
HOUSE CONCURRENT RESOLUTION

REQUESTING THE OFFICE OF ELECTIONS TO CONVENE A TASK FORCE ON
AUTOMATIC VOTER REGISTRATION.

1 WHEREAS, Hawaii's voter turnout percentage has
2 significantly declined since statehood in 1959, when turnout
3 stood at ninety-four percent of registered voters; and
4

5 WHEREAS, the percentage of registered voters in Hawaii who
6 turn out to vote now ranks among the lowest of the fifty states;
7 and
8

9 WHEREAS, voter participation is the hallmark of an
10 effective democracy; and
11

12 WHEREAS, an improved process of automatic voter
13 registration would be beneficial to the public and reduce any
14 inconvenience currently experienced; and
15

16 WHEREAS, the Legislature believes that an automatic voter
17 registration process would increase accuracy and efficiency; and
18

19 WHEREAS, removing barriers to registration for eligible
20 voters is the first step to increasing voter participation; and
21

22 WHEREAS, automatic voter registration would provide
23 eligible voters with the opportunity to register to vote when
24 applying for or renewing a driver's license or state
25 identification card unless the eligible voter affirmatively
26 declines to be registered; and
27

28 WHEREAS, voter registration through a routine and necessary
29 transaction, such as driver's licensing or renewal, increases
30 voter registration efficiency and effectiveness and voter
31 turnout; and

1
2 WHEREAS, automatic voter registration utilizes information
3 that the government has already collected; and
4

5 WHEREAS, current federal laws authorize the electronic
6 transfer of voter registration information from the counties and
7 Department of Transportation to election officials and the
8 statewide voter registration system; and
9

10 WHEREAS, nothing in the transfer of data would interfere
11 with any election official's authority or obligation, under
12 state or federal law; and
13

14 WHEREAS, six states and the District of Columbia have
15 already successfully enacted automatic voter registration
16 systems; and
17

18 WHEREAS, in 2016, Oregon implemented an automatic voter
19 registration system, and more than 270,000 eligible voters
20 registered via the system, forty three percent of whom voted in
21 the 2016 general election, thus helping Oregon set a new state
22 record for the number of votes cast; and
23

24 WHEREAS, automatic voter registration increases security
25 and results in improved accuracy of voter rolls through the use
26 of an encrypted system to transfer data rather than using paper
27 forms; and
28

29 WHEREAS, automatic voter registration would produce long-
30 term cost savings for the State, since processing paper voter
31 registration forms costs almost thirty times more than using
32 electronic registration; and
33

34 WHEREAS, innovative efforts have been undertaken in other
35 states to successfully reduce barriers to voting, encourage
36 voter participation, and make voting more convenient; now,
37 therefore; now, therefore,
38
