
A BILL FOR AN ACT

RELATING TO INDUSTRIAL HEMP.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that industrial hemp is
2 beneficial to human consumption, animal feed, soil remediation,
3 carbon sequestration, manufacturing of plastics, and housing
4 construction. The United States has traditionally grown hemp;
5 George Washington and Thomas Jefferson were hemp farmers. The
6 United States government produced a film in 1942 called *Hemp for*
7 *Victory* encouraging farmers to grow hemp due to a shortage of
8 fibers during World War II. Industrial hemp, by definition, has
9 an insignificant trace amount of THC (tetrahydrocannabinol), the
10 primary psychoactive ingredient in marijuana, which does not
11 allow the user of industrial hemp to experience the traditional
12 "high" associated with marijuana. Possession and cultivation of
13 industrial hemp is currently categorized as a class A felony
14 drug offense due to its physical resemblance to the marijuana
15 plant.

16 The legislature further finds that the University of
17 Hawaii's research on hemp shows there is significant potential

1 for a successful hemp agricultural industry in Hawaii. The
2 legislature also finds that several agricultural crops have been
3 lost in recent years and the State will benefit from the growth
4 of industrial hemp. In addition to creating new agricultural
5 commerce, hemp is also beneficial in removing toxins from the
6 soil, a process called phytoremediation. Phytoremediation is
7 important to the State because the State's past agricultural
8 operations have left toxins in vast tracts of land, but
9 phytoremediation can remove some of these toxins. Hemp grows
10 quickly and is a superior phytoremediation crop.

11 The purpose of this Act is to authorize the growth of
12 industrial hemp as an agricultural product by excluding the
13 growing, possession, processing, and selling of industrial hemp
14 from civil and criminal penalties.

15 SECTION 2. Chapter 141, Hawaii Revised Statutes, is
16 amended by adding a new section to be appropriately designated
17 and to read as follows:

18 "§141- Industrial hemp. No person shall be subject to
19 any civil or criminal sanctions in this State for planting,
20 growing, harvesting, possessing, processing, selling, or buying
21 industrial hemp, as defined in section 712-1240."

1 SECTION 3. Section 329-1, Hawaii Revised Statutes, is
2 amended as follows:

3 1. By adding a new definition to be appropriately inserted
4 and to read:

5 "Industrial hemp" shall have the same meaning as in
6 section 712-1240."

7 2. By amending the definition of "marijuana" to read:

8 "Marijuana" means all parts of the plant (genus) Cannabis
9 whether growing or not; the seeds thereof, the resin extracted
10 from any part of the plant; and every compound, manufacture,
11 salt, derivative, mixture, or preparation of the plant, its
12 seeds, or resin. It does not include the mature stalks of the
13 plant, fiber produced from the stalks, oil, or cake made from
14 the seeds of the plant, any other compound, manufacture, salt,
15 derivative, mixture, or preparation of the mature stalks (except
16 the resin extracted therefrom), fiber, oil, or cake, [e] the
17 sterilized seed of the plant which is incapable of
18 germination[-], or industrial hemp."

19 SECTION 4. Section 712-1240, Hawaii Revised Statutes, is
20 amended as follows:

1 1. By adding a new definition to be appropriately inserted
2 and to read:

3 "Industrial hemp" means the plant Cannabis sativa L. and
4 any part of that plant, whether growing or not, with a delta-9
5 tetrahydrocannabinol concentration of not more than 0.3 per cent
6 on a dry weight basis or a tetrahydrocannabinol concentration
7 allowed by federal law, whichever is greater, that is
8 cultivated."

9 2. By amending the definitions of "dangerous drugs",
10 "harmful drug", "marijuana", and "marijuana concentrate" to
11 read:

12 "Dangerous drugs" means any substance or immediate
13 precursor defined or specified as a "Schedule I substance" or a
14 "Schedule II substance" by chapter 329, or a substance specified
15 in section 329-18(c)(14), except marijuana [e], marijuana
16 concentrate[-], or industrial hemp.

17 "Harmful drug" means any substance or immediate precursor
18 defined or specified as a "Schedule III substance" or a
19 "Schedule IV substance" by chapter 329, or any marijuana
20 concentrate except marijuana [and], a substance specified in
21 section 329-18(c)(14) [-], and industrial hemp.

1 "Marijuana" means any part of the plant (genus) cannabis,
2 whether growing or not, including the seeds and the resin, and
3 every alkaloid, salt, derivative, preparation, compound, or
4 mixture of the plant, its seeds or resin, except that, as used
5 herein, "marijuana" does not include industrial hemp, hashish,
6 tetrahydrocannabinol, and any alkaloid, salt, derivative,
7 preparation, compound, or mixture, whether natural or
8 synthesized, of tetrahydrocannabinol.

9 "Marijuana concentrate" means hashish,
10 tetrahydrocannabinol, or any alkaloid, salt, derivative,
11 preparation, compound, or mixture, whether natural or
12 synthesized, of tetrahydrocannabinol[-], excluding industrial
13 hemp."

14 SECTION 5. This Act does not affect rights and duties that
15 matured, penalties that were incurred, and proceedings that were
16 begun before its effective date.

17 SECTION 6. Statutory material to be repealed is bracketed
18 and stricken. New statutory material is underscored.

19 SECTION 7. This Act shall take effect on July 31, 2150.

Report Title:
Industrial Hemp

Description:
Removes criminal and civil penalties for the growing,
possession, processing, and selling of industrial hemp. (HB773
HD1)
