**TESTIMONY OF SCOTT E. ENRIGHT
CHAIRPERSON, BOARD OF AGRICULTURE**

**BEFORE THE SENATE COMMITTEE ON WAYS AND MEANS
THURSDAY, JANUARY 12, 2017
9:30 A.M.**

**DEPARTMENT OF AGRICULTURE
FISCAL BIENNIUM 2018-2019 BUDGET BRIEFING**

Mission Statement

To further expand the role of Hawaii's agricultural industry to benefit the well-being of our island society by diversifying the economy, protecting resources important for agricultural production, and gaining greater self-sufficiency in food and renewable energy production.

Overview

The Department of Agriculture has many varied responsibilities including establishing and maintaining irrigation systems, managing agricultural lands, marketing and business development, preventing the entry of invasive species into the state, pest and disease control and eradication, maintaining healthy livestock industries, rabies prevention, and food safety and quality assurance programs.

The Department is continuing to move forward as an advocate for all agriculture; using available resources to aid the agriculture and aquaculture industries in becoming an integral part of the State's economy and moving towards the vision of an integrated 21st century agricultural economy supported by all agencies of state government.

Recent significant accomplishments include:

1. Development of a Hawaii Interagency Biosecurity Plan

The Department of Agriculture developed a Hawaii Interagency Biosecurity Plan as a coordinated path forward to increase support for local agriculture, protection for our environment, and safeguards for the health and lifestyle of Hawaii's people. Biosecurity is the set of measures taken to manage the risk from invasive species to the economy, environment,

and public health. This plan provides a comprehensive 10- year approach through multiple state, federal, and county agencies and partners that includes pre-border, border, and post-border policies and processes to address Hawaii's most critical biosecurity gaps. With over 100 policy, process, and infrastructure actions for Hawaii's state, federal, and county agencies and partners to take, the Hawaii Interagency Biosecurity Plan seeks to protect Hawaii's people, visitors, economy, agriculture and natural environment from the impacts of invasive species.

2. Increased State Agricultural Land

Through the Agribusiness Development Corporation, the Department of Agriculture has obtained nearly 200 acres of prime agricultural lands from former Dole pineapple lands in Whitmore, Oahu and plans to shortly close on another 218 acres of agricultural lands from Castle and Cooke also in Whitmore, Oahu. The State has also initiated over 30 million dollars in Fiscal Year 2016 to purchase additional prime agricultural land in Central Oahu. These lands are vital to the State's goal of doubling local food production by 2020. Increased production Ag land will directly move the state toward increased food security and self-sufficiency.

3. Revitalization of the Livestock Industry

The Department of Agriculture, working with the agricultural community, has made significant strides in revitalizing the livestock industry in the State of Hawaii. Hawaii has seen increased production numbers for local liquid milk and grass-fed beef and will soon see increased poultry production. Additionally, work has been done to increase the efficiency for cattle processing statewide.

Federal Funds

Departmental programs actively pursue federal funds through applying for grants and entering into cooperative agreements. In order to leverage state funds, important federal partnerships with various US Department of Agriculture agencies such as the Animal and Plant Health Inspection Service, Rural Development program, Farm Service Agency, Natural Resource Conservation Service, Sustainable Agriculture Research and Education program and the Department of Interior- Bureau of Reclamation will continue to be fostered.

Budget Request

Major operating requests for the biennium include general funds to supplement the Agricultural Loan revolving fund and Hawaii Water Infrastructure special fund, additional positions to strengthen the pesticides branch, and the continuation of the Food Safety and Industrial Hemp programs that were established in Act 106, SLH 2016 and Act 228, SLH 2016, respectively.

Capital improvements program requests include funds for Halawa Animal Industry Facility Improvements, a new Biocontrol Containment Facility, the State Packing and Processing Facility, and Kunia Agricultural Park.

