**Senate Bill 683, Senate Draft 2, Proposing Amendments to Articles VII and X of the  
Constitution of the State of Hawaii to Authorize the Legislature to Establish a  
Surcharge on Residential Investment Property and Visitor Accommodations to  
Increase Funding for Public Education**

Dear Chair Woodson, Vice Chair Har, and Members of the Committee:

The Board of Education ("Board") voted to testify in support of Senate Bill 683, Senate Draft 2, which would propose amendments to the Constitution that would authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to advance the State's goal of providing public education.

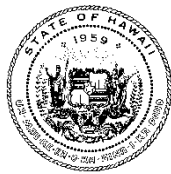

The Board supports any increase in funding that will support educational programs at our public schools, and this measure gives voters an opportunity to provide support as well.

Thank you for this opportunity to testify on behalf of the Board.

Very truly yours,

A handwritten signature in cursive script that reads "Lance A. Mizumoto".

**TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION**

PERSON TESTIFYING: Lynn Hammonds for the HTSB

DATE: Wednesday, March 15, 2017

TIME: 2:02 pm

LOCATION: State Capitol Conference Room 309

TITLE OF BILL: SB 683, SD2, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

PURPOSE OF BILL: Proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations. (SD2)

Chair Woodson, Vice Chair Har, and Members of the Committee on Education:

The Hawaii Teacher Standards Board (HTSB) supports SB683, SD2, to create additional funding for Hawaii's public schools by amending the Constitution of the State of Hawaii so the Legislature may establish a surcharge on residential investment property and visitor accommodations. Hawaii's public schools, and ultimately children, families and all citizens will benefit from a stronger public school system in need of properly trained and licensed teachers, lower class sizes, a comprehensive curriculum including adequate support for students with special needs and the arts for all children, and Career and Technical Education. The question, "What is needed to support and improve public schools?" is asked every year. The answer is "Full funding for programs that support a comprehensive education for each child." Please support this amendment to the Constitution to provide the much needed funding to ensure public schools are able to provide Hawaii's Keiki with the education they deserve.

Thank you for the opportunity to testify.

TO THE HOUSE COMMITTEE ON EDUCATION  
ON  
SENATE BILL NO. 683, S.D. 2  
AND SENATE BILL NO. 686, S.D. 2

**March 15, 2017**  
**2:02 p.m.**  
**Room 309**

SB 683, S.D. 2: PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION

SB 686, S.D. 2: RELATING TO EDUCATION FUNDING

Senate Bill No. 683, S.D. 2, proposes to amend the Constitution of the State of Hawaii to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations in order to fund public education. To implement the constitutional amendments, Senate Bill No. 686, S.D. 2, amends Chapter 302A, HRS, and establishes an education surcharge on residential investment property and visitor accommodations, specifies the uses of the surcharge for public education, sets the amount of the surcharge to be collected by the counties, and establishes the Education Special Fund.

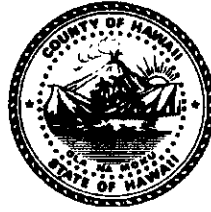

The Department of Budget and Finance offers the following comments on these bills. Under the Hawaii Constitution, the State has total responsibility for many functions that are performed by or shared by local governments in most other parts of the United States. These include the public school system, libraries, public welfare, and jails, etc.

The counties' major areas of responsibility and expenditure are for primarily property-related services, such as police and fire protection, waste disposal, water and sewer facilities, streets and parks.

Because of this division of responsibilities, the Hawaii Constitution appropriately assigns to the counties the exclusive use of real property taxation. Using the property tax to fund a State function as proposed in these bills represents a fundamental departure from the current constitutional structure of functions and revenue sources.

Thank you for your consideration of our testimony.

March 14, 2017

Representative Roy Takumi  
Consumer Protection & Commerce  
Hawai'i State Capitol  
Honolulu, HI 96813

Dear Chair Takumi and members:

**RE: SB 683 SD 2  
Constitution authorizing the Legislature to Establish a Surcharge on  
Residential Investment Property and Visitor Accommodations to  
Increase Funding for Public Education**

As a former teacher myself, I fully appreciate the efforts of this Legislature to properly fund education. However, I cannot support SB 683, SD 1, and must speak against it.

**Effect on Real property tax.** The County of Hawaii, as is true of the other counties, has little or no control over its revenue except in one area, real property taxes, and the County relies overwhelmingly on real property taxes to fund its operations. The burden of that tax can be heavy for many residents, but since it is virtually the only tool we have, we use it the best we can.

A surcharge on residential investment properties would obviously limit County options and make it even more difficult to balance our budgets. Therefore, we have to jealously guard this taxing authority, and ask that you not breach this line of authority.

**Effect on TAT.** Given our County's limited resources, we are fortunate that the Legislature has seen fit to allow the counties to share in the TAT. That has been a great help, and we thank you for it.

However, this source of revenue is under constant pressure, and even this session the Legislature will be asked to increase the counties' share of TAT so that we

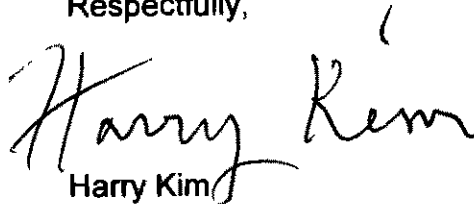

Roy Takumi  
March 14, 2107  
Page 2

can better serve our constituents and visitors. The TAT pie can only be divided into so many pieces, and a surcharge on visitor accommodations, even for the most noble of purposes, will obviously limit what can be raised and spent elsewhere.

Please do not deprive the counties of this needed source of revenue, by dividing the pie even further.

If this bill does pass, we would ask that the wording of the question posed to voters more clearly reflect the impact it would have on counties and real property taxes. **Saying** *"Shall the legislature be authorized to establish, as provided by law, a surcharge on residential investment property and visitor accommodations to fund a public education for all of Hawaii's children?"* **skews the issue unfairly in favor of a "Yes" vote.** Language explaining that counties will probably have to raise property taxes overall, to offset some or all of this earmark, would level the playing field.

Respectfully,

SUBJECT: **HEARING OF MARCH 15, 2017; TESTIMONY IN OPPOSITION TO SB 683, SD 2, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION**

Thank you for the opportunity to testify in **opposition** to this measure. The purpose of this bill is to propose amendments to the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to fund public education.

The Maui County Council has not had the opportunity to take a formal position on this measure. Therefore, I am providing this testimony in my capacity as an individual member of the Maui County Council.

I submit this testimony also in opposition to SB 686 SD 2, which establish the law to facilitate the establishment of the surcharge.

I **oppose** this measure for the following reasons:

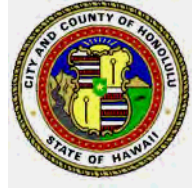

1. Although the Department of Education receives almost 20 percent of the entire budget of the State of Hawaii, the administrators, teachers, students and advocates of this bill have legitimate reasons to demand more funding to provide quality education for our keiki. But the proposed measure before you is flawed, which is why I implore the legislature to defer this bill.
2. Real property taxes are counties' primary and largest source of revenue to fund county programs. The counties this year are anticipating substantial salary adjustments for all bargaining units, which we are obligated to fund regardless of our position. Raising property taxes is our only reasonable option to balance our budget.

3. Increasing costs of visitor-related programs like transportation, sewer and water, fire, police, and parks maintenance continue to be a challenge because the counties don't receive their fair share of the transient accommodations tax. To pay for these services, the residents will continue to be burdened and face potential increases in real property taxes.
4. The bill mandates the counties to administer and collect the property surcharge for education without identifying how the counties are to fund this mandate. Have the proponents of this measure given any thought to how the new tax will be administered and who will bear those costs? Without a clear implementation plan and associated funding, the risk is that the burden will fall solely upon county residents. We urge you to defer this bill and consider the magnitude of its impact.
5. In many mainland communities, local real estate taxes are used to support local schools. The communities decide for themselves what they can afford and tax their residents accordingly. In Hawaii, funding and administration of schools are handled centrally by the state with little to no input from the counties or local residents. The premise of this bill that requires the counties to fund schools without having a greater say in the way that monies are spent ignores the importance of the community's right to guide education decisions and smacks of paternalism.

For the foregoing reasons, I **oppose** this measure.

BEFORE THE COMMITTEE ON EDUCATION  
WEDNESDAY, MARCH 15, 2017; 2:02 PM

TO: THE HONORABLE JUSTIN H. WOODSON, CHAIR  
THE HONORABLE SHARON E. HAR, VICE CHAIR  
AND MEMBERS OF THE COMMITTEE ON EDUCATION

FROM: ROY K. AMEMIYA, JR., MANAGING DIRECTOR  
CITY AND COUNTY OF HONOLULU

SUBJECT: COMMENTS ON S.B.683, SD2

The City and County of Honolulu (City) has serious concerns about S.B.683, SD2. This bill proposes amendments to Articles VII and X of the State Constitution to authorize the Legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

The City has a significant shortage of affordable rental housing. Imposing an additional surcharge on all residential investment property will have a substantial, adverse impact on the affordable rental market as landlords will pass this cost on to their tenants. While the City recognizes the need for increased additional funds for the State's public education, the City is deeply concerned that this measure will do so at the expense of the affordable rental housing market.

Article VII, section 3 of the State Constitution reserves to the State the power to tax, except all functions, powers and duties relating to the taxation of real property, which is to be exercised exclusively by the counties. Real property taxes and are the most significant source of revenue for the City. This measure encroaches into the City's only permanent taxing authority. The State, unlike the City, has a wide range of taxing authority and can impose other taxes to increase funding for public education. Under Article X of the State Constitution, the State is solely responsible for the education of Hawaii's students.

Thank you for your consideration of these concerns.

TESTIMONY BEFORE THE HOUSE COMMITTEE ON  
 EDUCATION

RE: SB 683, SD 2 - RELATING TO EDUCATION FUNDING.

WEDNESDAY, MARCH 15, 2017

COREY ROSENLEE, PRESIDENT  
 HAWAII STATE TEACHERS ASSOCIATION

Chair Woodson and Members of the Committee:

The Hawaii State Teachers Association **strongly supports SB 683, SD 2**, relating to education funding.

Hawai'i shortchanges its public schools. While our state's per-pupil spending of \$11,823 ranks 17th in the nation when compared to other states in raw dollars, comparison with school districts of similar size and demographics yields different results. Mainland districts with high costs of living are typically urban and averaged with with rural districts experiencing lower costs of living in statewide analyses. When comparing school districts of similar size, Hawai'i, the nation's only statewide school district, ranks 227th in per-pupil funding *before* adjusting for cost of living. A comparison of spending per pupil in America's largest school districts shows the following:

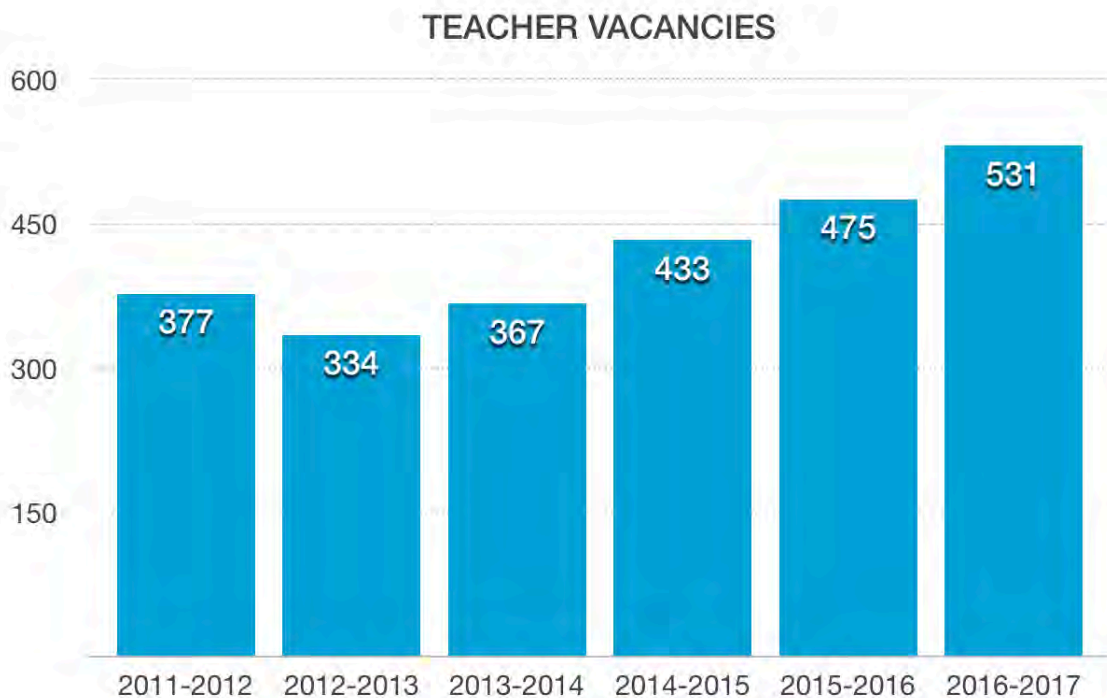

DISTRICT	Wash. D.C.	New York City, NY	Boston, MA	Pittsburgh, PA	Cincinnati, OH	Detroit, MI
AMOUNT	\$26,661	\$25,061	\$22,762	\$22,600	\$22,157	\$18,361

Hawaii's major private schools, on the other hand, average \$15,173 in per-pupil spending. When Catholic schools, subsidized by the Roman Catholic Diocese, are removed, private school spending jumps to nearly \$19,173 dollars per student, sans endowment funds that further boost private school baselines. As Punahou President Jim Scott revealed in 2014, "The real cost of our education per student is \$26,000,"

with the school's endowment standing then at \$235 million and fundraising operations generating an additional \$12-\$15 million each year.

At the same time, we are facing a teacher shortage crisis. Insufficient funding has led to a teacher shortage crisis. From 2011 to 2014, the DOE suffered an average of 359 unfilled vacancies per year. Yet, departmental data showed 531 vacancies for the 2016-2017 school year, a 45 percent increase from the 2013-14 school year.

While many factors influence teachers' decisions about whether or not to remain in their classrooms, low salaries are undoubtedly a primary driver of teacher turnover. In an analysis performed by HSTA, Hawai'i's beginning teacher salaries were found to be approximately \$4,000 lower than average, while our state's highest salaries are roughly \$15,000 lower than average. We found that the biggest salary disparity encapsulates teachers with 10 to 20 years of service, whose salaries are \$15,000 to \$20,000 lower than their counterparts in comparable districts. When comparing the

1200 Ala Kapuna Street ♦ Honolulu, Hawaii 96819  
Tel: (808) 833-2711 ♦ Fax: (808) 839-7106 ♦ Web: [www.hsta.org](http://www.hsta.org)

**Corey Rosenlee**  
President

**Justin Hughey**  
Vice President

**Amy Perruso**  
Secretary-Treasurer

**Wilbert Holck**  
Executive Director

overall average of teacher salaries adjusted for cost of living, both nationwide and in comparable districts, Hawai'i teachers are the lowest paid in the nation.

By levying a surcharge on residential investment properties and visitor accommodations, we can raise over \$500 million each year for education without placing an unfair financial burden on local residents. We can create class sizes that allow teachers to connect with their students, expand whole child education to include career and technical education and the arts, increase resources for special needs students, and provide professional pay that reflects the value of our hardworking teachers.

At the same time, we can make Hawai'i more affordable. Over the past two decades, the pricing of housing in the islands has skyrocketed. Townhomes have increased nearly 400 percent since 2001, with the average cost of a single-family home now exceeding \$720,000. According to the Department of Business, Economic Development, and Tourism, foreign nationals pay roughly 64 percent more than Hawai'i residents for homes, with luxury apartment buildings being built in Kaka'ako advertising prices that, in some cases, average to over \$3 million per unit. Our state's high cost of housing and renting is driven by real estate speculators using the islands as their personal Monopoly board. In levying a surcharge on investment properties and incentivizing low-income rentals, we are not only advancing our children's future, but ensuring that they aren't priced out of paradise.

The time for talking about the problems in our school system is over. It is time to act. To build the schools our keiki deserve, the Hawaii State Teachers Association asks your committee to **support** this bill.

**TESTIMONY FOR SENATE BILL 683, SENATE DRAFT 1, PROPOSING  
AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE  
STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A  
SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR  
ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION**

**House Committee on Education  
Hon. Justin H. Woodson, Chair  
Hon. Sharon E. Har, Vice Chair**

**Wednesday, March 15, 2017, 2:02 PM  
State Capitol, Conference Room 309**

Honorable Chair Woodson and committee members:

I am Kris Coffield, representing IMUAlliance, a nonpartisan political advocacy organization that currently boasts over 350 members. On behalf of our members, we offer this testimony in strong support of Senate Bill 683, SD 2, proposing amendments to Articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

In comparison to school districts of similar size and demographic composition, Hawai'i, ranks 227th in per-pupil funding *before* adjusting for cost of living, at \$11,823 per child. Washington D.C., New York City, Boston, Pittsburgh, and Cincinnati school districts, for example, spend nearly twice as much as Hawai'i per pupil, at well over \$22,000 to over \$26,000 per student. Similarly, local private schools, discounting Catholic institutions, spend nearly \$19,173 dollars per student, with Punahou President Jim Scott revealing, in 2014, "The real cost of our education per student is \$26,000," owing to the school's then-total endowment of \$235 million and fundraising operations of \$12-\$15 million annually.

