Comments: Aloha. My name is Fehren Jones and I reside in the Honolulu area. I am in full support in regards to HB96 which states "Makes modifications to the Industrial Hemp Pilot Program, including allowing an application to grow industrial hemp to be submitted at any time during the year in which the applicant plans to grow industrial hemp." Hemp would help Hawai'i! America of old have used hemp in many ways, to make paper, heck, at one point money was made of hemp. its is an all around useful plant. I cleanses the air and soil, it can be harvested three time a year whie using less water, it is a money making crop! Using its fibers for clothing. using its oil and seeds for health. HEMP-crete, like concrete, but its made of hemp. Feed it to live stock. There are so many information out there. It's endless. Mahalo for your time