Department of Agriculture
Functions

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
CHR/ Admin Services	Reviews and develops agricultural goals and objectives compatible with statewide expansion, improving self-sufficiency in food production and diversification of Hawaii's agricultural base to better serve the community and the industry. Provide department-wide administrative support.	Plan, direct, coordinate and manage activities of the department; Improve the provision of fiscal, personnel management, computer services, budget and management and property management services for the department.	AGR 192	Ch 226-7 HRS
Plant Industry	Prevents the introduction of plant pests and diseases, provides certification services to facilitate the export of certain plant materials, controls and eradicates insects and noxious weeds, and controls the distribution and usage of pesticides.	Inspection for alien species; surveillance and control of plant pests and plant pathogens; license and classify pesticide products; test competency of pesticide applicators; enforce pesticide requirements; conduct chemical analysis of samples	AGR 122, AGR 846	Ch 141-3,141-3.5, 141-3.6, 149A-152 HRS
ARM/ADC	Carries out programs to conserve, develop, and utilize the agricultural resources and infrastructure of the State; facilitates diversified farming and enforces and formulates and enforces laws, rules, and regulations to efficiently manage these resources.	Manage, operate and develop state agricultural land and irrigation systems; implement design and construction of capital improvement projects to improve access to agricultural lands and irrigation systems and to develop processing facilities to enhance marketability of commodities	AGR 141, AGR 161	Ch 166-168, 171 HRS
Ag Loan	Administers the agricultural and aquacultural loan programs	Provide agricultural and aquacultural loans to encourage such activities; assist farmers and aquaculturists in securing credit from private lenders; provide loans during emergencies or natural disasters; service and counsel existing and prospective borrowers	AGR 101	Ch 155 HRS
Agric Dev	Collects and disseminates statistical data on agricultural production, supports marketing and research on various agricultural commodities.	Facilitate export of agricultural products; assist agricultural and food manufacturing industries to maintain viability; conduct business feasibility analysis and research; develop market information and growth potentials for specific agricultural and food manufacturing industries; meet with individuals and industry groups to discuss implement, coordinate and improve State programs	AGR 171	Ch 141, 148
Quality Assurance	Establishes and enforces grade standards for agricultural commodities producers in the State in cooperation with the industry, and to achieve stability within various commodity sectors like milk, coffee, eggs, papaya; implement food safety certification program.	Administer and conduct fee for service inspection, certification and audits, label enforcement and licensing of dealers relating to agricultural commodities; review and adjust producer production quotas and price of milk; implement proces to certify that farms are food safe.	AGR 151	Ch 144-147, 157 HRS
Animal Disease Control	Administers the state animal health programs and aquaculture development program	Regulate animal importation; inspection and quarantine of dogs and cats; prevent the introduction of economically important livestock and poultry diseases and pests and agents with public health impact; maintain animal disease control programs with public health impact; maintain disease-free statuses of economically important livestock diseases under Federal-State Control and eradication programs; Emergency preparedness activities related to highly contagious livestock and poultry diseases or natural disasters; aquatic health management, aquaculture promotion and development	AGR 132, AGR 131, AGR 153	Ch 142-143 HRS, Ch 141-2.5 HRS

Department of Agriculture
Functions

Table 1

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Statutory Reference</u>
Quality Assurance	Maintains official State primary measurement standards; ensures accuracy of commercial measuring devices	Inspect weight, volume and linear measuring devices; calibrate measurement standards; test fuel for octane content; inspect consumer packages for content; inspect consumer products for price verification; license weighmasters and service agencies	AGR 812	Ch 486 HRS

								Pos (P)	Pos (T)	\$\$\$	Pos (P)	Pos (T)	\$\$\$
AGR 101	GA	AR	1	1	General fund supplement to Agricultural Loan revolving fund	Additional funds are needed to ensure the availability of loan funds. Loan demand going forward is expected to increase due to the Galbraith lands being given out, Maui sugar lands being converted to diversified agriculture and as food safety requirements are put into effect forcing farms to upgrade their facilities to meet the regulations.	A	-	-	\$ 5,000,000	-	-	\$ -
AGR 101	GA	AR	2	2	General fund supplement to Hawaii Water Infrastructure special fund and establish special fund ceiling	Continue program established in Act 171, SLH 2016. Initial appropriation expected to be disbursed by the end of FY 17. Program has received inquiries regarding funds for other water infrastructure projects.	A	-	-	\$ 2,500,000	-	-	\$ -
AGR 101	GA	NG	2	2	General fund supplement to Hawaii Water Infrastructure special fund and establish special fund ceiling	Special fund ceiling increase for above funds	B	-	-	\$ 2,500,000	-	-	\$ -
AGR 846	EE	AR	1	3	General funds for two Environmental Health Specialists; one Chemist	Additional case developers are needed to develop investigation reports and Uniform Information Practices Act requests; Additional chemist needed to comply with OSHA standards for lab safety.	A	3.00	-	\$ 79,236	3.00	-	\$ 158,472
AGR 846	EE	AR/NG	2	4	Revolving funds for one Environmental Health Specialist	Environmental Health Specialist to assist with processing of incoming license applications and fee payments, digitizing of existing files, and review of pesticide label changes. Currently, there are only 2 individuals who process applications and fee payments. This unit typically receives about 700 new product applications and 2300 applications for renewal of currently licensed products every year.	W	1.00	-	\$ 42,259	1.00	-	\$ 84,524
AGR 151	BB	AR	1	5	General funds for Food Safety program- 4.0 FTE positions, other current expenses, equipment and motor vehicles	Continue program established in Act 106, SLH 2016. Food safety standards will require continuous oversight.	A	3.00	-	\$ 200,000	3.00	-	\$ 200,000
AGR 192	AA	AR	1	6	General funds for one Human Resources Specialist IV	An additional Personnel Management Specialist IV position is required to make visible headway in reducing the number of Departmental vacancies. The position will be strictly dedicated to working with Division Administrators and Branch Chiefs to assist with the generation of quality position descriptions; formulation of effective recruitment strategies and execution; and creation of solid interview questions and exercises.	A	1.00	-	\$ 28,584	1.00	-	\$ 57,168