Moreover, at the beginning of the 2015-2016 school year, media outlets widely reported that the DOE faced 625 vacant teaching positions. While the Department of Education currently includes the percentage of teaching positions filled on the first day of school as a statewide indicator in its strategic plan, this statistic does not detail the quality or competency of the teachers filling vacant positions. The number of new teachers hired who have not completed a teacher education program has increased from 125 for the 2011-2012 school year to 241 for the 2015-2016

school year. Over the same period, the number of teacher resignations has increased from 624 in 2011-2012 to 781 in 2015-2016, while the total number of voluntary teacher separations has increased from 934 in 2011-2012 to 1,075 in 2015-2016. In short, hundreds of teachers are leaving the workforce each year at an accelerating pace, while the DOE does not have enough trained and licensed teachers in waiting to fill the holes they leave. Accordingly, we must raise Hawai'i's last-in-the-nation cost of living adjusted teacher pay as a means of addressing the problem. Studies have shown that as teacher pay increases, so, too, does student achievement. A Stanford University study found that "raising teacher wages by 10 percent reduces high school dropout rates by 3 percent to 4 percent," while a study of Florida showed that pay raises reduced teacher attrition by as much as 25 percent for hard-to-fill subject areas, with children's learning growth gaining from more exposure to experienced educators. Recently, the Hawai'i State Teachers Association performed a study of teacher compensation in comparison with mainland peer districts. HSTA found that teachers' wages are \$4,000 to \$20,000 below that of their mainland peers *before* adjusting for cost of living. Put simply, to reduce teacher turnover, we must pay educators what they're worth.

We are especially heartened by this measure's possibilities for making Hawai'i more affordable. Hawai'i residents face the highest housing costs in the nation, at more than twice the national average. According to the National Low Income Housing Coalition's *Out of Reach 2016* report, a full time worker would need to earn \$34.22/hour to afford a two-bedroom apartment at fair market value in our state, with Honolulu experiencing a 67 percent increase in fair market rent between 2005 and 2015. Average rent for a two-bedroom unit surpassed \$2,100 in 2015, with average rent for a 900-square-foot exceeding \$2,200 in 2016. In the past three years alone, Honolulu rent has increased 23.5 percent. While 47 percent of Hawai'i residents are renters (a number that does not include individuals and families renting outside of the regulated rental market), they earn an average wage of \$14.49/hour, scarcely enough to meet their basic needs. One out of every four households in Hawai'i report that they are "doubling up" or are three paychecks or less away from being homeless, according to the Hawai'i Appleseed Center for Law and Economic Justice. Moreover, 54 percent of households are cost-burdened, meaning that they pay more than 30 percent of their income for housing costs.

We are in the midst of an affordable housing crisis. For context, our state's cost of housing has skyrocketed over the last decade, leaving many families searching for affordable alternatives, in shelters, or on the streets. The median price of condominiums on O'ahu increased 8.3 percent in 2016 to \$390,000, while the median price for single-family homes increased by 6.5 percent to \$735,000, according to the Honolulu Board of Realtors. The cost of a four-bedroom home in urban Honolulu now exceeds \$1.1 million. At least 40 percent of residences in Hawai'i are owner unoccupied, according to the Hawai'i Housing Finance and Development Corporation, meaning that nearly 50 percent—and by some estimates well over half—of Hawai'i homes are investment properties. Many of those properties are owned by mainland and foreign buyers, whose real estate market speculation is a prime driver of Hawai'i's highest-in-the-nation cost of housing.

Housing costs are driven largely by real estate speculators, who use Hawai'i as their personal luxury row. We must ask ourselves: do we want to continue catering to people who live outside of Hawai'i, but have the resources to maintain a home here, too? Or do we want to create a first-rate education system for our children? According to a study released in May of 2016 by the Hawai'i Department of Business, Economic Development, and Tourism, there are "clear distinctions" between the average price of homes bought by local residents, mainlanders, and foreigners. Analyzing purchases made between 2008 and 2015, DBEDT found: "The average sale price was highest among foreign buyers. The average sale price of the total of 5,775 homes sold to foreign buyers from 2008 to 2015 was \$786,186, 28.3 percent higher than the average sale price to the mainlanders (\$612,770) and 64.7 percent higher than the average sale price to local buyers (\$477,460)." Thus, this constitutional amendment directly impacts real estate speculators driving up housing and, in turn, rental prices in Hawai'i, i.e. those most responsible for pricing families keiki out of paradise.

All children deserve a chance at a brilliant future. Mahalo for the opportunity to testify in support of this bill.

Sincerely,  
Kris Coffield

# Maui Hotel & Lodging

ASSOCIATION

Testimony of

**Lisa H. Paulson**

Executive Director

Maui Hotel & Lodging Association

on

SB683 SD2

PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

## COMMITTEE ON EDUCATION

**Wednesday, March 15, 2017, 2:02 pm**

**Conference Room 309**

Dear Chair Woodson, Vice Chair Har, and Members of the Committee,

The Maui Hotel & Lodging Association (MHLA) is the legislative arm of the visitor industry. Our membership includes over 175 property and allied business members in Maui County – all of whom have an interest in the visitor industry. Collectively, MHLA's membership employs over 25,000 residents and represents over 19,000 rooms. The visitor industry is the economic driver for Maui County. We are the largest employer of residents on the Island - directly employing approximately 40% of all residents (indirectly, the percentage increases to 75%).

MHLA **opposes SB683 SD2**, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

Keeping our costs level is critical to our ability to compete against other sun destinations, especially now when we are seeing an increased amount of competition with new resort locations and other destinations' deeply discounted air/hotel packages. The State permanently raised the Transient Accommodations Tax where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

Last year's (2016) visitor spending brought in \$15.6 billion to the State, with the state's tax take equaling \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state's general fund last fiscal year. The hospitality industry should not be seen as an infinitely taxable entity. While the TAT was originally established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended.

Maui Hotel & Lodging Association is opposed to raising taxes and leveraging extra fees on the visitor industry.

Thank you for the opportunity to testify.

# TAX FOUNDATION OF HAWAII

126 Queen Street, Suite 304

Honolulu, Hawaii 96813 Tel. 536-4587

SUBJECT: REAL PROPERTY, TRANSIENT ACCOMMODATIONS, Education Surcharge on Residential Investment Properties and Visitor Accommodations

BILL NUMBER: SB 686; SD-2 [Implementing Legislation]; SB 683, SD-2 [Constitutional Amendment]

INTRODUCED BY: Senate Committees on Ways and Means and Judiciary and Labor

EXECUTIVE SUMMARY: Proposes a substantial surcharge on real property tax for residences where the home exemption is not claimed, and on transient accommodations. Proposes a constitutional amendment, because the surcharge would not be constitutional now. With a tax increase of this magnitude, economic ripple effects are likely to be enormous. We also question why such a massive increase is being sought given that the Department of Education already has a gargantuan share of the State budget but is still beset with such issues as frustrated teachers and students roasting in our classrooms.

Regarding the constitutional amendment language, we do not recommend returning the language to the “mandatory funding” language in HB 182 HD 2.

Also regarding the constitutional amendment language, either limits should be written into the amendment or the voters should be apprised that they are voting only on granting power to the legislature to impose a state level real property tax surcharge, with no limitations on that power.

SYNOPSIS: Levies a surcharge on all “residential investment” property in the State of Hawaii as follows:

Property value	Surcharge per \$1,000 of total property value
<b>\$2,000,000 and over</b>	<b>\$7.50</b>

Residential investment property is defined as all realty and all machinery and other mechanical or allied equipment and the foundations thereof, that is dedicated for residential use for which the owner does not qualify for a homeowner’s exemption.

Exemptions are provided for: (1) property rented for an amount of \$1,500 or less per month; (2) property rented to a person or household qualifying for the federal public housing program; (3) property rented to a person or household receiving rental assistance through the state rent supplement program; (4) property rented to a resident aged 65 or older, if the resident's annual income is less than \$75,000; (5) leases under the Hawaiian Homestead Act of 1920; (6) property rented to a person who is blind or deaf, or a person totally disabled, as defined in HRS section 235-1, whose medical condition is verified by an appropriate medical professional; (7) property rented to a totally disabled veteran; (8) property used exclusively for charitable purposes;

(9) property used for school purposes; (10) property owned by a nonprofit corporation to which admission is restricted by corporate charter to members of a labor union or government employees' association; (11) property dedicated to public use by the owner, which dedication has been accepted by a government entity and notice of that acceptance is recorded in the bureau of conveyances; (12) property that has been set aside for public use for a period of not less than ten years after enactment of this section; and (13) property owned by any entity granted a transient accommodations tax exemption under section 237D-3.

A person who is eligible for a county homeowner's exemption on property tax who also owns more than one residential investment property shall be entitled to designate which residential investment property owned by that person shall be exempt.

An exemption shall only be granted for a residential investment property or a visitor accommodation for which every owner or ownership interest qualifies for one or more exemptions.

Levies a surcharge on visitor accommodations in the State of Hawaii as follows:

Daily price	Surcharge per day
Less than \$150	\$3.00
\$150 or more	\$5.00

Visitor accommodations are defined as all transient accommodations pursuant to section 237D-1, resort time share vacation units pursuant to section 237D-1, and any other dwelling or lodging located in the State and let by an owner or operator for less than one hundred eighty days. Visitor accommodations shall not include any facility owned or used by a government agency, school or college dormitory, homeless facility pursuant to section 346-361, or tenement home, group home, group residence, group living arrangement, boarding house, certified pursuant to section 445-94.

Obligates the counties to collect the surcharge, but provides that they may retain 5% of the amount collected to reimburse the county for the costs of assessment, collection, and disposition of the education surcharge incurred by the county.

EFFECTIVE DATE: The implementing legislation is effective July 1, 2050.

STAFF COMMENTS: The real property tax increases being proposed are substantial. For a residential investment property valued at \$2 million in Honolulu, for example, the real property tax would be \$6,000 and the surcharge would be \$7,500, for a total of \$13,500, more than doubling the tax bill.

Some have sought to justify the dramatic effects upon the real property tax wrought by this bill by the argument that low property taxes are a bad thing. The preamble in HB 1735 (2016), for example, said:

The legislature finds that Hawaii has the lowest property taxes in the nation. Although this makes sense for low- and middle-income residents who own an average single-

family home, this causes the counties to potentially forego additional tax revenue from high-value homes and second homes.

The legislature further finds that many individuals and families who spend time in Hawaii are owners of high-value properties and do not pay state income tax, instead maintaining resident status in another state with a lower income tax rate. However, these individuals still use Hawaii's infrastructure and services, and thus should pay their fair share.

The legislature also finds that low property taxes can incentivize development of high-end, high-value properties, contributing to the high cost of land in Hawaii, driving up the cost of living and exacerbating our affordable housing and homelessness issues.

The conventional wisdom as to why Hawaii has low real property taxes is that most other states provide schools at the city or county level, requiring them to be funded by a municipal funding source like a property tax. Hawaii has a state-run school system, which is funded by state funding sources like the income tax and the GET.

Are the counties suffering because they are forgoing tax revenue? The counties set property tax rates by ordinance and look at rate levels during every budget cycle. Honolulu and Kauai, for example, enacted major changes to their property tax systems in 2013. If the counties are forgoing revenue, they are doing it by their own choice.

Do nonresidents fail to pay their fair share in income tax? Our income tax is like the tax systems in most other states. Nonresidents get taxed on income with its source in Hawaii. Residents get taxed on income regardless of source BUT get a credit for tax paid to another state or country on income that has its source in that state or country. So, a taxpayer's tax, resident or not, depends on where the income comes from and whether other jurisdictions are also taxing it. This kind of system has been upheld as meeting the requirements in the U.S. Constitution. See, for example, *Comptroller of the Treasury of Maryland v. Wynne*, 575 U.S. \_\_\_ (2015). If that system fails to tax people fairly, why do most states with an income tax use it?

Do low property taxes lead to development of high-end properties that then drive up the cost of land and therefore the cost of living? And if so, is the remedy for this higher taxes which can and do drive up the cost of living *by themselves*? Land costs more because we're on an island in paradise. Folks are willing to pay decent money to live here part of the time even if they might not want to live here permanently. Indeed, our tourism authority actively encourages potential tourists to come here. So property is going to cost more here than the same square footage in places where transient rental is less of a factor.

A tax increase of any magnitude in Hawaii's fragile economy will, no doubt, have a negative impact as costs soar due to higher taxes. As costs and overhead increase, employers must find ways to stay in business by either increasing prices to their customers or cut back on costs. This may take the form of reducing inventory, shortening business hours, reducing employee hours, or even laying off workers. A tax increase of any magnitude would send many companies,

especially smaller ones, out of business taking with them the jobs the community so desperately needs at this time.

While the teachers believe that they have not been given a fair shake at the negotiating table, that is an issue that should be resolved at the table and not by asking for tax increases or an earmarked source of funding. It is up to the teachers to ask for what money is available just like any other collective bargaining units. Although public employee union leaders complain about how the public employees should not be asked to bear the brunt of the downturn in the economy, they seem to ignore the fact that employees in the private sector have taken hits early and often, with many of them either working shorter hours or having taken pay cuts if they are working at all. A recent analysis of Bureau of Economic Analysis data done by the Grassroot Institute of Hawaii,<sup>1</sup> for example, showed that Hawaii teachers make low wages and benefits, 42nd in the nation, but that Hawaii's private sector workers made the lowest wages and benefits nationally when adjusted for cost of living.

Teachers do have a legitimate complaint that should demand the attention of lawmakers and Board of Education members, namely that teachers are being asked to do more and more administrative paperwork and are spending less and less time in the classroom. If nothing else, the funds that are being appropriated to the DOE are failing to reach the classroom because of the top-heavy administrative structure of the department that demands reports and schedules and evaluations to justify the role of administrators. The frustration of classroom teachers is that they spend too much time filling out forms and reports and not enough time in the actual classroom. Unfortunately, with more than \$1.5 billion in its budget and more than 20% of the general fund budget, teachers are frustrated, and kids are roasting in the schools. The department of education still cannot get it right. Until it does, there is little justification for an increase of financial resources let alone a massive tax increase as proposed.

HB 182, HD-2 SB 683, proposed to amend the Constitution to say that the State "shall make sufficient sums available" for public education instead of "shall provide" for public education. This change is dangerous, because the language is identical with that in Hawaii Const. Art. XII, sec. 1 which enabled the Department of Hawaiian Home Lands to mount a court challenge to the sufficiency of the amount appropriated to the agency. Chad Blair, *Judge: State Must Fund Hawaiian Home Lands*, Civil Beat (Honolulu), Mar. 2, 2016, available at <http://www.civilbeat.org/2016/03/judge-state-must-fund-hawaiian-home-lands/>.

It also may create constitutional issues because the title of the bill does not fairly apprise the reader that it is going to change the Department of Education to mandatory funding.

The mandatory funding language was removed by WAM in coming up with the draft now before this Committee.

Also regarding the constitutional amendment, it is troubling that there are no limits on the proposed tax.

---

<sup>1</sup> <http://www.grassrootinstitute.org/2017/01/islanders-shouldnt-be-taxed-extra-for-teacher-bonuses/>

As mentioned above, the current version of SB 686, the implementing legislation, would if approved impose a surcharge of \$7.50 per \$1,000 of property value on “residential investment” properties that are valued at \$2 million or more. But if the constitutional amendment is approved, there is no reason why legislators can’t change the implementing legislation. It could be the year the amendment is approved, or the next year, or the year after that. They can change it to impose the surcharge on all “residential investment” property regardless of value. They can change the surcharge rate. They can amend the definition of “residential investment” property, because the constitutional amendment bill doesn’t tell us what that kind of property is. They can do all of these things because the constitutional amendment has given the legislature this power.

In other words, once the amendment passes, the genie is out of the bottle. It may not even be under control of the members now in the legislature, because future legislators may have different ideas from current members.

We need to ask ourselves if we want to or need to give the genie that much power. If we do, then we only have ourselves to blame for what happens when the genie does come out. If we don’t, then we should either kill the constitutional amendment or write strict limits into it.

If the bill should move forward, some technical corrections should be considered.

- The bill now exempts (in proposed section 302A-I(a)(13)) property owned by any entity granted a TAT exemption under section 237D-3. But transactions are exempted from the TAT; entities are not. As an example, section 237D-3(7) describes accommodations furnished without charge. As written, then, a property owner owning 100 apartments and allowing a contractor to stay in one of them for free for part of year would be entitled to this exemption on all 100 units.
- The bill provides (in proposed section 302A-I(b)) that a person who is eligible for a county homeowner's exemption on property tax who also owns more than one residential investment property shall be entitled to designate which residential investment property owned by that person shall be exempt. The apparent intent is for a person owning multiple properties and living in one of them to designate the one property exempt from surcharge. The provision does not seem to be necessary. The person can and should claim the homeowners’ exemption for the property on which he or she lives, and that property then would not be residential investment property. The other properties would be residential investment, and none of them should qualify for exemption.

THE TWENTY-NINTH LEGISLATURE  
REGULAR SESSION OF 2017  
COMMITTEE ON EDUCATION**

**Wednesday, March 15, 2017, 2:02 p.m., Conference Room 309**

The Honorable Roy M. Takumi, Chair  
The Honorable Sharon E. Har, Vice Chair  
Committee on Education

Dear Chair, Vice Chair, and Members of the Committee:

The subject bill proposes a constitutional amendment that would allow the legislature to impose a real property tax surcharge on "residential investment property" and "visitor accommodations" in order to raise funds for public education.

