

STATE OF HAWAII  
DEPARTMENT OF HUMAN SERVICES  
P. O. Box 339  
Honolulu, Hawaii 96809-0339

March 28, 2017

TO: The Honorable Representative Roy Takumi, Chair  
House Committee on Consumer Protection & Commerce

FROM: Pankaj Bhanot, Director

SUBJECT: **SB 185 SD2 HD1 – RELATING TO CHILD CARE PROVIDERS**

Hearing: Tuesday, March 28, 2017, 2:00 p.m.  
Conference Room 329, State Capitol

**DEPARTMENT'S POSITION:** The Department of Human Services (DHS) appreciates the intent of this measure and offers comments.

**PURPOSE:** The purpose of the bill is beginning January 1, 2019 to require child care providers licensed or registered by the Department of Human Services to obtain and maintain liability insurance coverage.

Thus far, amendments to the measure are as follows:

- The Senate Committee on Commerce, Consumer Protection, and Health defected the effective date of July 1, 2050.
- The Senate Committee on Human Services amended the measure by specifying that a provider operating a child care facility must obtain and maintain liability insurance coverage beginning January 1, 2019.
- The House Committee on Human Services amended the effective date to be July 1, 2070.

The Department appreciates these amendments, in particular the January 1, 2019 date for providers to obtain coverage, which will give DHS adequate time to determine appropriate amounts of coverage, to amend the relevant administrative rules, and give

providers adequate time to acquire the additional coverage. DHS will continue to work with the Legislature, providers and community members to address safety concerns in child care settings.

The primary focus of DHS child care licensing program is on the health and safety of all children in care. Section 346-157, Hawaii Revised Statutes (HRS), prohibits DHS from requiring a provider to obtain or maintain liability insurance coverage as a condition of licensure, temporary permission, or registration to operation a child care facility.

Legislative history from the 1986 House Committee on Human Services provides that the Legislature was concerned with the costs of liability insurance that was passed on to parents, and that parents should be made aware if the child care facility had opted to not have any insurance coverage. See House Journal, Standing Committee Report no. 208-86, on HB 2238-86 (1986).

Existing administrative rules, in accordance with section 346-157(c), HRS, only requires child care homes and facilities to disclose in their written policies whether the home or facility maintains liability coverage and must notify parents or guardians in writing no later than seven working days of the cancellation or termination of its liability insurance coverage. If the measure is enacted into law, pursuant to Chapter 91, HRS, DHS will need to amend existing administrative rules for all licensed and registered child care facilities and homes.

DHS provides the following comments: SB 185 SD2 HD 1 requires the amount of liability insurance coverage to be determined by the department. Determining the amount of coverage will require investigation and research, which DHS has started to do by sending inquiries to local child care associations as to industry standards.

- Multi-site center based child care providers reported different ranges of coverage with the minimum beginning at \$1 million per occurrence with a variation from \$3 million aggregate to \$15 million aggregate, with costs from \$24,000 to \$96,000 for multiple sites.
- Other providers reported that the insurance rates were determined by different criteria such as revenue at the site, ages of the children, and property values. With wide variation in costs for center based providers,

we have not determined whether there are additional differences in what is covered or excluded by individual policies as to whether all types of “negligence to a child” is covered by individual policies.

- The cost of home based providers is not known, however, in general, DHS understands that regular home owner liability insurance would not cover negligence that occurred during operation of a home business.
- As of February 2017, there were 389 registered family child care homes and 6 licensed group child care homes statewide. SB 185 SD2 HD1 if passed, and depending on the cost of insurance coverage, may result in the significant unintended consequences: 1) the statewide reduction of available registered family child care homes and licensed group child care homes, as home-based providers would be disproportionately impacted by the passage of this bill, and these small home-based businesses may not be able to afford the costs of liability insurance coverage, 2) the cost of child care may likely rise, as cost of providing services rise and the numbers of providers decreases, and 3) lower income families may be disproportionately impacted as they would be priced out of licensed child care. Low-income families may then have no choice but to use less expensive, unregulated child care options.

If the bill is adopted, there will be impact to small businesses and such DHS rule changes would be considered by the Small Business Regulatory Review Board with the Department of Business, Economic Development, and Tourism.

DHS also informs the committee that in consultation with the Department of Accounting and General Services, Risk Management Office, that office would likely require an additional position to assist DHS in determining annually whether the individual insurance policies of approximately 1,000 child care facilities and homes would meet the standards DHS develops. DHS defers to DAGS on implementation and other issues.

Thank you for the opportunity to provide comments on this bill.

Cynthia King	Individual	Support	Yes

Comments: I would like to express my sincere apologies for submitting late testimony. I respectfully request that the Committee on Consumer Protection and Commerce consider this testimony as they evaluate this bill. I support SB185, with the proposed requirement that all day care providers must obtain and maintain liability insurance as a condition to operate a state licensed child care facility. My son Wiley was almost four months old when he passed away under the care of a State licensed day care provider. We now know that she was caring for far more than the legal number of children at the time of Wiley's death, and we suspect that negligence played a role. The Honolulu Police Dept., Office of the Prosecuting Attorney and State Attorney General's office have not pursued criminal charges against this provider. Our family has been unable to pursue a legal case against this provider in civil court because the provider has no money or assets to pursue. The cost of a wrongful death lawsuit like this could total hundreds of thousands of dollars...which means even civil attorneys who might be interested in litigation would be unable to recoup their costs. I believe that the criminal justice system should be provided the legal authority to appropriately pursue day care providers who cause the death or serious injury of a child as a result of negligence or reckless disregard of day care laws. However if criminal charges are not, or cannot be pursued, I believe the requirement of day care providers to maintain liability insurance would ensure that families have the option to take action in civil court, to pursue justice for their family as well as appropriate damages. DHS has made the argument that they do not want to further burden day care providers. I would argue strongly that if the State of Hawaii is giving their stamp of approval to these providers, that there is a responsibility to ensure that protections are in place for the providers and for the families they serve. DHS will further argue that those costs will likely be passed on to families. Again, I would argue that families are already willing to pay more for licensed providers, and are in fact already paying more, based on the belief that these protections are already in place. At present they are investing in a false sense of security.

Comments: As a mother and resident of Volcano, I strongly support the proposed requirement that all providers must obtain and maintain liability insurance as a condition of licensure, temporary permission, or registration to operate a child care facility. It makes no sense that other places that take responsibility for the care of our children have insurance, e.g., schools, bus drivers, enrichment programs, yet childcare operations do not.

Comments: I think having insurance in the event of an accident is something that should occur as they deal with other peoples lives. Follows along the lines of schools, drivers, etc. But I'd also like to be on record that after a public case, that laws regulating the other types of "day care" places available, need to be regulated as well.

Comments: I strongly support the proposed requirement that all providers must obtain and maintain liability insurance as a condition of licensure, temporary permission, or registration to operate a child care facility.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.

Comments: I strongly support the proposed requirement that all child care providers must obtain and maintain liability insurance as a condition of being licensed, having temporary permission, or registration to operate a child care facility. This is important protection for both operator and families - the insuring firm will vet those buying policies and have requirements to protect the insurance company - which will mean safer child care facilities.
