RELATING TO HOUSING.
Requires the strategic plan developed by the Hawaii interagency council for transit-oriented development to require that affordable housing be included as part of the development or redevelopment plan for any state property located within one-half mile of the Honolulu rail transit system, unless the council determines that housing is not feasible or desirable on a particular property. Requires every development or redevelopment plan to include housing with thirty per cent reserved for graduated area medium incomes. Allows a developer to build less housing units than required at one state parcel if the developer builds additional housing at another state parcel within one-half mile of the rail line to offset the reduction.