Individuals with disabilities who are unable to live independently often reside with family or friends because acceptable alternatives are scarce or not available at all. In many cases, the property owner who cares for the individual creates a special needs trust to hold title to the property so that the person may continue living there after the owner dies. Those arrangements serve the disabled by allowing them to stay at home, and they serve the public by avoiding expenses the state would otherwise incur.

Concern arises because the City and County of Honolulu taxes investment property at a higher rate and "owner occupied" property at a lower rate, but it provides that the lower rate applies to trust property "where the settlor of the trust dies and a beneficiary entitled to live in the home under the terms of the trust document occupies the property as the beneficiary's principal home." ROH § 8-10.4(a) (last paragraph). Other counties lack a similar provision, and all county codes are subject to change. An explicit exemption for special needs trusts should

therefore be included in the amendment so that it cannot be interpreted in a way that subjects such trusts to the surcharge.

The amendment proposed by this bill to Article X, section 1 of the Constitution of the State of Hawaii should be changed to read as follows:

"The legislature may establish, as provided by law, a surcharge on residential investment property and visitor accommodations to fund a public education for all of Hawaii's children, provided, however, that no residential property occupied by an individual with disabilities pursuant to the terms of a special needs trust shall be subject to the surcharge."

Thank you for the opportunity to testify.

Parents for Public Schools of Hawai'i has received comments from families whose children are in public schools across our State about what they love about their schools and their concerns. The message is clear that what they appreciate most is their child's teacher. And yet, our State does not adequately compensate teachers for the hard work that they do. Teachers are education's greatest resource, and families acknowledge that teachers are the key to our children's success. We must be able to recruit and retain teachers who are caring, well prepared, and hold high expectations for all children. Teachers are professionals and should not need to work second jobs and live paycheck to paycheck. If we would like to attract the best teachers and retain them in the profession, they need to be adequately compensated.

Our members would like educators to refocus education on the whole child. Families value music, the arts, dance, languages, and Hawaiian and Polynesian studies. These are subjects that are crucial for the healthy and creative development of children that are currently missing in public education. All children deserve an education that nurtures every facet of their life, one that engages them in interesting curriculum that exposes them to new, exciting and creative arenas.

We believe Hawaii public schools are underfunded and our teachers are underpaid. It is time to invest in our children's education and their future. We support SB686 establishing education surcharges on residential investment property and visitor accommodations to increase funding for public schools with surcharges used for:

1. Recruiting and retaining public school teachers;
2. Lowering public school class sizes;
3. Improving special education staffing and resources; and
4. Offering additional instruction in career and technical education, visual arts, music, theatre, dance, Hawaiian and Polynesian studies, and Hawaiian language.

We also support SB 683 proposing Amendments to the State Constitution to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

**Let the public vote on this issue.**

This is our greatest opportunity to support and promote education of all Hawai'i's keiki in ways that will significantly influence their lives. These bills can positively affect the lives of thousands of children and their families in our State for many generations to come. Thank you for your time and consideration.

Aloha,

REPRESENTATIVE SHARON HAR, Vice-Chair Committee on Education

FR: American Resort Development Association (ARDA) Hawaii  
Blake Oshiro, Acting Executive Director

RE: Senate Bill 686, SD2 Relating To Education - **Oppose**

Senate Bill 683, SD2 Proposing Amendments To Articles VII And X Of The Constitution Of The State Of Hawaii To Authorize The Legislature To Establish A Surcharge On Residential Investment Property And Visitor Accommodations To Increase Funding For Public Education – **Oppose**

Dear Chair Takumi, Vice-Chair Har, and Members of the Committee on Education:

Thank you for the opportunity to testify on the proposed Constitutional Amendment and the statutory counterpart bills. On behalf of the American Resort Development Association (ARDA) Hawaii, the time share association, we respectfully **oppose** these bills.

While the discussion and policy decisions about the proper level of funding for public education is an important one that has been ongoing for several years, the approach taken in these bills seeks to have one sector of the economy bear that burden. This is an unfair targeting of one industry to be taxed. While this does not necessarily mean ARDA-Hawaii supports a large broad-based tax increase, it is much more reasonable for our community to engage in policy discussion on the amount and source of education funding. Moreover, these proposals single-out one area and type of property and property owners/users to have to pay these fees for services and programs which do not have a direct nexus to the surcharge that is sought to be imposed.

Our tourism industry remains the state's top economic driver. Unfortunately, our other important economic driver, the military support and spending, is also tenuous and uncertain due to changes at the federal level in the past few years including sequestration, the elimination of earmarked appropriations or "pork-barrel" projects, and loss of congressional seniority. This compounded by an uncertain and yet to be determined approach by the new federal Administration. As such, additional targeted fees or taxes on our visitor accommodations has the potential to drag down our tourism market momentum and inhibit Hawaii's continued cost-competitiveness as a sought-after tropical destination.

It is for these reasons that ARDA-Hawaii must respectfully oppose these bills. Thank you for the opportunity to testify.

Chair Woodson, Vice Chair Har and Members of the Committee:

My name is Anne Frederick and I am the Executive Director for the Hawai'i Alliance for Progressive Action (HAPA). HAPA is a statewide environmental, social and economic justice organization. HAPA engages over 10,000 local residents annually through our work.

From October through December of 2016 HAPA and several of our partners held a series of input gathering forums across the islands called the People's Congress. Over 800 people attended forums on Kaua'i, O'ahu, Maui and Hawai'i Island to discuss the most pressing issues facing their communities. The chronic underfunding of our public schools was one of the top concerns and priorities raised by residents across the state.

I am writing in strong support of SB 683 SD2 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21<sup>st</sup> Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

To deliver the schools our keiki deserve, please support this bill and related measures. Mahalo.

Respectfully,

Anne Frederick, Executive Director  
Hawai'i Alliance for Progressive Action (H.A.P.A.)

Date: March 15, 2017

Time: 2:02 p.m.

Place: Conference Room 309  
Hawaii State Capitol

**RE: Senate Bill 683 SD2, Relating to Constitutional Amendment & Education Funding**

Chair Takumi and Members of the Committee:

*Rental By Owner Awareness Association (RBOAA) is a Hawaii non-profit corporation founded in 2011, with over 1000 members. Our mission is to provide Hawaii vacation-rental property owners with information to help them comply with the applicable State and County regulations, support the Hawaii economy by offering visitors choice in accommodation, and advocate for the rights of Hawaii vacation property owners. RBOAA members provide transient vacation rentals in full compliance with existing tax and County regulations. RBOAA fully supports enforcement of existing regulations.*

RBOAA must **OPPOSE** the bill.

This Bill proposes Constitutional amendments to authorize a “Surcharge on residential investment property and visitor accommodation to fund quality public education for all of Hawaii’s children.”

This Bill seeks to impose a significant taxation upon “residential investment property” as defined in SB686 as property “for residential use for which the owner does not qualify for a homeowners’ exemption.” This bill is clearly aimed at non-residents who choose to invest in Hawaii property.

The Bill further imposes a surcharge on “visitor accommodations” of \$3 to \$5 per day thus resulting in two additional forms of taxation upon non-resident owners who choose to rent their properties as transient accommodations.

The legislature may not be aware that the counties already assess property tax on properties in resort zones (where transient accommodation rentals are legal) at a rate as much as 380% higher than a resident who can claim a homeowners' exemption for the exact same property. This additional property tax, in many instances, will increase that disparity of homeowner exception to those who cannot claim homeowners' exemption to a level of paying 600% higher for the exact same property. This disparate level is punitive.

The proposed change to the Constitution, and the accompanying bills for implementation, results in additional tiering of taxes upon taxes. But, this tiering of taxes upon taxes applies to only one group, being non-residents and specifically those who rent transient accommodations.

The U.S. Supreme Court has held that the Constitution guarantees equal treatment by government and the legislative process shall not make laws that harm a "politically unpopular group(s)" and that government "cannot justify disparate treatment of that group." During the past six years, every year, there have been Bills introduced for taxation, regulation, and encumbrances on transient vacation rentals. This legislative session started with no less than 17 Bills of specific taxations placed upon transient vacation rentals to fund not only education, but housing, homelessness, lowering of resident's personal income tax, conservation and more. There was even a Bill this session and in 2016 prescribing that failure of a transient accommodation operator to register with the Tax Department would be a Class C Felony - the same as involuntary manslaughter. And yet, failure to obtain a GE license for all other forms of business is a fine of \$500. (HRS 237-9). Compare: a Class C Felony with mandatory fines and prison versus a fine of \$500 for the same offense (conducting business without registering). There has clearly been established a hostility towards non-resident owners.

**It is up to this legislative body to determine how they will enact Bills that uphold the protections afforded under the Constitution of the United States that provides for equal protection even for those groups that are "politically unpopular."** There is ample case law that establishes the courts have consistently upheld these protections for decades.

We urge the legislature to consider the U.S. Constitution's Equal Protection Clause that provides for protection from discriminatory actions, the Privileges and Immunities Clause that protects against State Legislation that bears unequally on nonresidents and exempts nonresidents from any higher taxation or excises than are imposed by a State on its own citizens. It is hard to find the rational basis for taxing only one form of property tax classification to fund education which is a benefit to all children who reside in the State.

Further, the additional surcharge imposed upon transient accommodations is discriminatory against one form of commerce. Hawaii has many different forms of commerce and it is unclear why one form would be responsible for education and not another. The Commerce Clause of the United States Constitution also provides for equal treatment in the laws established by a State. In the Bacchus case, the United State Supreme court held "the Commerce Clause stands as a limitation on the means by which

a State can constitutionally seek to achieve its goals.” The court further held that it is irrelevant to the Commerce Clause, and still in violation of its provisions, when the motivation of the legislature was the desire to aid in state interest rather than to harm out of state interests.

Opening the property tax system up for this type of charge opens the door to add on additional and different charges in the future. This year it is education. Next year it could be health, seniors, homelessness or whales.

We ask you to please reconsider that money needed to fund “education for all of Hawaii’s children” should be funded by all revenue sources rather than selecting only residential investment property and visitor accommodations to fund additional revenue for education.

Thank you for the opportunity to testify on this measure.

Sincerely,

Neal Halstead  
President,  
Rental by Owner Awareness Association

Committee on EDUCATION  
Wednesday, March 15, 2017 2:02 p.m.  
Conference Room 309

SB 683, SD2

### TESTIMONY

Janet Mason, Legislative Committee, League of Women Voters of Hawaii

Chair Takumi, Vice-Chair Har and Committee Members:

The League of Women Voters of Hawaii offers the following comments about SB 683, SD2. The League has long established positions that support action to reach a goal of having an equal educational opportunity for each child and financing procedures to reach this goal. The proposed amendment to the Hawaii State Constitution would allow the Legislature to establish a surcharge on residential investment property and visitor accommodations to fund “public education” for Hawaii’s children.

We think that SB 683, SD2 discriminates against a group of citizens; i.e., those who rent property that is considered residential investment property. Thus, the bill unfairly penalizes renters (who are often disadvantaged economically) because the surcharge on residential investment property will drive up monthly rents; the bill favors owners of residential property who are homeowners.

Why would the Legislature support such an idea? **The days of unfairly taxing a subset of Hawaii’s population decreased during Hawaii’s march to statehood and this part of Hawaii’s history should have completely ended on Hawaii attaining statehood in 1959 [Examples of unfairly taxed populations prior to statehood can be found in Kingdom of Hawaii, 1845-1846; Penal Code of the Hawaiian Islands, 1850, pp. 135-141, Section 19; Laws of His Majesty, Kamehameha III, 1854, p. 18-82; The Civil Code of the Hawaiian Islands, 12859, p. 173, sections 735 & 736; Report of the President of the Board of Education, 1860, p. 23]].**

Ironically, SB 683, SD2 negatively impacts Hawaii’s currently enrolled students: as they finish their K-12 education and hope to further their education or gain employment – or both – the vast majority will be unable to immediately purchase their own home, and will be faced with this surcharge. This is hardly fair to our children.

Thank you for the opportunity to testify on this important measure.

Contact@HEECoalition.org

Committee on Education  
Representative Roy Takumi, Chair  
Representative Sharon Har, Vice Chair

March 15, 2017

Dear Chair Takumi, Vice Chair Har and Members of the Committees,

We support both SB683 SD2 and SB686 SD2 proposing a constitutional amendment to allow the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for education, and the implementation of the surcharge.

Hui for Excellence in Education, or "HE'E," is a statewide coalition of diverse stakeholders committed to working collaboratively to identify opportunities to improve public education in Hawai'i. HE'E seeks to be the nexus for community and parent engagement while serving as a public resource for educational policy.

The Coalition was formed in May 2010 by parents and community members who stood up and said "no" to school furloughs and "yes" to re-establishing education as a public priority. We have been following public education policy at the Board of Education (BOE) and the Hawaii State Legislature consistently since our inception. We are thankful to the legislature for its support of public education; however, we also know that the current funding for education is insufficient to cover the needs of our students, teachers, administrators and schools. An alternative revenue stream dedicated to education is needed.

The BOE recently approved an update of the BOE/DOE Strategic Plan, which puts a focus on the state's achievement gap that has persisted over the years. We agree that help is most needed for our struggling students. We are concerned for specified groups that need particular attention - students with disabilities, students who do not speak the language of instruction, students with socio-economic challenges, and racial and ethnic groups that have historically not succeeded in our schools relative to others. We feel that the education surcharge would benefit these students.

Thank you for the opportunity to testify. Our support of these bills represents a 75% consensus or more of our voting membership.

Sincerely,

Cheri Nakamura  
HE'E Coalition Director

TO: Honorable Chair Woodson and Members of the Education Committee

RE: SB 683 SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.

Support for hearing on March 15

Americans for Democratic Action is an organization founded in the 1950s by leading supporters of the New Deal and led by Patsy Mink in the 1970s. We are devoted to the promotion of progressive public policies.

We support SB 683 as well as SD 686 SD2 as they would provide for a constitutional amendment to allow the establishment of a real estate surcharge. We like that these funds would be used for increasing the education budget.

Hawaii spends about \$8,000 per year on each of its regular ed. public school students. By contrast, top private schools spend more than three times as much - between \$24,000 and \$28,000 per student per year, without having to spend much on special needs students.

Hawaii's public education expenditures are down at the bottom, rivaling Mississippi and Louisiana for example, and we have costs of living that make our expenditures actually worse than those two states.

Wallethub rated Hawaii the worst state for teachers: <https://wallethub.com/edu/best-and-worst-states-for-teachers/7159/> As a result, we have 1,600 vacancies. We had hundreds of positions last year that went without a qualified teacher.

Our real estate taxes are the lowest in the nation. This not only means we are not using them to support education; it also means it encourages real estate speculation and concomitant housing problems.

Although areas other than education need funding , the current small pie forces education to compete with other needs for limited resources. The limits will always be there; this tax would make them less limited.

Finally, if you don't like this tax, we hope you will still vote for the bill as it would put the issue before the voters. Let voters decide.

Thank you for your favorable consideration.

Sincerely,

John Bickel  
President

**The Honorable Justin H. Woodson, Chair**

House Committee on Education  
State Capitol, Room 309  
Honolulu, Hawaii 96813

**RE: S.B. 683, PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION.**

**HEARING: Wednesday, March 15, 2017, at 2:02 p.m.**

Aloha Chair Woodson, Vice Chair Har, and Members of the Committee.

I am Myoung Oh, Director of Government Affairs, testifying on behalf of the Hawai'i Association of REALTORS® ("HAR"), the voice of real estate in Hawai'i, and its 9,200 members. HAR **strongly opposes** S.B. 683, S.D.2 which proposes amendments to the Constitution of the State of Hawaii to establish a surcharge on residential investment property and visitor accommodations.

The bill proposes to create a revenue stream for the Department of Education based on assessing residential units used for rentals. The bill also proposes to assess visitors on a per person basis but does not state an amount necessary to address the current needs of the DOE, and thereby creates a revenue source for funding existing and future programs.

While we continue to recognize the importance of education, we are concerned that the responsibility in funding this effort will be shifted from the overall general tax paying public to those that own residential investment property and visitors to our State. **More importantly, there is no clear nexus between those that own additional residential property and Hawaii's visitors to education.**

According to the Department of Business, Economic Development and Tourism, Hawai'i had a homeownership rate of about 59% in 2015, which implies 41% are renters. Should an additional surcharge be placed on rental investment property, these additional costs may be passed on to renters and visitors. With rising housing costs, more homeowners today are purchasing an investment property so that their children have a place to call home or to plan

Honolulu, HI 96817

---

for retirement. With Hawaii's high cost of living and housing, this would further burden our working individuals and families.

Educational needs must be weighed against the priorities of the State as a whole through the budgeting process and **HAR does not support earmarking a new property tax surcharge on residential investment property and visitor accommodations specifically for an unrelated purposes.**

Mahalo for the opportunity to testify in opposition.

March 15, 2017

Re: **SB683 SD2 – PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE STATE CONSTITUTION TO AUTHORIZE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE SUPPORT FOR PUBLIC EDUCATION– Support**

**SB686 SD2 – RELATING TO EDUCATION FUNDING – Support**

**Conference Room 309 – Hawaii State Capitol – March 15, 2017, 2:02 P.M.**

On behalf of the Hawaii Public Charter School Network (HPCSN), please find our testimony in support of SB683 SD2, Relating to Education Funding, and SB686 SD2, Proposing Amendments to Articles VII and X of the Constitution of the State of Hawaii to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

In tandem, these bills establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education. We support public education in both charter schools and traditional schools as one of the highest purposes of the state.

**Here are top 10 reasons why we are calling for this investment:**

10. An educated population is the cornerstone of democracy. This nation's well-being depends on the decisions of its educated, informed citizens.

