Re: **Testimony in Support**
HB 91, Relating to Insurance

American Organization of Nursing Executives (AONE Hawaii), would like to thank the committee for the opportunity to **support** HB 91. This measure would amend the definition of “facility” in Hawaii’s clean claims law, found in section 431:13-108 of the Hawaii Revised Statutes, to make sure that acute care facilities are protected under the statute. This revision will clarify the original intent of the clean claims law to ensure that acute care facilities are paid in a timely fashion when uncontested (or clean) claims are submitted. (Specifically, the law requires payments to be made within thirty days for clean claims submitted in writing, and within fifteen days for clean claims submitted electronically.)

There were revisions made to the clean claims statute in 2015 Session Laws Hawaii, Act 033, that created ambiguity in the definitions used to define which providers are covered under the statute. This measure would clarify the definition of “facility” by striking out an exclusion created in 2015 for acute care facilities. We humbly request your support of this measure and thank you for your time and consideration of this matter.

Re: HB91 Relating to Insurance

Chair Belatti, Vice-Chair Kobayashi, and committee members, thank you for this opportunity to provide testimony on HB91, which clarifies that acute care hospitals are covered under the Hawai‘i’s clean claims statute.

Kaiser Permanente Hawaii SUPPORTS HB91.

HB91 is a “housekeeping” measure to clarify that acute care hospitals are subject to Hawai‘i’s clean claim statute, which requires health plans to pay providers on a timely basis when uncontested claims or “clean” claims are submitted.

Kaiser Permanente Hawaii does not distinguish any difference between acute care hospitals and other facilities when paying clean claims. Currently, we target paying clean claims within thirty days for clean paper claims, and within fifteen days for clean claims submitted electronically. Therefore, we urge the Committee to PASS HB91. Mahalo for the opportunity to testify on this measure.

Re: Testimony in Support - HB 91, Relating to Insurance

My name is Michael Robinson, Vice President, Government Relations and Community Affairs at Hawai'i Pacific Health (HPH). Hawai'i Pacific Health is a not-for-profit health care system, and the state's largest health care provider and non-governmental employer. Hawai'i Pacific Health is committed to providing the highest quality medical care and service to the people of Hawai'i and the Pacific Region through its four hospitals, more than 50 outpatient clinics and service sites, and over 1,600 affiliated physicians. Hawai'i Pacific Health's hospitals are Kapi'olani Medical Center for Women & Children, Pali Momi Medical Center, Straub Clinic & Hospital and Wilcox Memorial Hospital.

Hawai'i Pacific Health would like to thank the committee for the opportunity to **support** HB 91. This measure would amend the definition of "facility" in Hawaii's clean claims law, found in section 431:13-108 of the Hawaii Revised Statutes, to make sure that acute care facilities are protected under the statute. Due to revisions made to the clean claims statute in 2015 Session Laws Hawai'i (Act 033), there is ambiguity in the definitions of which providers are covered. This measure would clarify the definition of "facility" by striking out an exclusion created in 2015 for acute care facilities.

We humbly request your support of this measure and thank you for your time and consideration of this matter.
