

GOV. MSG. NO. 817

To Whom It May Concern,

My interest to sit on the State of Hawaii Game Commission has been something that I have had since we worked with fellow people in getting this Commission Passed and Signed by our Governor. It would be an Honor to be able to sit and work with the Department of Land and Natural Resources. To be able to bring forward Ideas of Balance of Wild Life Management and to set a Dialogue between the Outdoor Communities. Ideas that would benefit all Users of Our Resources and Those that are trying to protect our Native Forest. To be able to start Communication between the Department and Our Community is what I have dreamed of for quite some time.

I am an Avid Gatherer and Know My Outdoors throughout My Community and have been involved with My Community throughout My Whole Life. I am very well known throughout My Island Community and will be able to Communicate with them. The knowledge to work together on this Commission to find and accomplish our Common Goals for the Department and Our Community

1. Coached Community Youth/High School Sports for Fifteen Years and have been part of Kapaa Youth Football/Baseball Boards.
2. Kapaa Pop Warner Association Board from 1997- 2000 and Kapaa Little League Board from 2002-2004 which makes me know what a Boards Responsibility is.
3. State of Hawaii Hunting License from 1976 till Present Date.
4. Current Member of the Hawaii Hunting, Farming and Fishing Association
5. Current Chair of Hawaii Rifle Association for Island of Kauai.
6. Current Highway Supervisor for the County of Kauai.

So I humbly ask to be considered to be appointed to the Hawaii State Game Commission which I would represent My Community to the Best of My ability.

Thank You,

Robert R. Cremer Jr