9. Education reduces costs to taxpayers. For every dollar spent to keep a child in school, the future costs of welfare, prison, and intervention services are reduced. It can cost less to educate a child now than to support a teenage parent or a repeat offender in the future. Education monies help to secure the future of all citizens.

8. Public schools are the only schools that must meet the needs of all students. They do not turn children or families away. Public schools serve children with physical, emotional, and mental disabilities, those who are extremely gifted and those who are learning challenged, right along with children without special needs.

7. Public schools foster interactions and understanding among people of different ethnic, religious, and socioeconomic backgrounds.

6. "Education is the best provision for old age"-- Aristotle. The future support of our aging population depends on strong public schools. In 1954, there were 17 workers to pay the Social Security cost for each retiree. By 1995, there will be only three for each retiree. It is likely that the productivity of these three workers per retiree will depend on the strength of our public school systems.

5. More than 95 percent of our future jobs will require at least a high school education. There is no question about the need for an educated work force.

4. The nation pays a high price for poorly educated workers. When retraining and remediation are needed to prepare a worker to do even simple tasks, the cost is paid by both employers and consumers. This process raises the price of American products and makes it more difficult for this nation to compete in the world marketplace.

3. The cost of dropouts affects us all. This nation loses more than \$240 billion per year in earnings and taxes that dropouts would have generated over their lifetimes. Well-supported public schools can engage all students in learning and graduate productive and competent citizens.

2. Children are our nation's future. Their development affects all of us. Good education is not cheap, but ignorance costs far more.

**And the Number One reason to support public education. . .**

1. Public education is a worthy investment for public funds. We can invest now, or we can pay later.

HPCSN works to support Hawaii's public charter schools and to be a voice for children and families that seek choice in an independent public school setting.

HPCSN works to support public charter schools in Hawaii and to be a voice for children and families that seek choice in an independent public school setting. We appreciate your favorable consideration of these bills.

**Testimony to the House Committee on Education  
Wednesday, March 15, 2017 at 2:02 P.M.  
Conference Room 309, State Capitol**

**RE: SENATE BILL 683 SD2 PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION**  
**AND**  
**SENATE BILL 686 SD2 RELATING TO EDUCATION FUNDING**

Chair Takumi, Vice Chair Har, and Members of the Committee:

The Chamber of Commerce Hawaii ("The Chamber") **strongly opposes** SB 683 SD2, which proposes amendments to the Constitution of the State of Hawaii to advance the State's goal of providing a public education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

The Chamber also **strongly opposes** SB 686 SD2, which establishes an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The Chamber is Hawaii's leading statewide business advocacy organization, representing about 1,600+ businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

The package of bills proposes to implement a constitutional amendment permitting the legislature to establish a surcharge on visitor accommodations and residential investment properties to fund the department of education, and then a statutory mechanism to implement the program. The statutory bill proposes two new taxes, one on residential investment property and one to assess visitor stay on a per day basis.

While we strongly support the efforts to provide quality public education in our state, we are concerned that there is no clear amount designated as a sufficient amount of funds for education. We are also concerned with the approach to create new assessments, or taxes on activities with no nexus to the end user or, worse, taxes one group of residents and not others. The amendments made to the bill are an improvement but we still oppose the mechanism.

# Chamber of Commerce HAWAII

*The Voice of Business*

Should this bill pass, it could provide for houses of lower value to be taxed thereby affecting more local residential renters.

In the area of enforcement, we are not sure the Superintendent is the best lead enforcement person even with the help of the state and county director of finance. In addition, the resources by the state and county to administer and enforce this new law are not addressed in the bill. Furthermore, the new administrative burden by homeowners may again negatively affect the marketplace.

For the tax on tourism, there is already a 13.75% tax rate on transient accommodations. We think the per-day tax could hurt tourism and damage further investment by transient accommodation owners into Hawaii's properties. It will also place an additional and complicated burden on transient accommodation operators as they will have to track and report on two different types of accommodation taxes. Transient accommodation companies already provide huge tax revenues to the state in TAT, GE and the income taxes for the thousands of jobs that they provide in our state.

We also have other issues with the bill. It does not guarantee (nor can any language) that the additional tax revenues will be used only for the department of education. As you know, the **Legislature of today cannot bind future Legislatures**, especially in how they appropriate funds.

The bill does not state what the projected \$500 million in additional taxes will accomplish. Lastly, we have concerns on the larger issue of raising taxes to fund a specific department and an employee class of salaries. As we mentioned there are many important programs that the state funds, but doing this could set a dangerous precedent for other programs with constituencies to come in for further tax increases.

We ask these bills be deferred. We appreciate the opportunity to provide our input on this important legislation.

**LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL**  
**INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO**  
**INCREASE FUNDING FOR PUBLIC EDUCATION**

Chair Woodson, Vice-Chair Har, and members of the committee:

My name is Gladys Quinto Marrone, CEO of the Building Industry Association of Hawaii (BIA-Hawaii). Chartered in 1955, the Building Industry Association of Hawaii is a professional trade organization affiliated with the National Association of Home Builders, representing the building industry and its associates. BIA-Hawaii takes a leadership role in unifying and promoting the interests of the industry to enhance the quality of life for the people of Hawaii.

BIA-HAWAII strongly opposes SB 683, SD 1, which proposes to amend the Constitution of the State of Hawaii to advance the State's goal of providing a quality education for the children of Hawaii by authorizing the legislature to establish, as provided by law, a surcharge on residential investment property and visitor accommodations.

BIA-HAWAII also strongly opposes SB 686, SD 1, which would establish an education surcharge on residential investment properties and visitor accommodations for the purpose of funding public education.

The package of bills proposes to implement a constitutional amendment permitting the legislature to establish a surcharge on visitor accommodations and residential investment properties to fund the department of education, and then a statutory mechanism to implement the program. The statutory bill proposes two new taxes, one on residential investment property and one to assess visitor stay on a per day basis.

While we strongly support the efforts to provide quality public education in our state, we are concerned that there is no clear amount designated as a sufficient amount of funds for education. We are also concerned with the approach to create new assessments, or taxes on activities with no nexus to the end user or, worse, taxes one group of residents and not others. On taxing residential investment property, the resident renter will likely pay the tax. Hawaii has approximately a 55%+ homeowner rate. That would suggest that about 40-45% of all residents living in the state are renting. This would create an unfair tax burden on renters and increase the cost of housing for all residents, which this bill in part tries to address for teachers. As far as we can tell, resident homeowners would not be affected by this tax. This appears to be an unfair targeted tax and could create a further economic divide between homeowners and renters. A renter in a \$400,000 valued residential property could be affected by this tax to the amount of an additional \$1,400 per year.

property could be affected by this tax to the amount of an additional \$1,400 per year. For someone renting the average home value or \$760,000 the tax could be over \$4,100 each year. Even though there are exemptions for certain types of residential units, it could skew the marketplace and adversely affect the rental market. It is also unclear on a practical level how these exemptions will be monitored and enforced. We are not sure the Superintendent is the best lead enforcement person even with the help of the state and county director of finance. In addition, the resources by the state and county to administer and enforce this new law are not addressed in the bill. Furthermore, the new administrative burden by homeowners may again negatively affect the marketplace.

For the tax on tourism, there is already a 13.75% tax rate on transient accommodations. We think the per-day tax could hurt tourism and damage further investment by transient accommodation owners into Hawaii's properties. It will also place an additional and complicated burden on transient accommodation operators as they will have to track and report on two different types of accommodation taxes. Transient accommodation companies already provide huge tax revenues to the state in TAT, GE and the income taxes for the thousands of jobs that they provide in our state.

We ask these bills be deferred. We appreciate the opportunity to provide our input on this important legislation.

RE: SB683 - PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE CONSTITUTION OF THE STATE OF HAWAII TO AUTHORIZE THE LEGISLATURE TO ESTABLISH A SURCHARGE ON RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMMODATIONS TO INCREASE FUNDING FOR PUBLIC EDUCATION

***Comments Only***

Dear Chair and Committee Members:

The Grassroot Institute of Hawaii would like to offer its comments on SB683 SD2, which would propose an amendment to the state constitution for the purpose of levying a tax specifically intended to fund public education.

The problem of how to improve Hawaii's schools is one that is certainly worthy of public discussion. And the extent to which increased funding might help is one element of that debate. But to forestall that political question by enshrining a direct funding source directly in the Hawaii Constitution creates a troubling precedent.

Nowhere is it suggested that education funding in the state is at such a crisis that extraordinary measures are called for. The Department of Education will receive \$1.6 billion from the General Fund this year, giving it one of the largest operating budgets of all state agencies. According to the U.S. Census, per-pupil spending in Hawaii is approximately \$12,458—well above the national average of \$11,009.<sup>1</sup> In short, there is no reason why the legislature should reach outside of its taxing power in order to create a special funding source within the State Constitution.

---

<sup>1</sup> U.S. Census Bureau. Annual Survey of School System Finances 2014. Available at <http://www.census.gov/govs/school/>

To do so not only limits the flexibility of the legislature in balancing the spending needs and budgets of state agencies, but encourages other agencies to seek similar treatment. For agencies with substantial union membership (including the Department of Education), the repercussions on collective bargaining may be severe.

Moreover, there is also the question of how this proposed tax will affect the state in general. The counties have already objected to the infringement on their taxing powers—taxes used to fund police and fire departments—for the purpose of creating a special fund for education. Others have pointed out that the tax will have an adverse effect on the price and availability of rental housing, could threaten investment, and may even decrease our competitiveness as a tourist destination. Thus, in one stroke, the legislature could create a budget crisis for the counties, worsen the housing situation, and harm one of the state’s most important sources of revenue.

While it may be tempting to pass the question of a tax increase to the voters via a Constitutional amendment, this is not a sustainable way to govern a state. There are better ways to help teachers than through a tax hike and better ways to raise taxes than through the Constitution.

Thank you for your consideration of our comments.

Sincerely,  
Joe Kent  
Vice President of Research  
Grassroot Institute of Hawaii

**HAWAI'I LODGING & TOURISM**  
**A S S O C I A T I O N**

Testimony of

Mufi Hannemann  
President & CEO

Hawai'i Lodging & Tourism Association

House Committee on Education

Senate Bill 683, SD2: Proposing Amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education.

Chair Woodson, Vice Chair Har and members of the Committee, mahalo for the opportunity to offer this testimony on behalf of the more than 700 members of the Hawai'i Lodging & Tourism Association.

HLTA opposes Senate Bill 683 SD2, which proposes amendments to articles VII and X of the Constitution of the State of Hawai'i to authorize the legislature to establish a surcharge on residential investment property and visitor accommodations to increase funding for public education. As much as we support improving upon our state's education system we must take into consideration the tax burden our visitor industry already bears.

Our respectful opposition is based on the following reasons:

**Higher Taxes/Fees Hurt our Ability to Compete.** In recent years, the state permanently raised the Transient Accommodations Tax, to the point where guests now pay a TAT of 9.25 percent. Coupled with the General Excise Tax, guests pay a 13.41 percent tax on the Neighbor Islands and 13.96 percent on O'ahu. Hawai'i has reached the point where high business costs and tax rates make it increasingly difficult for business to be profitable and competitive, both domestically and internationally.

**Tourism Already Is the State's Revenue Producer.** In its most recent report, the Hawai'i Tourism Authority stated, "Tourism is the largest single source of private capital for Hawai'i's economy." The HTA went on to note that tourism accounted for 190,000 jobs, that visitor spending last year totaled \$15.6 billion, a new high, and that the state's tax take was \$1.82 billion. Of that sum, TAT revenues alone accounted for nearly \$447 million for the state's coffers last fiscal year.

But the hospitality industry is not an infinitely prosperous, infinitely taxable entity. Lower-priced destinations and long-haul airline flights make travel to other locales easier and cheaper, and Hawai'i must remain competitive in our pricing in order to protect our value and appeal in the eyes of travelers.

**HAWAI'I LODGING & TOURISM**  
**A S S O C I A T I O N**

**TAT Revenue to the General Fund.** More than half of Transient Accommodations Tax revenue now goes to the General Fund. While the TAT was established to promote and market the visitor industry, it has since become a major source of revenue for purposes other than originally intended. We would surmise that public education may be already receiving a share of TAT revenue through its General Fund budget allocations.

**Uncollected Revenue.** The state government is not collecting Transient Accommodation and General Excise taxes on transient vacation rentals. The Hawai'i Lodging & Tourism Association has gone on record as supporting legislation that would ensure a level playing field for all visitor accommodations, from the traditional hospitality businesses to the alternative accommodations offered online. There are an estimated 25,000 alternative accommodations in the Hawaiian Islands competing with hotels, resorts, timeshares, and bed-and-breakfasts, except that the majority of them are most likely avoiding our 9.25 percent Transient Accommodations and General Excise taxes. Rather than outlaw these transient vacation units, or raise the TAT, the state government should collect the millions of dollars in taxes now being avoided.

For these reasons, the Hawai'i Lodging & Tourism Association continues to oppose proposals to raise taxes and leverage extra fees on the visitor industry.

Mahalo for the opportunity to testify.

# MAUI

CHAMBER OF COMMERCE  
VOICE OF BUSINESS

**HEARING BEFORE THE HOUSE COMMITTEE ON EDUCATION  
HAWAII STATE CAPITOL, HOUSE CONFERENCE ROOM 309  
WEDNESDAY, MARCH 15, 2017 AT 2:02 P.M.**

To The Honorable Justin H. Woodson, Chair;  
The Honorable Sharon E. Har, Vice Chair; and  
Members of the Committee Education

**TESTIMONY IN OPPOSITION OF SB683 TO ESTABLISH A SURCHARGE ON  
RESIDENTIAL INVESTMENT PROPERTY AND VISITOR ACCOMODATIONS  
TO INCREASE FUNDING FOR PUBLIC EDUCATION**

Aloha, my name is Pamela Tumpap and I am the President of the Maui Chamber of Commerce, serving in this role for over a decade. I am writing share our opposition to SB683.

While we strongly support public education, we don't believe adding a tax to residential investment property and visitor accommodations is the answer. One of our concerns with the tax on residential investment property is that it would likely be paid by resident renters. There is already a limited quantity of rental properties and rents are extremely high here. We fear that many local renters would not be able to afford the rent increase that could be caused by this additional tax and recognize that we have to balance solutions for all residents and recognize that renters make up over one-third of all Hawaii residents.

In regards to the tax on visitor accommodations, we believe there should not be another tax in addition to the transient accommodations tax that is already in place and considerable. This could greatly harm our visitor industry that has to compete with locations around the world and could drive Hawaii visitors to other markets. The visitor industry is not only very important to our state economy, it is critical to Maui's economy, especially with the recent closing of HC&S.

We appreciate the opportunity to testify on this matter and therefore ask that this bill be deferred.

Mahalo for your consideration of our testimony and we hope you will support a deferral.

Sincerely,

*Pamela Tumpap*

## Education Matters: Invest in Learning for Economic Prosperity April 29, 2015

**Federal investments in education are crucial so that students are prepared for success in a 21st Century global society and workforce.**

Investing in education is crucial to ensuring the future health of our economy and country's global competitiveness. Many students are not prepared for success in our 21st Century society and to fill current and future jobs. A robust federal investment in education is necessary to equip schools with the resources – personnel, facilities, technology – to position students to acquire the skills and knowledge needed for college and career success.

### Invest in education to:

- Prepare our high school and college graduates for the jobs of today and tomorrow.
  - By 2018, 63% of all jobs in the United States will require some sort of post-secondary education, yet nearly 30% of U.S. students do not finish high school, and only 42% of young people who enroll in college complete a bachelor's degree by the age of 26, and just 12% complete an associate's degree.<sup>1</sup>
  - The U.S. economy's largest and fastest growing sectors – business services, finance, healthcare, and education – are service sectors that have been clamoring for more educated workers and powering the dramatic upskilling of America's occupational structure.<sup>2</sup>
  - American students rank well behind those in economically competitive countries on international tests: 17th in reading, 20th in science, and 27th in mathematics among the 34 Organisation for Economic Co-Operation and Development (OECD).<sup>3</sup>
  - The transition from an industrial to a post-industrial economy has resulted in a shift from an economy rooted in high school-level skills to an economy anchored in postsecondary education and training.<sup>4</sup>
- Ensure the future health of our economy, including productivity, earnings, and tax revenues.
  - Nearly nine out of 10 graduate degree-holders work as managers or professionals, while seven out of 10 high school dropouts work in low-skill occupations.
  - The college wage premium – the difference between the average wages of college- and high school-educated workers – has spiked since 1973, rising from 37 percent to 82 percent by 2007.<sup>5</sup>
  - The earnings of four-year, college-educated workers remain nearly twice those of high school-educated workers.<sup>6</sup>
  - If U.S. students matched OECD average PISA scores, the GDP would increase by \$678 billion by 2050 and cumulative GDP growth would be \$2.5 trillion.<sup>7</sup>

**Hawaii State Capitol, Room 309, March 15, 2017, 2:02 PM**

---

**On behalf of Hawaii Children's Action Network (HCAN), we are writing to support SB 683 SD 2 – Relating to Proposing Amendments To Articles VII And X Of The Constitution Of The State Of Hawaii To Authorize The Legislature To Establish A Surcharge On Residential Investment Property And Visitor Accommodations To Increase Funding For Public Education.**

As one of the lowest rated school districts for spending per student, Hawaii needs to find new ways to increase funding for education. This bill provides an option to increase funding without increasing the tax burden on Hawaii residents. This additional funding for education can lead to better results in test scores, school completion, college attendance, and job opportunities for students.

