL, or the director's designee, should be a part of the working group.

Thank you for the opportunity to provide testimony.

**RE:** Testimony Supporting the Intent of S.C.R. 5 / S.R. 3  
Requesting the Convening of an Early Childhood Sexual Abuse Working  
Group to Address and Reduce Child Sexual Abuse in Hawaii

Good morning Chairs Baker and Chun Oakland, Vice Chairs Kidani and Riviere, and members of the Senate Committees on Commerce, Consumer Protection, and Health, and on Human Services.

The Sex Abuse Treatment Center (SATC) supports the intent of S.C.R. 5 / S.R. 3 which requests that the Department of Human Services convene an Early Childhood Sexual Abuse Working Group to address and reduce child sexual abuse in Hawaii. SATC provides counseling and treatment to victims of early childhood sexual abuse and their families, and educational services to communities concerning this issue.

We respectfully offer the following comments for the Committees' consideration:

- The working group convened based on the request in S.C.R. 5 / S.R. 3 would currently consist of the respective Chairs of the Senate and House Committees on Human Services and representatives from the Departments of Health, Human Services, Education, and from Prevent Child Abuse Hawaii. It is our understanding that other stakeholders may be important to a strategically addressing early childhood sexual abuse. Therefore, the Committees may wish consider if additional stakeholders, such as direct service providers, representatives from the preschool community, healthcare providers (e.g. pediatricians), and additional state agencies, may be needed as named members of the working group.
- In order to strategically address early childhood sexual abuse, we note that prevention, while very important, must exist alongside the means to detect and identify abuse and respond to it appropriately. It may therefore be desirable to

amend the scope of the working group's deliberations from 'creating goals for a state policy that would prevent [early] child[hood] sexual abuse' to include consideration of policies to improve detection, identification and response to early childhood sexual abuse.

We appreciate this opportunity to testify.
