Comments: Aloha Committee Members, my husband and I have for 2 years in collaboration with BIISC held Albizia Workshops in our community, Kalapana Seaview Estates. We have spent countless hours just with logistics, identifying and mapping albizia infested lots and writing and mailing letters to almost 100% absentee owners asking for their permissions to eradicate the Albizia on their properties. Like BIISC, it is our experience also that even after sending several letters about 40% of the property owners still do not reply. Which is highly frustrating for us and as well for the community volunteers who participate at the workshops because all our work is in vain since the Albizia we cannot eradicate will not only re-infest properties that already have been treated but also infest lots that are so far free of albizia. We are in strong support of this bill!!!! Thank you, Ursula&David Snover