**For these reasons, HCAN respectfully requests that the committee pass this bill.**

HCAN is committed to building a unified voice advocating for Hawaii's children by improving their safety, health, and education. Last fall, HCAN convened input in person and online from more than 50 organizations and individuals that came forward to support or express interest for a number of issues affecting children and families in our state that resulted in the compilation of 2017 Hawaii Children's Policy Agenda, which can be accessed at <http://www.hawaii-can.org/2017policyagenda>.

HOUSE OF REPRESENTATIVES  
THE TWENTY-NINTH LEGISLATURE  
REGULAR SESSION OF 2017

COMMITTEE ON EDUCATION  
Representative Roy Takumi, Chair

3/15/2017  
Rm. 309, 2:02 PM

SB 683, SD 2  
PROPOSING AMENDMENTS TO ARTICLES VII AND X OF THE  
CONSTITUTION OF THE STATE OF HAWAII

Chair Takumi, and Members of this Committees, my name is Max Sword, here on behalf of Outrigger Hotels Hawaii, in support of SB 683, SD 2.

Outrigger Hotels through the years have supported initiatives to further the quality of education in the State of Hawaii. While we support the purpose of this bill to fund the chronic underfunding of the public schools, we do not support the applying of a surcharge to the Transient Accommodations Tax (TAT) to do so.

The State already receives \$300+ million dollars from the TAT, of which only \$80+M goes back to the industry for marketing and promotion. That leaves 200+M for other purposes, which the schools can draw from.

Hawaii is in the top echelons of the TAT list, as it relates to leisure travel. While cities like New York, Chicago & San Francisco have higher rates than we do, they are business destinations, where people have to go and business cover the cost of hotel stays. As for Hawaii, we are a discretionary destination, where people do not have to come here and travelers have to pay out of their own pockets.

While one might think that 14, 15 or even 16 percent may not seem like a large increase, we must not forget that we have a very high room rate, which translates into a large number for the TAT.

The question then becomes where do we draw the line on increases in the TAT before it tips the scale to the detriment of the industry?

Mahalo for allowing me to testify and urge the deferral of this bill.

**Sent:** Tuesday, March 14, 2017 9:16 AM  
**To:** EDNtestimony  
**Subject:** SB 683 and SB 686

**Importance:** High

Chair Woodson and Members of the Committee:

My name is Kyli Lyn Arford. I am a teacher from Hawai'i district on Hawai'i Island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because, as a science teacher I realize the value that 21st century inquiry and critical thinking skills brings to the world. As an adopter of Next Generation Science Standards, Hawai'i needs to move in the direction of charging forward with highly qualified, well-paid (able to pay for basic living) teachers who are motivated to see a change in our communities. The decreasing pay, lack of optimal and affordable benefits, and the lack of resources such as computers, scientific equipment, and transportation to and from school for our students are driving teachers away and pushing our students further into the marginalized category in our nation. I have to work summer jobs, on the weekends, and sometimes after school just to pay for my family to live here and I have 2 young children who also need me at home. With cost of living taken into account, Hawai'i is ranked in the lower half of teacher pay in the nation and our results for students are one of the lowest. An obvious correlation to quality teachers and student success does exist, yet teachers are not esteemed here in Hawai'i and local, qualified teachers like myself are still struggling to get by.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Kyli Lyn Arford, District of Hawai'i, Hawai'i Island

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Woodson and Members of the Committee:

My name is Merlin Paul Waite. I am a teacher from the Windward District on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the students are suffering as needed resources are lacking in the classroom. Many new teachers are leaving and many others are choosing to get out of the DOE. As they leave we are stuck with substitutes rather than highly qualified teachers. Everything is having a negative impact on our keiki. Please secure the future by helping today.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Merlin Paul Waite, Windward District Oahu

**From:** Joanne Thompson <jomama007@gmail.com>  
**Sent:** Tuesday, March 14, 2017 9:09 AM  
**To:** EDNtestimony  
**Subject:** SB 683 & 686

Chair Woodson and Members of the Committee:

If you look at the simple math for someone like me who has been teaching in Hawaii for 25 years, you will easily see that it would be cheaper for me to retire if we don't get a substantial pay raise.

- 1) If I retire now, I will no longer have to pay the ridiculous health care premiums. I will get free medical. (that would offset the 20% hit I would take for retiring early).
- 2) Furthermore, if we get any "Lump sum bonus", it will not count towards our retirement. Therefore, it will be taxed at a very high rate in a "Lump sum". There is no incentive here.
- 3) If I retire early, I will be in a different tax bracket, and once again, it will be a wash as to what I am currently getting paid and how much I pay in my taxes.

So, quite frankly, we need better schools for our teachers! We need better pay. I will pencil all of this out and prove this, and encourage others to leave the profession if we continued to be paid the worst in the nation.

There is already a crises in the teacher shortage. To go to the mainland and try and lure teachers here is not only a bad financial move, but it has proven time and time again, it doesn't work. They leave within 2 to 5 years because they can't afford to live here.

The State of Hawaii will soon be in dire straights with very few certified teachers.

My name is Joanne. I am a teacher from Kapaa on Kauai. I am submitting testimony in **support of SB 683 and SB 686** to increase a source to give us the pay we deserve.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because if you don't start paying teachers more, they will leave the profession!

To deliver the schools our teachers deserve, please support these bills. We need your help.

**From:** hughey2000@aol.com  
**Sent:** Tuesday, March 14, 2017 8:52 AM  
**To:** EDNtestimony  
**Subject:** SB 683 & 686 Relating to Education

### **Aloha Chair Woodson and esteemed members of the education committee:**

Wednesday, March 15, 2017

My name is Justin Hughey. I am a second grade Special Education Teacher at King Kamehameha III Elementary on Maui.

### **I am testifying in support of Senate Bill 683 & 686. These bills will resolve our public education funding crisis.**

On Oahu students from wealthy families have quality private schools to attend, while our public schools are vastly underfunded, this inequity is institutional racism. The proposal for levying a surcharge on residential investment properties and visitor accommodations can raise over \$500 million each year for education without placing an unfair financial burden on local residents. Funding priorities include teacher recruitment and retention, lower class sizes, improve special education staffing and resources, and expanding career and technical education. This funding would be dispersed by the Board of Education.

Teachers are still paid the worst salary in the country when factored in the cost of living. Since teachers are paid slave wages, I rang up \$5,000 on his credit card within the first six months of teaching. This was on top of the \$50,000 in debt from college loans I had to obtain in order to become a teacher. After six months I got a second job working at a restaurant which subjected me to 16-19 hour working days. I would leave school after the bell rang to study the regional differences between the restaurant's wines and how to pair them with every dish on the menu. I would leave around 11 p.m. and arrive home at midnight, only to wake up sore and tired at 6 a.m. to get ready to do it all over again. It took 11 years of this and lifting a box at work, which gave me a bulging disc and forced me to take time out of school since September, a very painful six months.

A story in the New York Times, [It Turns Out Spending More Probably Does Improve Education](#), found a consistent pattern that in the long run, over comparable time frames, states that send additional money to their lowest-income school districts see more academic improvement in those districts than states that don't.

The editorial also quoted another study which looked at the same question through a different lens. They referenced a study which examined longer-term outcomes, like how long students stayed in school and how much they earned as adults. These researchers also saw gains with more money spent. The story stated, "They examined outcomes for about 15,000 people, born between 1955 and 1985, and found that for poor children, a 10 percent increase in per-pupil spending each year of elementary and secondary school was associated with wages that were almost 10 percent higher, a drop in the incidence of adult poverty and roughly six additional months of schooling."

In 2005 the Department of Education conducted an [Adequacy Funding Study](#), which found that the Department of Education needs to increase its funding by \$278 million to improve adequate education to Hawaii students. Since 2005 the DOE's budget has remained stagnant. Hawaii provides the worst per pupil spending when compared to school districts with the same cost of living. Its truly common sense, you get what you pay for. How are our students comparing nationally? Our National Assessment of Educational Progress (NAEP) scores in 2015 were:

- 4th Grade Reading 46/52
- 8th Grade Reading 48/52
- 4th grade Math 35/52
- 8th Grade Math 36/52
- 4th Grade Science(2009) 44/47
- 8th Grade Science (2011) 48/52
- 8th Grade Writing (2007) 43/46
- ACT scores 51/51

President Franklin D Rosevelt once said, "Necessitous men are not free men." Education is a human right. When our keiki are not given a quality education they don't;

- Develop a joy of learning
- Reason analytically and critically
- Conceptualize and solve problems
- Have the capacity to endure and persevere
- Learn how to cooperate and collaborate effectively
- Know how to resolve conflicts with others
- Become critical and independent thinkers
- Obtain job opportunities and pay taxes
- Participate in the political process

Teachers teach all other professions. When the state doesn't provide adequate or comparative educational funding for our public schools, students may miss out on a quality education. The economy suffers as well because we aren't teaching generations appropriately in order for them to join the work force. Please pass this bill so the people can vote on this solution to our public education funding crisis.

Respectfully,  
Justin Hughey

Carrie Sato, EdD

State Office Teacher

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

Chair Woodson and Members of the Committee:

Dear Chairperson and members of the Committee, thank you for the opportunity to provide testimony in favor of SB 683 and SB 686 to increase funding for public schools. My name is Carrie Sato. I am a state office teacher from the Office of the Superintendent, Communications and Community Affairs on the island of Oahu.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools.

Although every past state governor, legislatures, and the Board of Education have been in favor of improving education, there has been little change. The Hawaii Department of Education attempts to support 290 schools (256 public, 34 charter) and there simply isn't enough money in the general fund to maintain facilities and hire personnel at a satisfactory level. While the DOE has employed a variety of strategies such as community partnerships, a consistent, equitable, and comprehensive educational policy can not be maintained by parceling out insufficient funds.

Presently, there is a lack of qualified teachers in our schools as well as a lack of qualified substitutes. Besides teachers, as a former department chairperson at a high school, I know that quality programs have to be negotiated due to lack of funding; equipment and resource materials have to be budgeted over a period of 2-3 years (and longer) to provide for all students; and teachers have antiquated

computers and programs with which to respond to grading requirements and communications across the network.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Carrie Sato, EdD

State Office Teacher

Superintendent's Office, Oahu

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 683 and SB 686 RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Jamie Stidger. I have been a teacher at Castle High on Oahu since 2001. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

This bill is so important. From my years of experience, one of the biggest challenges facing our schools is recruiting and, more importantly, retaining, the best and brightest teachers. We are the single most important factor in the classroom. When teachers must buy their own fans to keep the kids cool, our own supplies, so the kids have them, and many of our children continue to attend schools that are run down, and have not enough money for each child to have their own textbook, then we are failing our keiki. And then teachers leave by the hundreds.

Please, please support this bill, so that we have sustainable funding to provide the Schools Our Keiki Deserve.

Sincerely,

Jamie Stidger  
Kaaawa, HI

Aloha Chair Woodson and Members of the Committee:

My name is Stephen Majzun, I am a teacher from Honolulu District on O'ahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

I have the good fortune of working in a school where administration does a great job managing finances and we have great resources for our students. Where we fall short (no fault at the school level) is when it comes to teacher pay. Even with a master's degree in education, I have to work several part time jobs throughout the year to make ends meet. This doesn't even address the hopes of one day purchasing a condo instead of renting, helping my children to pay for college, or planning for a retirement that doesn't require me to move to the mainland. And I'm not alone. Several teachers that I know would not be able to survive here in Hawai'i without working second and third jobs. Please do your best to help get us the funding to keep these great teachers in the classroom.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo.

Stephen Majzun, Honolulu District, O'ahu

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, [MARCH 15, 2017](#)

[2 p.m.](#)

Chair Woodson and Members of the Committee:

My name is Megan Landes. I am a teacher from Princess Nahienaena Elem. on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for [tomorrow](#)'s generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because education should not be a constant battle to have enough money to teach our students. In order to instruct my students they deserve the best circumstances possible. They deserve well built, clean, comfortable, modern classrooms. They shouldn't have to be thinking about how hot they are or wiping the red dirt off their assignments. They should be provided with the best learning environment possible. They should be free to think without distractions. The students should have access to technology and programs that help them reach their potential. I should not be digging in my pocket to provide the necessities for my students to learn. My husband who is also a teacher should not have to work at another job to provide for our family. He should be able to concentrate on only his teaching career. Our students deserve better. It is time to put our money in our future! Our students should be top priority!

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo,

Megan Landes, Maui, Hawaii

**Subject:** House Committee on Education - SB 683 and SB 686 RELATING TO EDUCATION

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 683 and SB 686 RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2:02PM

Chair Woodson and Members of the Committees:

I am Logan Okita, a National Board Certified teacher at Nimitz Elementary School on Oahu. I have been a teacher for 11 years. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21<sup>st</sup> Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because many of our resources are outdated and need to be split amongst many teachers and students. At my school, we have been without the use of our playground for almost two school years. We also are working on moving to one-to-one technology, but we can't share it evenly because of the lack of funding. We expect our students to become contributing citizens in a technology driven society without the tools they need to be successful. These students also deserve a well-rounded education, however we are not able to fund full-time positions for music and art education. I have taken jobs outside of my teaching day to help supplement my income. Several of my colleagues have seriously discussed the possibility of leaving the state because they are unable to afford to live and teach here. We need to make it possible for teachers in Hawaii to live and teach here without having to take second jobs.

To deliver the schools our keiki deserve, please support these bills. Mahalo.

Thank you for your time,  
Logan Okita, MEd, NBCT  
Nimitz Elementary School  
Oahu

**To:** EDNtestimony  
**Subject:** Testimony Re: SB 683 and SB 686 Relating to Education

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Woodson and Members of the Committee:

My name is Mike Landes. I am a teacher from Lahainaluna High School on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we shouldn't have to just "make do". This is our children's future we're talking about. Our schools are woefully underfunded, in a state of disrepair, with inadequate resources. How can we give them the education they deserve, how can we prepare them for their future aspirations, how can we truly say we value public education, if we aren't willing to properly fund our schools? These bills will provide a funding mechanism to create a quality public education system in Hawaii. And, by helping to limit property speculation, they will help to control the rising cost of living that negatively impacts so many working families in our state, including the families of most of our students.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Mike Landes, Kihei, Maui

**Subject:** SB 683 and SB 686

Chair Woodson and Members of the Committee:

My name is Troy Freitas I am a teacher from Radford High in Honolulu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because I have been teaching for 17 years and love my job, but need to make more money. Other opportunities or options often challenge me in leaving teaching for something that pays more. I have a Mechanical Engineering degree and a Professional Diploma in Secondary Education and have thought of ways to make more. Getting paid to live comfortably and retire respectfully is something I want to have regarding the teaching profession that I have put so much in too. Help me and many other who feel the same way.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Woodson and Members of the Committee:

My name is Katrina Valdez. I am a teacher from the Windward District on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because students deserve teachers who can spend the extra hours needed to: meet with students after school to provide additional help; chaperone events as a club or class adviser; curriculum map; lesson plan; and grade papers and assessments. When I was married and part of a dual income household, I was able to work these extra hours easily on a voluntary basis. Now that I am going through a divorce and am facing the reality of being a single parent to two young children, I no longer have those extra hours to volunteer my time. Any spare time I have, I need to make extra money. I have already taken on teaching an after school class. However, these limited hours are not enough to pay my bills. So, I will be forced to find a part-time job that I can work when my kids are with their dad. This means it is my students who will not have a fully engaged teacher as I once was simply due to the economic reality of not getting paid enough to put in those extra hours. It is unfortunate that many teachers are in the same situation I am, which is why we can't seem to keep them for very long, or the quality of education starts to degrade because we are all feeling stretched too thin.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Katrina Valdez, Windward District, Oahu

**From:** Tammy Threet <tthreet@gmail.com>  
**Sent:** Monday, March 13, 2017 10:03 PM  
**To:** EDNtestimony  
**Subject:** Testimony SB 683 & SB 686

Aloha Chair Woodson and Members of the Committee:

My name is Tammy and I am a teacher at King Kekaulike High School on the island of Maui. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools. I have been a public school teacher for the past 19 years; 5 of those years have been on the island of Maui.

Our children deserve better school funding. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a brighter future for all of our keiki.

Supporting these proposals will further propel Hawai'i's students into the 21st Century. A vote for these measures is a vote:

- 1) for lower class sizes that allow teachers to further connect with their students
- 2) for whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs
- 3) for professional pay that reflects the value of our hardworking teachers

We need additional funding for our public schools, because many teachers like me are planning to leave the profession for higher paying jobs to keep up with Hawai'i's cost of living. In order to attract the best teachers who stay, we need to be competitive in our teacher pay.

Teaching is my life's passion but having left a mainland position to teach in Hawaii has been a financial burden. I have been a teacher on Maui since 2012 and since then I have been required to maintain a second job doing office work (and even mystery shopping) just to pay rent, student loans, and my other bills. Unfortunately, I live check to check as a Hawai'i teacher. It is exhausting to go to my second job after school then go to teach the next morning.

There are many others just like me. Did you know there are even teaches who qualify for food assistance under SNAP? Did you know that the DOE is not comparable to mainland teacher pay? (I took a \$34,490 pay cut to teach in Hawai'i). When teachers must take second jobs to make ends meet, it is our students who suffer. It's very disturbing to know that those who take care of Hawai'i's keiki aren't necessarily taken care of by the state with regard to pay. Our profession doesn't feel well respected.

In summary, to deliver the schools our keiki deserve, I humbly ask that you support these bills. We need your help. And if you would like to meet with me personally to discuss these matters, I would love the opportunity.