Program ID Sub-Organizations

Table 19

<u>Program ID</u>	<u>Sub-Org Code</u>	<u>Name</u>	<u>Objective</u>
AGR 101	GA	Financial Assistance for Agriculture	To promote the agricultural and aquacultural development of the State by stimulating, facilitating, and granting loans and providing related financial services to qualified farmers, new farmers, and qualified aquaculturalists.
AGR 122	EA	Plant Industry Administration	To protect Hawaii's agricultural and horticultural industries, environment, and natural resources, and general public by preventing the introduction and establishment of harmful insects, diseases, illegal non-domestic animals, and other pests; to conduct effective plant pest control activities; and to enhance agricultural productivity and agribusiness development by facilitating export shipments of agricultural and horticultural materials and products.
	EB	Plant Quarantine	To assist the agricultural industry by preventing the entry of plant pests and diseases and non-domestic animal pests.
	EC	Plant Pest Control- Bio Control	To assist the agricultural industry and natural environment by conducting effective plant and pest control activities utilizing bio-control methods.
	ED	Plant Pest Control- Chemical/Mechanical	To assist the agricultural industry and natural environment by conducting effective plant and pest control activities utilizing chemical or mechanical methods..
AGR 131	DB	Rabies Quarantine	To protect animal and public health by preventing the introduction of rabies and animal diseases in imported dogs and cats through import regulation, quarantine, and monitoring animal entries for alien pests and diseases..
AGR 132	DA	Animal Industry Administration	To safeguard the livestock and poultry industries from diseases not present in the State and assist with the development and sustainability of the livestock and poultry industries through the prevention, control, and eradication of livestock diseases which may negatively impact production and marketability, or human health.
	DC	Livestock Disease Control	To prevent, control and eradicate animal diseases and pests that can cause significant economic impact to the State's livestock and poultry industries.
	DD	Veterinary Laboratory	To assist the agricultural industry produce healthy food animals through animal pest and disease diagnosis.

Department of Agriculture
Program ID Sub-Organizations

Table 19

AGR 141	HA	Agricultural Resource Management	To assist in the developing and managing the State's agricultural resources by ensuring adequate and reliable supplies of irrigation water, farmland, infrastructure, and produce processing, livestock slaughter, and agricultural research and processing facilities.
AGR 151	BB	Commodities	To assist the agricultural industry through quality assurance of agricultural commodities.
	BF	Milk Control	To maintain stability in the dairy industry through producer price and quota control.
	BG	Quality Assurance Administration	To assist in the development of the agricultural industry through quality assurance of agricultural commodities, and producer price and quota control to maintain stability within the dairy industry.
AGR 153	CD	Aquaculture Development Program	To develop a sustainable and profitable commercial aquaculture industry by encouraging a diversity of products, improving management practices and technologies, and providing direct assistance with regulations, disease, marketing and new business development.
AGR 161	KA	Agribusiness Development Corporation	To make optimal use of agricultural assets for the economic, environmental and social benefit of the people of Hawaii by conserving and redeploying land and it's associated production infrastructure in a timely manner into productive uses and by coordinating and administering programs to assist or enhance agricultural enterprises.
	KC	Waiahole Water System	Provide a reliable source of irrigation water to users of the Waiahole water system by efficiently operating and maintaining the system infrastructure.
AGR 171	BA	Agricultural Development Administration	To promote the economic viability of commercial agriculture by sponsoring joint marketing programs for agricultural products with high revenue growth potentials; facilitating the development and expansion of marketing opportunities for targeted agricultural and processed products; and providing timely, accurate, and useful statistics.
	BC	Hawaii Agricultural Statistics	To assist the agricultural industry by collecting and disseminating agricultural production information.
	BD	Market Analysis and News	To assist the agricultural industry by collecting and disseminating agricultural market information.

Department of Agriculture
 Program ID Sub-Organizations

Table 19

	BE	Market Development	To assist the agricultural industry through market development and promotion of agricultural products.
AGR 192	AA	General Administration for Agriculture	To enhance the effectiveness and efficiency of the overall program by providing program leadership, staff support services, and other administrative services; and to conserve and protect important agricultural lands in agricultural use, and expand the contribution of diversified agriculture to the State's economy.
AGR 812	CA	Measurement Standards	To minimize inaccuracy or fraudulent practices in commercial measurement, labeling, and pricing to reduce losses for sellers and consumers through a program of licensing, inspecting, testing, calibrating and investigating complaints.
AGR 846	EE	Pesticides	To ensure the effective, efficient, and safe use of pesticides by minimizing their adverse effects on humans and the environment while considering the benefits of their use.
