Honolulu, Hawaii

Support for GM 825

Aloha Senate Committee Chair on Agriculture and the Environment and Committee Members,

I support the appointment of Cynthia Rezentes to the Governor's Advisory Committee on Pesticides established by statute. Cynthia is a life-long community member, advocate, organizer and well versed in public policy. I personally served with her in the City and County of Honolulu Neighborhood Board system for 12 years and found her to be a critical thinker who researches issues, provides reason during discussion and can weigh all sides of a proposal. Her membership on the Advisory Committee would also bring her continued focus and thoughtfulness that she has so passionately provided for years on community, island and Statewide issues.

Please support GM 825 and approve Cynthia Rezentes to serve on the Pesticide Advisory Committee.

Mahalo, Jo Jordan
Waianae Coast Resident