Most Sincerely,  
Tammy

**Subject:** RE: SB 683 and SB 686 RELATING TO EDUCATION

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

Chair Woodson and Members of the Committee:

My name is Theresa Haberstroh. I am a teacher from Haiku Elementary School on Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts, physical education, and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because teaching should not be a philanthropic, second income job. Teachers should be compensated fairly for the amazingly difficult work they do. Fortunately, I am able to teach because of my family's dual income status. However, if I were a single person trying to make it alone on my salary, not to mention being a mother of two children, there is no way I could make it with teaching as my only job.

The teacher turnover as well as the "I've had it" retirement of long time educators is very concerning to me and most others in our profession. Please, come spend a day in the lives of the school children, the school environment, and with teachers to see all the kinds of things we do to keep our day running as smoothly as possible despite all the hurdles and obstacles that come our way.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo for you support and consideration.

Sincerely,

Theresa A. Haberstroh

Maui Island, Haiku Elementary School

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: SB 683 and SB 686 RELATING TO EDUCATION

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Woodson and Members of the Committee:

My name is Candace Chun and I've been a teacher for 35 years with the Hawaii Department of Education. I am from the Central District on Oahu. Please pass SB 683 and SB 686 to increase funding for public schools.

Every dollar invested in our community's public schools supports the work we are doing to prepare our youth for meeting the needs of our community and being successful in the 21st century. For instance, I teach the health professions, and it is crucial for us to have knowledgeable instructors in order for students to receive the best education so that they can pursue those careers. Currently, we have a critical shortage of teachers. I've seen this problem grow worse over the years, and there just are not enough qualified teachers in our classrooms. Ask the students and they are not considering a career in teaching. Just within our school, the turnover rate is so high, many are being recruited from the mainland or lack any experience. Many are uncertified, so our students are being very shortchanged with their education.

A positive vote will help reduce class sizes, which have gotten larger, especially in the high schools, where they are packing 36 students or more in advanced classes. Some of this is due to offering seven periods, and not hiring enough teachers, so our load is greater. Unbelievably, I started off last year with 210 students and 204 this year at Mililani High School. This lessens the time I can give to every student; rather, I am struggling to get grading, lesson planning, and actually I looking carefully at student work. Many teachers are so frustrated with their current workload, expectations, and stress, including myself.

A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, see how we can assist them with their learning needs, and provide resources to be effective with learning activities. It's frustrating that when we need supplies there is so much red tape that teachers are forced to use personal funds to buy the things they need. That is very unfair.

Most importantly, funding our schools will provide professional pay, which recognizes the hard work our educators are providing. In all my years of teaching, I can't believe how undervalued our teachers are. I used to do a lot as a culinary teacher, but with instructional time added, decided it wasn't worth doing anymore, because it took hours to do shopping for 180+ students every week. I even decided to give up advising our nationally-affiliated HOSA organization, because after doing that for so many years and no additional recognition or compensation, decided it wasn't worth it anymore. It's unfortunate, because we were taking home numerous national medals and top ten winners, along with having so many state officers and Hawaii's first national officer for any Career Technical Student Organization, many of which I poured personal resources so I could chaperone

my students for a week during my summer break. The raises have never made up for the strike, furloughs, loss of medical contributions taken away, or no increase in salary years.

More funding would also help teachers with medical coverage, after all, this is a high-stress job, and we catch infections the students pass along. At the high school level, it is even more stressful, as there are the difficult ones who even their parents don't know how to control.

We need additional funding for our public schools, because we are losing too many talented, dedicated, and promising educators due to the fact that our state simply is too cheap to pay us REAL professional salary. I have stuck with teaching, even though I have seen everyone burning out and having to work multiple jobs to make ends meet. Why? Because I just don't know who will teach our students anymore. It has never made sense to me that teachers are forced to work multiple jobs when they could have concentrated on preparing or revising lessons or doing the multitude of things required of teachers. It has also become very frustrating to many teachers that they have left the profession for better paying jobs. For example, we have lost some very talented people such as our graphics arts teacher, who is now earning more as a stevedore. When he was teaching, his students were consistently winning national awards. Also, it is discouraging to see many teachers leave today past ten years...sometimes only within a couple of years. Many teachers I speak with say they are burnt out and want to retire, and they only have about 10 years on average.

It's time to take this seriously, because I already see the frightening trend that many teachers are retiring as soon as they can just so they don't have to take all the crap being shoved down their throats. Funding should go to classroom teachers, not the bureaucrats who tell us what to do. We are the ones who work in the trenches for our youth and funding is key to making education a top priority. To deliver the schools our keiki deserve, please support these bills.

Respectfully,

Candace Chun, Mililani High School, Oahu

**Subject:** TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION RE: SB 683 and SB 686 RELATING TO EDUCATION. WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Anjanette Naganuma. I am a teacher from Lahainaluna High School on Maui. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because schools are struggling to hire qualified teachers. Every year there are unfilled positions in our school that are then staffed by day-to-day or long-term substitutes. This situation lacks stability and students are given the impression that their education is not a priority. Class sizes have grown, but the infrastructure and equipment to support this increase has not. In any given year for the last 20 years, on average, only half our teaching staff has 5 or more years experience at our school. Teachers that leave feel undersupported and underappreciated. The teachers that have stayed have laid strong roots in the community, but even we are struggling: to find and keep housing close to our schools, to make time for our family and our students when we are working second jobs. I have family who have left the islands to move to the continental US where cost of living is lower and pay is higher, and they encourage me to do the same.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Anjanette Naganuma, Maui District, Maui

**Subject:** RE: SB 683 and SB 686 RELATING TO EDUCATION

TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION  
RE: SB 683 and SB 686 RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Cynthia Constantino and I am a teacher from Royal Kunia on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society. It is a necessity that we invest in education if we are to build a strong future.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the pay teachers make is not enough to make a decent living. I am a single parent with three children and not only do I teach full time but I have another full time job that I struggle to juggle. I do this so I can make sure that I can pay my bills and put food on my table for my children. I think it is sad that I am only a few moments in time away from being that homeless family. In addition, my

students deserve the technology that can facilitate them into the future. My students need funding to update and keep pace with the changing diversity of technology in order to stay on the top. We discuss coding with our students but the question is are we really able to provide them the tools and resources? If we are not, then we are just offering them empty hope. Also in order to facilitate coding with our own students, teachers need time and the technology tools in order to explore and experiment with coding so that they can assist students and make the opportunity a successful one.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Cynthia Constantino, Royal Kunia, Oahu

## TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Jenella Ogitani. I am a teacher from the Leeward District on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because of several reasons: Operational budgets for teachers have been cut making it difficult for us to assist those students who are economically challenged. My family has sacrifice so that I would be able to purchase basic supplies so that my students would have something to write with, calculate math or create art projects. I have personally seen many teachers, born and raised here in Hawaii, leave the State to pursue careers where they can afford to raise a family, purchase a home or keep their homes. I have personally held two jobs to make ends meet, but due to the long "unpaid" hours that it takes to be an efficient teacher, I had to quit those jobs making it a financial burden on my family. I am the primary provider for my family and I have not recovered from the "Imposed Furlough" we had to endure. As we speak, my home is in foreclosure and I am drastically trying to hold on to

it and still perform my job the best of my abilities. It is a struggle and I really do not see an end if the budget does not improve.

To deliver the schools our keiki deserve, please support these bills. We need your help.  
Mahalo.

Chair Woodson and Members of the Committee:

My name is Romeo Eleno and I'm a teacher at Lana'i High & Elementary School on the Island of Lana'i in the district of Maui. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future for a healthy and economic Hawaii. It is pertinent to build a foundation for equality and prosperity for tomorrow; therefore, we must invest every dollar in our public schools for a more open and democratic society.

To get our schools into the 21st century we need to educate the whole child that includes arts and physical education. In addition, we must also provide resources and services for students with special needs and professional pay that reflects the value of all hardworking teachers.

We need additional funding for our public schools especially in rural areas such as Lana'i, Hana and Moloka'i. Although we are considered smaller schools, we still need just as much or even more funding than larger schools as we still need workers to cook the food in the cafeteria, clean and upkeep the classroom and campus, and provide educational services for all students. The weighted student formula has always been a terrible formula to be used as a guideline when providing funding for ALL public schools.

As an educator with over 20 years of experience, I still have to "moonlight" in order to make ends meet to survive. For teachers working other jobs in addition to teaching, it has a negative effect when it comes to the quality of education for our students.

I humbly ask that you support SB 683 & SB 686 for the sake of our students and teachers in Hawaii public schools.

Mahalo,  
Romeo Eleno  
Health/PE Teacher, Lana'i High & Elementary School Lana'i

Chair **Woodson** and Members of the Committee:

My name is Lynne Tanaka. I am a teacher from Honolulu District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes, especially Special Education students, that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because... [OPTIONAL: INSERT a paragraph or two, tell your personal story or specific anecdotes about how lack of funding affects your students, how low pay and a lack of resources are driving teachers out of the profession, how teachers have to hold second and third jobs, etc. Make sure to emphasize how these situations are harmful to students.]

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Lynne J. Tanaka, Honolulu District, Oahu.

**Subject:** SB 683 and SB 686 RELATING TO EDUCATION

Chair Woodson and Members of the Committee:

My name is Haley van Noord. I am a teacher at Lahaina Intermediate on the island of Maui. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our schools are an investment in our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we have a huge teacher shortage and need to retain high quality educators in this state. In my nine years at Lahaina Intermediate I have seen countless teachers come from the mainland for a year only to return back to their home states because they could not afford to live here as a result of the poor wages. I am mentoring a first year teacher who was recruited by the HDOE from North Dakota, who has had two additional jobs in addition to her teaching career since she arrived just so she can afford a one bedroom studio in the vicinity of our school. She does not even own a vehicle as the cost would be more than she can afford on her beginning teacher salary. The turnover of teachers is not good for our keiki. We need to provide our students with teachers who can afford to stay here.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

WEDNESDAY, MARCH 15, 2017

2:02PM

Chair Woodson and Members of the Committee:

I'm Laverne Fernandes Moore, a special education teacher at McKinley High School, serving as the President of the Honolulu Chapter of HSTA, representing 3,325 teachers. I am a long time resident of Hawaii Kai and submitting testimony in support of SB 683 and SB 686 to increase a steady flow of funding for public schools.

As a teacher at McKinley High School, developers are turning our community into a multi-million dollar exclusive neighborhood for the rich and powerful without having them pay impact fees. They are receiving tax breaks when they should be paying their fair share for infrastructure which in my opinion impacts the education of our students. They are forcing our families into homelessness or leaving the district which is depriving our students of a first class education.

Passing SB 686 and SB 686 is a vote for lower class size which affords our teachers the ability to connect with their students, provide whole child education that includes the arts, physical education, music, community based education, multiple selection of languages, providing resources and services for students with special needs and equitable pay to recruit and retain qualified teachers for our statewide public school system.

Mahalo for the opportunity to submit written testimony. Your support in investing in our children's education is appreciated.

Laverne Fernandes Moore, House District 18, Oahu

**Subject:** RE: SB 683 and SB 686 RELATING TO EDUCATION.

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

--	--

Dear Chair Woodson and Members of the Committee:

My name is Jacqueline Kubo Luna. I am a teacher from Hilo/Waiakea Complex on Island of Hawaii. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools because the lack of funding negatively affects my students' academic success. Next year I will have 28 second grade students in a small 23'x23' very hot, cramped class. Can you imagine how difficult it is to learn in these conditions. Imagine the noise level from 2 main roads and 28 kids. There is no room for movement, creatively, and the essential discovery activities kids of this age need to learn. Our school has also lost many positions, EA's, and tutors because of the lack of funding. The lack of resources and administrator's lack of teacher support are driving our teachers out of the profession. I personally hold 3 jobs just to make ends meet for my three children and myself. The increasing cost of medical premiums will also force me to find another profession that can provide support for me and my family. I am a 28 year veteran teacher

with young teenage kids of my own. I love teaching, but I can't continue to work 3 jobs, spend every waking hour to plan and differentiate for my students, and expect that these conditions are not harmful to my students, my family, and my own health. We need support.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo,

Jacqueline Kubo Luna

Teacher, Hilo/Waiakea Complex

Hawaii District

**To:** EDNtestimony

Chair Woodson and Members of the Committee:

My name is Nichole K. Zirzow. I am a teacher for deaf and hard-of-hearing students on Kauai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals provide a means for Hawai'i's schools to better meet the needs of all the children of Kauai. A vote for these measures is a vote to retain highly qualified teachers, for lower class sizes that allow teachers to connect with their students and provide them the attention and support they so greatly need, whole child education that includes the arts and Hawaiian studies, providing adequate resources and services for students with special needs, and the additional training and professional pay that reflects the value of our hardworking teachers.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Nichole K. Zirzow, M.Ed.  
Kauai District, Kauai

TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Roy Hannu. I am a teacher from Central District on Oahu.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because *the low pay that teacher earn will drive out many potential good teachers. I have taught international before and I am actually able to make a savings. Others see the low pay as well and realize that they can make more money in other places and this will drive out a lot of excellent educators. We need to be compensated for our profession.*

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Roy Hannu, Central District, Oahu

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Woodson and Members of the Committee:

My name is Roberta Yamamoto. I am a teacher from Windward District on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the lack of adequate funding means discussing what we need to sacrifice to keep programs or staff to ensure that our keiki get good education. We need to attract and keep good, qualified teachers in Hawaii. And, we need those teachers to focus on what's good for their classrooms, not whether or not they have the energy to go to their second or third jobs.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Roberta Yamamoto

**From:** Lacey Cabral <laceycabral@gmail.com>  
**Sent:** Tuesday, March 14, 2017 12:22 PM  
**To:** EDNtestimony  
**Subject:** Support of SB 683 and 686

My name is Lacey Cabral and I am a Counselor from the Keaau-Pahoa District on the Big Island. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools. We need additional funding for our public schools, because it has been proven that our State just does not have enough money to sustain the ever changing needs of students. Technology has become a daily need for our students but it also costs a lot more money to sustain vs. text books. Our students need to be given the opportunity to thrive in a global society that is in a constant state of technological change. With additional funding we would be able to compete with private schools like Punahou or Kamehameha whereby each student is provided one to one access with supports. Our resources could be broadened and opportunities for our students could soar! Would we be in a great place if education could be one less thing to worry about when trying to reconcile the State's budget?

Thank you for your time!

It's not EVEN rational  
with our teacher shortage, +  
the mindset to "import" teachers  
(because of pay: cost of living  
is ONE of the lowest in the  
nation) we are NOT retaining  
our best and brightest. ??  
The teachers coming from elsewhere  
are not staying. The attrition in  
the 1st five years is (50%+ of new) teachers

→ are professionals with 5-8 additional years of college education pay them as such!!!

Please support the listed bills to provide  
handicapped children with properly graded  
education. Even a hundred years after  
the creation and enactment of the  
of the Big Five our youth still deal  
the effects of oppression as being  
America's most underfunded education  
system. As a mother and teacher, I hope  
Education Commissioner, I hope  
all language in education bills  
specifically and explicitly states  
equal treatment and benefits for all  
children with handicaps and disabilities.

- Funding schools = more educational opportunities for a well-rounded student
  - Smaller class sizes = more chances for 1-to-1 relationship-building/bonding.
  - Solve chronic teacher shortages by investing in the ~~the~~ local teachers. i.e. salary increase for teachers, instead of paying for housing & stipends for mainland teachers to come to Hawaii.
  - simply believe in teachers to give the public a better "view".
- Some things to remember:
- teachers use hundreds if not thousands of their own money to fill the needs of their classrooms.
  - teachers work overtime to meet deadlines or to create rich, meaningful activities for their kids.
  - cost of living, health insurance are rising and teachers are struggling to take care of their own families.

There needs to be funding that is reliable. If society wants a civil and productive society that is economically sound, it needs to invest in its communities and have an educated workforce. Education is my second career and in my previous employer, I was always provided the needed supplies and resources. Not so in education. I end up spending my own money, thousands of dollars, which are not considered tax deductible. I have 2 jobs to make this happen. How I am fortunate if you want to be a great teacher - you can't go home to spend your own money. C

Honorable Congressmen,

I humbly ask you to consider

supporting our students via approving the  
bills to enact a Constitutional Amendment.

Here are things I have had to buy this month

alone for my students: food, notebooks, pencils,

paper towels, 'easy reader' books for my most

impaired special education students, valentines (because

I love all my kids!), slippers, seasons online

worksheets and curriculum, new markers and

more. We love and fund our kids - but I want  
to do that with the abndant taxon funds rather  
than with my diminishing paycheck.

I am a 27 veteran teacher.

SY 2017-2018 I will be teaching

28 2nd grade Students in a

22<sup>ft</sup> x 22<sup>ft</sup> classroom, The PDN

School was out 3.5 positions therefore,

We will be forced to have (4) 1<sup>st</sup> + 2<sup>nd</sup>

grade classrooms with the large numbers!

Learning will definitely be impacted!

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "'Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?'" Thank you.

Alaska Legislators,

Please help provide our kids  
a well-funded education system  
by joining the other 49 states  
which have already property taxes  
which support education as  
foundations to property values.

Our Countries benefit immensely from  
a better educated work force! Alaskans

A first year teacher at our school is having a great year teaching and inspiring her students. She is a natural born educator. talented, smart, caring and genuine.

However, she is contemplating returning next year because the pay is not enough to support her and her baby. It will be <sup>difficult</sup> to lose her.

A few months ago, I read in West Hawaii Today that a BOE member's suggestion to solve the teacher shortage was to recruit teachers from other countries, Ridiculous!

