
A BILL FOR AN ACT

RELATING TO PUBLIC SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that rising prison
2 populations and shrinking correctional budgets have made
3 reducing costs important for correctional facilities.
4 The legislature further finds that prison farm programs can
5 reduce correctional costs by producing food in-house, increase
6 food self-sufficiency for correctional facilities, and address
7 the correctional issues of underused labor power and inmates in
8 need of programming and rehabilitation.
9 The legislature further finds that inmates working on
10 prison farm programs tend to be less aggressive, less prone to
11 recidivism, and healthier, and tend to consume a higher-quality
12 diet. Farm inmates are also exposed to a functioning workplace
13 and gain benefits such as employability, time management and
14 responsibility skills, access to nature, individual and team
15 building skills, and conflict resolution.
16 Prison farm programs also offer a unique environment where
17 inmates learn a variety of technical skills and trades. Farm

1 inmates also learn the practice of horticulture including caring
 2 for and identifying plants, managing and controlling pests,
 3 applying planting and harvesting techniques, and performing
 4 watering and weeding. Farm inmates also have the opportunity to
 5 learn to drive and operate a tractor and learn to repair farm
 6 machinery.

- 8 (1) A full-time agricultural management position and
 9 equipment for Kulani correctional facility agriculture
 10 operations; and
- 11 (2) A full-time agricultural management position for
 12 Waiawa correctional facility agriculture operations.

13 SECTION 2. There is appropriated out of the general
 14 revenues of the State of Hawaii the sum of \$ or so much
 15 thereof as may be necessary for fiscal year 2017-2018 and the
 16 same sum or so much thereof as may be necessary for fiscal year