We need a long term solution that will improve our Hawaii education system - not stop gap temporary measures. This proposal would address many areas ~~that~~ and will create a stronger education system for our keiki. They are the future of Hawaii and they deserve better.

Our schools desperately need  
more financial support. Funds are  
in such short supply, as a kindergarten  
teacher I buy many basic needed  
supplies w/ my own \$: Paper towels,  
pencils, erasers, Kleenex, markers, and  
even wipes to help disinfect tables  
when students are sick. Please support  
our public schools!

Being away from Hawaii for  
9 years teaching in a private  
I.B. School, I noticed a huge  
diservice to our Keiki in Hawaii.  
It's so sad to see the things  
that our Keiki are without in  
the classroom, especially when  
it comes to qualified teachers.  
I came back as a sub. even  
though I am a licensed teacher  
and there were still, in October, so  
many vacancies that's kids without  
qualified teachers. We need more  
money for the DOE. That's H. Malama!

Our Reiki deserve teachers who can sustain themselves on a teacher salary, and not have to work a second job.

Teachers can not be 100% invested in teaching the Reiki when their mind may wander to financial strain that may cause emotional distress.

For what teachers get paid is way under paid & have been getting paid has always been well below the norm. or of similar mainland states with similar cost of living. Teachers don't stay in Hawaii because they cannot afford to live here without at least one second job. This makes it hard on teachers & on students. Students cannot get hold of their teachers since they leave school to go directly to the second job. This is wrong... We need a 10,000 + per year increase to come close to mainland,

- A 1% raise is a joke, (It doesn't account for cost of living.)
- A lump sum raise is a joke. (So much is taken out for taxes that it's an insult.)
- We need incentives in order to stay. Why shouldn't I leave to get paid more in another state? Yet I'm a local to the Big Island.

Senator Green,

Feb. 16, 2017

Teachers in Hawaii are the lowest paid, highest taxed educators in the United States! That translates to least respected, least supported, least appreciated — and that leads to more dismal classroom results. Give us what we deserve — Give our students what they deserve. — E. J.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182. These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Teacher turn-over is arguably the biggest reason the Public Education system is not serving our kids like it should be. People want to teach in Hawaii, but can't stay/afford it due to low salaries. There are several hundred vacancies in the DOE this year alone. These positions are being filled by unqualified/untrained people to be teachers. We need to attract and retain talented people who will teach in Hawaii for 20-30+ years. The way to do this is pay higher salaries. This is the way it works in the business world and it's no different in education.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

We have a 30% vacancy  
projection for next school year  
2017-2018. None of those teachers  
are retiring. They are leaving because  
they can't afford to live on our  
meager salaries. Last year's  
shortages at end of year and beginning  
of 2017 did not get filled with  
highly qualified teachers. We need  
more money!!!

I give everything I have to being an effective educator, working 8-10 hour days and multiple hours on the weekends. Our severe teacher shortages (that I see every day) and the basic law of supply and demand show that teachers like me must be honored with a fair, professional, living wage. If the problem is not addressed, good teachers will continue to find other locations and outlets for their service.

Teaching has been the hardest and underpaid profession I have been a part of. Every day I spend countless hours planning for my students, volunteer coaching my elementary school track & field team and other unpaid hours. I spend money out of my pockets to put shoes on their feet and pencils in their hands. I do this because I love them and believe in their potential to make the world a better place. However, ~~the~~ I can't go on like this and the schools can't either.

Working at a rural, hard-to-staff school, funding is essential for implementation/continuation of various programs, especially in regards to Special Education where funding has been cut to \$D.

I am in support of SB683, SB686, HB180 and HB182. There needs to be a fair and equitable education for all students and teachers in Hawaii.

I support voting current ~~state~~ ~~the~~ residential investment property, I do not support increasing property taxes to supplement this fund education. I do think a portion of visitor accommodation surcharges be used for education.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "We shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. Sylvia Luke

(To locate your senator and representative go to [openstates.org](http://openstates.org))

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. HENRY J.C. AQUINO

(To locate your senator and representative go to [openstates.org](http://openstates.org))

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. Ken Ito  
(To locate your senator and representative go to [openstates.org](http://openstates.org))

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. Greg Takayama  
(To locate ydr senator and representative go to openstates.org)

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

REP. Johan son  
(To locate your senator and representative go to openstates.org)

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

(To locate your senator and representative go to [openstates.org](http://openstates.org))

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

I am a WH graduate with a degree in teaching and student debt (Fed loans) that have no chance of being forgiven as my school no longer qualifies as a title 1 school. I'm a licensed professional with zero credit card debt and I have a hard time making ends meet. My dream is simply to be able to purchase a small house or condo, for security and well being. Please HELP US! The stress level and lack of time to plan and complete EES is just not worth level of value our state places on us.

As a struggling teacher, <sup>trying</sup> to continue  
to do what I love in a place ~~I~~ love,  
I fully support this amendment.  
I find less time to spend with my family  
and focus on my students because I  
need to supplement my pay. This gives  
me reason to reconsider my position  
as a teacher. We have seen for those  
many excellent teachers leave for these  
very reasons. We need to find a way  
to make it affordable for teachers to stay.

Paula Kama

RE: \_\_\_\_\_

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

I support SB 683, SB 684,  
HB 180, and HB 182. The passage of  
these bills can help in making  
classroom sizes manageable  
and teachers also need to have  
an special ed. inclusion teacher  
for all academic subjects.  
Please help our kids and  
educators!

I also think we need restructuring of how the funds are spent,

Too much on ~~the~~ admin of codes etc. instead of using funds to increase teacher salary.

Please, in the name of Jesus Christ,  
do whatever it takes to ensure  
that moneys are invested in all  
aspects of education/educators -  
How can we compromise the quality of  
education when it is the bridge to  
all other careers, professions like  
lawyers, doctors, who are revered in  
many ways, including pay. Bottom line:  
"High Morale, High Productivity"  
Honor that which is vital for Hawaii's  
people & ALL Teachers/Learners, Community!

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Senator English

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has ~~the~~ driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Altoia,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant. It appears to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwe! <sup>Same</sup> <sub>same</sub>

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire):
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away ~~the fun from~~ teaching.
- Tax foreign investors, hotels & non-residents to support our economy of New Zealand
- Slow down the growth since the closing of HEDs see increase in outsiders, social problems, etc. transient community.

I am a high school teacher  
in my third year, Hawaii students  
are the most respectful group I  
have had the pleasure to work with  
in my career. Yet, when I look to the  
future, I do not see myself EVER  
being able to own a home in Hawaii.

I barely make ends meet & pay my bills  
Students suffer the most, though, due to  
inadequate funding. Please support our students &  
teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the County/State resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

We are being priced out of the housing market--rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable--and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?

Can we provide a doctors note to prove that the kid is sick.

Parents use all their sick days just to take care of their sick children. This would really show support of families in the community.

Holds for your support of  
these bills. I am not only a teacher  
at Lawrenceburg HS, I'm also a graduate.  
As a lifetime member of the community,  
I have seen teachers come + go and  
the common thread that ties all those  
who leave is the low pay + lack of  
support at the school + classroom level.  
I have seen the impact + felt the impact  
this revolving door of teachers has on  
students.... reinforcing the negative feelings of  
how unimportant stability is for learning. ~~Can~~ Please help with  
your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school -- there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part-time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I have been teaching in Hawaii for 23 years  
& gone through many negotiations where  
teachers are asking for a raise. I am  
always disappointed in how the state  
disrespects teachers & their value in  
society by offering less than cost of living  
increases let alone an "actual" raise.  
I have seen dozens of excellent teachers  
leave Hawaii because they could not  
make ends meet on their salary w/ the  
cost of living in HI. No matter how much  
support we provide them at the school level  
we can not change their salary, rent or  
cost of insurance, food & utilities - so they  
leave the islands. Don't our kids deserve the best  
possible teachers ~~who~~ who don't have to work a second job to make it?

Mahele for your support of those bills.

I'm not only a teacher at Lokaiwanua HS,

I'm a graduate + the daughter of a graduate.

Students, families, + community benefit from

teachers who build relationships + cross deep

roots. As a student + as teacher, I have

seen the negative impact that a revolving

door of teachers that come + go - sometimes mid-year -

has in the classroom + with student learning.

Why do I stay? I'm lucky. My spouse will take

over the lease of his father's Hawaiian Homestead land.

Without this support, we might have also left - as my

brother + his wife did, unable to afford the cost of

living on Hawaii. Again, Mahele for your support

- After 11 years teaching in Hawaii, I still make \$10,000 less per year than when I left So Cal in 2003!
- If I were in my 11<sup>th</sup> year now at my old district, I would be making \$80,000/yr compared to my current \$50,000 at HLBDE
- I am not compensated for both of my master's degrees even though I am a school librarian & my 1<sup>st</sup> master's is in education & my 2<sup>nd</sup> is in library science.
- My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

As a 4<sup>th</sup> generation Maui resident

I feel that the state is failing

~~the~~ at supporting local families.

STOP GIVING NON-RESIDENTS the  
right to tax privileges, land use  
privileges, etc.

I want to help Maui kids, and I  
cannot do it at this rate of pay much  
longer. I just can't afford rent, bills,  
etc. and already work 2+ jobs.

DO WHAT IS RIGHT FOR THE LOCAL FAMILIES.

*Mauihelo*

Let the citizens decide!  
We all have to live with the  
consequences of poor education  
funding; we cannot afford to  
underfund schools. Those who  
face a future that will either  
be peopled by citizens well educated  
or poorly educated have a vested  
interest in school funding.

Please support teachers  
by offering a fair contract  
that compensates teachers  
for the work we do.

Fifty percent of new teachers  
leave the profession and  
students deserve highly  
trained teachers instead of  
substitutes.

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools. by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruitment and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Alpha Rep. DeCoitte and Sen. English,

I teach 2nd grade at Kaunakakai Elementary School. I also volunteer after school teaching music classes to students and community members.

The furniture in my classroom is falling apart. The computers in my room are over 10 years old. Please help fund our schools!

Respectfully,

Robert Underwood

Hawaii is behind in education results <sup>nationally</sup> and our children deserve better. We are also behind the curve in funding <sup>over</sup> education. California invests double the amount Hawaii does per pupil. Utilizing the highest ~~per~~ taxes in the Nation and shutting this to fund education makes sense. Please invest in our Kēiki - let's use our resources to take our Kēiki into the 21<sup>st</sup> century prepared! Mahalo Nui!!!

How much longer will  
this state continue to  
underfund our students  
& schools?

How can anyone justify  
the exceedingly low pay  
for the only union whose  
members all have no less  
than a Bachelor's degree  
mandated to work in  
this profession?

TO:

SEN.

Shirley Tokuda

REP.

Christine Freiberg

RE:

Hawaii's public schools are underfunded, this has led to chronic teacher shortages, large class sizes, and the failure to deal with our special needs students. **I am asking you to support our keiki and our public schools, by supporting SB683, SB686, HB180, HB182.** These bills support a Constitutional Amendment that reads: "Shall the legislature fund a quality public education for all of Hawaii's children, including the recruiting and retention of teachers, lower class sizes, special education programming, career and technical education, art, music, Hawaiian studies, and Hawaiian language, by establishing, as provided by law, a surcharge on residential investment property and visitor accommodations?" Thank you.

Holds for your support of  
these bills. I am not only a teacher  
at Lawrenceburg HS, I'm also a graduate.  
As a lifetime member of the community,  
I have seen teachers come + go and  
the common thread that ties all those  
who leave is the low pay + lack of  
support at the school + classroom level.  
I have seen the impact + felt the impact  
this revolving door of teachers has on  
students.... reinforcing the negative feelings of  
how unimportant stability is for learning. ~~Can~~ Please help with  
your support of these bills.

It is such a struggle to maintain residency in Hawaii with low pay, minimal resources, and lack of support for teachers across the state. Retention is already an issue and is continuing to be a struggle - especially for special education. Special Education is on the lowest rank on the totem pole in my school - there are vacancies still and our school took a long term sub away from Special Ed. in grades K-2 to favor a part-time P.E. position. We are forced to increase workload and are spread so thin! Please support us teachers in Hawaii!

I have been teaching in Hawaii for 23 years  
& gone through many negotiations where  
teachers are asking for a raise. I am  
always disappointed in how the state  
disrespects teachers & their value in  
society by offering less than cost of living  
increases let alone an "actual" raise.  
I have seen dozens of excellent teachers  
leave Hawaii because they could not  
make ends meet on their salary w/ the  
cost of living in HI. No matter how much  
support we provide them at the school level  
we can not change their salary, rent or  
cost of insurance, food & utilities - so they  
leave the islands. Don't our kids deserve the best  
possible teachers ~~who~~ who don't have to work a second job to make it?

Mahele for your support of those bills.

I'm not only a teacher at Lokaiwanua HS,

I'm a graduate + the daughter of a graduate.

Students, families, + community benefit from

teachers who build relationships + cross deep

roots. As a student + as teacher, I have

seen the negative impact that a revolving

door of teachers that come + go - sometimes mid-year -

has in the classroom + with student learning.

Why do I stay? I'm lucky. My spouse will take

over the lease of his father's Hawaiian Homestead land.

Without this support, we might have also left - as my

brother + his wife did, unable to afford the cost of

living on Hawaii. Again, Mahele for your support

- After 11 years teaching in Hawaii, I still make \$10,000 less per year than when I left So Cal in 2003!
- If I were in my 11<sup>th</sup> year now at my old district, I would be making \$80,000/yr compared to my current \$50,000 at HLBDE
- I am not compensated for both of my master's degrees even though I am a school librarian & my 1<sup>st</sup> master's is in education & my 2<sup>nd</sup> is in library science.
- My old district compensates for all relevant degrees, as do most U.S. districts.

Why stay in Hawaii? Would you?

As a 4<sup>th</sup> generation Maui resident

I feel that the state is failing

~~Maui~~ at supporting local families.

STOP GIVING NON-RESIDENTS the  
right to tax privileges, land use  
privileges, etc.

I want to help Maui kids, and I  
cannot do it at this rate of pay much  
longer. I just can't afford rent, bills,  
etc. and already work 2+ jobs.

DO WHAT IS RIGHT FOR THE LOCAL FAMILIES.  
Mauihelo

Senator English

I Strongly urge you to support these bills to increase funding to Hawaii's public schools. Rampant speculation has ~~the~~ driven the cost of housing on Maui through the roof. As a teacher with a Master's Degree, my rent accounts for over 50% of my net income. Please take a stand to support Hawaii's students & teachers.

Altoia,

I have recently returned to my childhood home after 15 years in education on the mainland. I have returned to the classroom after working as a teacher coach, school administrator, and education consultant. It appears to be home + teaching again, but absolutely "appalled" that my current paycheck is smaller than it was in my first year of teaching in California in the year 2000. Auwe! <sup>Same</sup> <sub>same</sub>

- We need to help teachers with salary increase, help to retain teachers (new & soon to retire):
- ~~help~~ train teachers to be better teachers (mentorship) instead of continuous evaluations (EES) which takes away ~~the fun from~~ teaching.
- Tax foreign investors, hotels & non-Residents to support our economy
- Slow down the growth of New Zealand closing of HEDs see increase in outsiders, social problems, etc. transient community.

I am a high school teacher  
in my third year, Hawaii students  
are the most respectful group I  
have had the pleasure to work with  
in my career. Yet, when I look to the  
future, I do not see myself EVER  
being able to own a home in Hawaii.

I barely make ends meet & pay my bills  
Students suffer the most, though, due to  
inadequate funding. Please support our students &  
teachers.

Coming from the Northeast, I know exactly how low our property taxes are. I also know how tight the market has become. The rental market as well as ownership market is slowly squeezing everyone. While I am aware of the benefits of part time owners who don't make demands on the County/State resources, there is very little left for people who want to live and work in Hawaii.

The brain drain will only worsen unless something is done.

We are being priced out of the housing market--rental and ownership. In the 22 years I've taught on Maui, I've seen new teachers arrive in June and leave in July because they couldn't find affordable housing on a starting salary. I've seen leave, reluctantly, because they could pay rent or daycare or student loans.

It's unsustainable--and not just for teachers.

#1 Can teachers with children have an additional 12 days of "family leave" that can be used to stay home to care for sick kids?

Can we provide a doctors note to prove that the kid is sick.

Parents use all their sick days just to take care of their sick children. This would really show support of families in the community.

**Subject:** RE: SB 683 and SB 686 RELATING TO EDUCATION

Aloha Chair Takumi and Members of the Committees:

My name is Vickie Parker Kam. I am a teacher from Leeward district, in Ewa Beach, on Oahu. Please pass SB 683 and SB 686 to increase funding for public schools.

As public educators, we teach every student. We believe every student should have the opportunity to thrive in public education. When we teachers instruct our students, we build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

To create the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Sincerely,

Comments: This may not be the way that most people would choose to help fund education BUT we have to start somewhere! Our teachers and our keiki deserve better facilities in which to work, resources and in the case of our teachers a living wage. I support that people have been trying to work together to come up with positive solutions and hope that we will continue to do so. Hawai'i has great potential when we look at our islands and resources from our view NOT that of the mainland or Asia. We are unique and must forward ideas from there.

**From:** Alan Isbell <writenow808@gmail.com>  
**Sent:** Monday, March 13, 2017 4:49 PM  
**To:** EDNtestimony  
**Subject:** RE: SB 683 and SB 686 RELATING TO EDUCATION.

Aloha Honorable Chair Woodson and esteemed members of the House Committee on Education, my name is Alan Isbell. I teach fourth grade at Wailuku Elementary on Maui. I also serve as president of HSTA, Maui Chapter.

Poetic justice is a surcharge on real estate speculation to create new revenue for public education.

Consider that it is property speculation that has sent housing skyward in the first place, making Hawaii unaffordable for teachers.

Heard about shark trouble on Maui? It may not be what you think. Land sharks have been circling there, gobbling up housing by the mouthful. Realtors there will tell you that most single family housing units sold on Maui the past year have been to speculators and wealthy, off-island part-timers. Often, the sale price did not reflect the price asked by the owner. Rather, the price acted as chum, starting a feeding frenzy that ended with the highest bid, far in excess of the asking price. The result is the debacle billionaire Gensiro Kawamoto wrought on Maui and in Kahala a decade or two ago, when the last real estate boom imploded.

Ask yourselves who this property surcharge would really cost. Might your conclusion be that it would cost land sharks and those who could well afford it? If watching Hawaii bought and sold to the wealthy is unsettling, why not at least make them pay for what they are doing, and use that money to lift Hawaii's public schools out of poverty?

Mahalo for your consideration.

Dear Legislators:

Please do not pass SBs 686/683. The bill is unfair to home owners, represents an arbitrary tax (without representation), and will increase costs to teachers and others seeking quality housing in Hawaii. We are a middle-class family, who is fortunate enough to own a modest home in Diamond Head. We presently rent it out long-term, but plan to live there someday (when we can afford it). Our property tax will more than double if SB 686/683 passes. This will necessitate substantially raising rent. This will decrease supply of affordable homes--fewer teachers will be able to rent. Also, fewer people may choose to rent out their homes owing to this tax, decreasing the supply of available rental homes. Many owners/investors may be forced to switch to short-term rentals (which generate more revenue than long-term leases), making the housing problem on the islands worse (including for teachers).

Having far less net revenue after taxes (operating at break-even or worse), we (along with many others) will be forced to cancel or defer maintenance and expansion of our home, resulting in less employment for local service providers. Additionally, changing the State Constitution to enact a tax is just plain wrong, and represents legislative overkill of the worst sort. We strongly support public education (I am a university professor at a public school) but SB 686/683 is the wrong way to fund education--please seek another way forward--one that involves everyone, not solely people who have no say. Another result of passing 686/683 will be fewer available rental homes on the market, and higher rents for everyone, including teachers. Finally, few people off-island are even aware of this bill's existence. The bill is getting little news coverage. Is this the best democracy you can manage? If so, please do not expect my vote any time soon.

I would be pleased to support alternatives to funding schools in the manner proposed by SB 686/683.

Thank you for your kind consideration of this matter.

**Subject:** \*\*\*\*\*SPAM\*\*\*\*\* testimony in support of SB 683 and SB 686

Chair Woodson and Members of the Committee:

My name is Elizabeth DeLyon. I am a teacher from Maui. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because we are failing to keep qualified teachers in the profession. Our students deserve better. We are all working hard to keep our standards high and curriculum at the highest level. But we need more teachers and incentives to keep the new teachers to stay on for more than a few years. Please help.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017

2 p.m.

Chair Takumi and Members of the Committee:

My name is Laura Buller. I am a teacher from Maui Canoe. Omplex on Molokai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the Weighted Student Formula does not adequately fund the school I teach at, Molokai High. For the past 12 years none of my teaching curriculum has been updated. No new textbooks or supplies to speak of. Each year I spend more money for my classroom needs than I receive from the school's budget. This is usually in excess of \$800 from my own income. The school has had to reduce the variety and number of subjects/courses taught and has cut 3 teaching positions.

Our students need to have a fully and equally funded education so that we can leave behind the plantation mentality and offer all of Hawaii's Keiki a full future.

To deliver the schools our keiki deserve, please support these bills. We need your help.

Mahalo,

LAURA BULLER, SOCIAL STUDIES TEACHER, MOLOKAI HIGH SCHOOL, HOOLEHUA,  
MOLOKAI, HAWAII 96757

**Sent:** Monday, March 13, 2017 5:22 PM  
**To:** EDNtestimony  
**Subject:** SB 683 and SB 686 RELATING TO EDUCATION.

Chair Woodson and Members of the Committee:

My name is Natalie Dotseth. I am a teacher from Voyager Public Charter School on Oahu. I am submitting testimony **in support of SB 683 and SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because lack of resources and low pay are driving teachers out of the classroom. We need working conditions that support teachers to make teaching a career. Teacher turnover is a major problem that is negatively affecting students learning. We need to make sure that teachers have the resources that will allow them to be successful in the classroom. Students need quality reading materials, access to technology, and hands on materials that they can learn from. Additionally, with the cost of living in Hawaii being so high, our state needs to ensure that teachers can afford to live in the state where they work. Teachers should not have to work additional jobs to make ends meet. Our keiki deserve our full focus and attention; this cannot be given when teachers work multiple jobs to pay for their cost of living.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

**Subject:** Funding for public schools

Chair Woodson and Members of the Committee:

My name is Colleen Parleel am a teacher from Central District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because I still use my personal money to purchase resources for my students. I have worked with new teachers over the past few years and it is discouraging to see them leave the profession. They may dedicate themselves initially, but they need a living wage as professionals. Some work a second or third job. The students are suffering because of this teacher shortage and teacher burnout.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

**Sent:** Monday, March 13, 2017 6:13 PM  
**To:** EDNtestimony  
**Subject:** Testimony kelly Wadlegger

Chair Woodson and Members of the Committee:

My name is Kelly Wadlegger. I am a teacher from the Windward District on Oahu. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

All of our children are our future not only the privileged. When we teachers instruct and guide our students, we build the social, emotional and intellectual foundation for equality and prosperity for the next generation to succeed. Every dollar invested in our community's public schools yields exponential returns, not just for our local economy, but for a more open and democratic global society.

Supporting these proposals will move Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to really connect with their students, and whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and especially fair professional pay that reflects the value of us hardworking and highly underpaid teachers.

We need serious increased funding for our public schools because the current situation is deplorable. Students are cramped in hot classes with 40 kids in a class. Teachers are terribly underpaid and I myself can barely pay the inflated rent prices on the teacher salary which is one of the lowest in the nation. Unless you want a pipeline to prison system the government of Hawaii seriously needs to invest properly in public schools. If you want to keep skilled educators like myself from leaving Hawaii and quitting teaching in Hawaii public schools then you need to invest in us and the children of Hawaii.

Think about the future and the long term.

Thank you!

Sincerely,

Kelly Wadlegger, BFA, MFA

**Subject:** Support for SB 683 and SB 686

### TESTIMONY BEFORE THE **HOUSE COMMITTEE ON EDUCATION**

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

I am Christian Santomauro, a teacher at Kaneohe Elementary School on Oahu. I have been a teacher for 3 years. Please pass SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21<sup>st</sup> Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, resources for special needs students, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because the students I serve in special education are highly underserved. There are still over 500 vacancies in the state, many of which are in special education positions. These highest need students lack stable, long-term teachers who are trained and willing to support them. In addition, we need more money to purchase materials and professional development to service these students. Last year at my previous school, for a department of 20 special education teachers, we had a budget of \$150 for the year. Total. Not per teacher. We cannot support our students with this poor funding.

To deliver the schools our keiki deserve, please support these bills. Mahalo.

Thank you for your time,  
Christian Santomauro  
Kaneohe Elementary School  
Oahu

## TESTIMONY BEFORE THE HOUSE COMMITTEE ON EDUCATION

RE: **SB 683** and **SB 686** RELATING TO EDUCATION.

WEDNESDAY, MARCH 15, 2017 2 p.m.

Chair Woodson and Members of the Committee:

My name is Stephanie Ann Ceus. I am a teacher from Iroquois Point Elementary on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawaii's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

**We need additional funding for our public schools, because there are teachers like me who are holding more than one job in order to survive and provide for my own two children. Three years ago my husband abandoned my two children and I. I became the sole provider for my two children on a teacher's salary here in Hawaii. Needless to say, I was not able to pay the mortgage on my home with the salary I was making as a highly qualified teacher with a Masters degree. My home went into foreclosure, I became past due on every bill and into heavy debt. At times I feared I was going to be unable to provide for my children. Since then thankfully with the love and support of friends and family I was able to move my children to a new home and rent a condo near where we previously lived. This enable to keep them in the same schools and maintain their life as much as possible. I am still unable to support myself and my children on just my teaching salary alone. I receive the minimal child support required by the State which is \$77.00 per child. This does not help my current financial situation so I am forced to get a 2nd job part-time. Having to work another job takes my time away from raising my own 5th and 7th grader and takes away the energy and time I have to be able to give back to the 25 5th graders that I spend all day with. I am spread thin and doing absolutely everything in my power and with the energy that I have to be there for my own children and the students that I teach. An increase in pay, deservedly so, would enable me to do better and be more available to my children in the capacity as a mother and to my students in the capacity as their teacher. If I am unable to manage my finances with the**

**2nd job then I will be forced to leaving the teaching field and look for full-time work elsewhere or move off the island. I have been a full-time resident of Hawaii for the past 16 years and this is my home. The children of Hawaii, including my own, deserve to have teachers who are able to financially support themselves and a family without having to depend on a spouse or assistance from friends and families. I deserve to be paid for the invaluable job of educating the children of Hawaii both academically and socially and for raising my own two children without worrying whether I will have enough to pay for food, clothing and shelter. I need your help, my children need your help, my students need your help, so please support these bills. Mahalo.**

Aloha,  
Stephanie Ann Ceus  
Iroquois Point Elementary  
5th grade teacher  
Oahu, Hawaii

**Subject:** Re: SB683 and SB686 Relating to Education

Randal Tice  
Mililani Middle School  
7th grade Language Arts teacher

Re: SB683 and SB686 Relating to Education

Aloha Chair Woodsman and Members of the Committee,

My name is Randal Tice, a teacher at Mililani Middle School. I have been a teacher for 10 years and currently teach Language Arts at the 7th grade level.

I am submitting testimony today in support of SB683 and SB686 to increase funding for public schools. We are asking for your support for more funding for public schools, and specifically our proposals for a constitutional amendment to create a steady funding stream for the DOE. It is important that we increase education funding so we can attract and retain teachers. Retaining teachers in the State of Hawaii education system is a multifaceted solution that will alleviate burdens on infrastructure, ensure momentum in student/school achievement, and exponentially raise the level of professional disposition of the entire school community. A constantly shifting teaching staff inhibits the school's ability to build off of past data and experience in meaningful ways. The result are projects being started and abandoned, unsustainable standards based assessment at the school level, non cohesion regarding curriculum at the department level, and difficulties in establishing strong learning communities.

Community is particular important. Establishing community is an area that I believe to be one of Hawaii's unique strengths. The opportunity for students to grow up in a diverse, multi-lingual, multi-cultural society while still having the feeling of home, family, and acceptance is an area that Hawaii uniquely excels at. It has a direct positive affect in allowing students to become mentally flexible, accepting, and tolerant; all essential characteristics in our globalized world. Retention of teachers ensures that existing communities' roots are strengthened and ensures the continuing creation and sustainability of future communities.

In regards to addressing Hawaii's struggles with retaining teachers, I firmly believe that the number one deciding factor in keeping highly qualified and skilled teachers here is teacher salary; in particular the actual take home pay teachers receive. The reasoning is not a secret at all and is incredibly straightforward: teachers simply can not afford to stay in Hawaii. Family salaries can be subsidized by two or more full time working adults, but purchasing a home, saving money for kids' futures, and funding advanced education is quite frankly overwhelming. Please allow me to be personal, casual and frank in my discussion of this issue as it directly relates to my experience working with the Hawaii State Board of Education.

I am a perfect example of teachers leaving Hawaii because our salaries are too low. At the beginning of my career, I worked at Leilehua High School for two and a half years before deciding to explore the world and teach abroad. I spent the vast majority of my career (7 years) teaching in different countries including Japan,

China, The Republic of Georgia, and The U.A.E. I even managed to pick up a wonderful wife and a son along the way! Last school year, we were excited to settle down in Hawaii and establish our home here. On a professional level, I was excited to bring an incredibly unique approach to education that I had gained from my years teaching abroad. I suppose this is bragging, but I knew that I had a lot to offer students and schools. I felt that my international experience was something that amalgamated well with Hawaii and is something that kids today absolutely need in order to be globally competitive. I have gained considerable success in my current position, not only in Language Arts instruction but also through after school programs and connecting students with broader communities. Long term plans included supporting the school in establishing foreign exchange programs and forming sister school relationships with schools around the world. All of the progress and momentum gained in just one school year is being abandoned because of a hard truth of settling down in Hawaii as a teacher: I can't save up money to buy a house for my family. There were various solutions to financial difficulty with one being seeking employment abroad once more. Our family eventually settled on this decision. I often think of all of the fantastic things that could get accomplished by staying in Hawaii in the same position, and (please excuse me for once again boasting) the loss the Department of Education will have from losing a teacher like me. I am a very real example of the problems of salary and retention and my hope is that this reality will open educator's eyes and minds because I am just one among many. My family hopes to once again return to Hawaii to settle down after saving up money living abroad, but the progress of negotiations seem to make this impossible.

Hawaii needs to keep and retain their teachers; salaries do need to be given a priority.

I have nothing but appreciation for the time you took in considering my testimony. Thank you very much and by addressing the issues I have brought forward, my testimony will be an important step in establishing the schools our keiki deserve.

**To:** EDNtestimony  
**Subject:** RE: Support for SB683 and SB686 Relating to Education

Testimony for: House Committee on Education  
SB 683 and SB 686 - RELATING TO EDUCATION

Dear Chair Woodson and Members of the House Committee on Education:

Here are the facts:

There is a teacher shortage **crisis**. We are the **lowest paid** teachers in the country when you factor in the cost of living. We have the **worst teaching conditions** for teachers in the country. More than **10,000** public school children go to school every day and **don't have a qualified teacher** in their classrooms. **One in seven** Special Education teachers are not qualified. For many years, our keiki have been harmed because of these factors. It is time to stop this!!!

I truly believe that you want Hawai'i to shine in our country for its education system and for our students to make great gains. It is time to act! It is time to show that you really care and support our keiki, teachers and schools.

HSTA has spent a lot of time and money to research and formulate these bills. They are based on data and propose real solutions. It is time to trust our HSTA teachers who have helped put forth these bills, as the ones who are in the trenches, who know our schools and know what we need.

I am a Special Education teacher with over 18 years of experience in the DOE. I have two masters degrees and have been National Board Certified since 2003. I am currently teaching at Kilauea School on Kaua'i and have seen the negative effects on our students. When there wasn't a Special Education teacher to hire a few years ago, a full-time sub was hired. However, I was asked to be in charge of the 15 students' IEP's, testing, meetings, and help the sub through out the year all in addition to being in charge of all of my Special Education preschoolers. It was impossible to juggle it all. The sub didn't have the necessary skills to manage her class and ultimately, all of the students were impacted negatively. This is but one example and similar horror stories happen all of the time and it has to stop once and for all. We need to retain teachers, the best teachers and have a qualified teacher in every class.

I ask that you pass SB683 and SB 686 and take a bold step toward improving our schools. I will be there on Friday and want to witness the positive first steps I know our legislature can take to really supporting our keiki, teachers, and schools. Make us proud!!!!!!!!!!!!!! Don't let us and our keiki down!!!

Mahalo.

Chair Woodson and Members of the Committee:

My name is Gina Gatani. I am a Special Education Teacher from Heeia Elementary on Oahu. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools.

Our children are the future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our schools are dilapidated and invested with rats.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Sincerely,  
Gina Gatani

**Subject:** In support of SB683 and SB686

Aloha,

My name is Howard Hurst. I am a teacher at Waimea Canyon Middle School on Kauai. I am submitting testimony **in support** of **SB 683** and **SB 686** to increase funding for public schools. I'm a recruited Special Education teacher from the Felix Consent Decree era.

It's time for a new paradigm. Treating teachers like expendable members of a Star Trek landing party isn't working. Yearly new hires come and go unable to survive on a salary that does not reach the living wage criteria. It was and still is an unbelievable struggle after coming here with an expectation of a professional career and secure future. When new hires leave positions mid-year and sometimes earlier, students suffer. If you are an unfortunate student whose Math teacher left the position consecutive school years, you're at a significant deficit to peers. Where is the authentic effort to stop this discrimination?

Despite disagreement on certain points such as the failure to recognize teachers achieving a Masters Degree equal to those with National Teachers Standards Board license, I still believe this legislation is a step in the right direction. The State of Hawaii needs to back up it's rhetoric on improving education with authentic efforts and support of their teachers. Please support **SB 683** and **SB 686**.

Altruistically,

Howard Hurst, M.S. Ed  
*Waimea Canyon Middle School*

**Subject:** SB683 & SB 686

Dear Lawmakers and fellow Hawaiians: Please help us help our future generations to prosper. Please support SB 685 and 686-- we need to have a steady, dependable income source for our public school children. As a teacher from the Big Island, in West Hawaii we serve an amazing potpourri of languages and cultures--one source says we are the "most diverse student population" in the nation. Our students come from a wide variety of countries and cultures, and our resources are desperately stretched to meet all their individual needs. If we truly honor our reputation as a "melting pot of America", where a variety of cultures and languages are honored and respected, then we need to show our support by FULLY FUNDING EDUCATION. A dependable funding source (ie: property tax measures that dedicate \$ to education) would greatly enhance our public education system. Please support 683 and 686. Thank you, Toni Reynolds

SB 683 and SB 686 RELATING TO EDUCATION.

TUESDAY, March 14, 2017

Mitzie Higa  
Hawaii State Teachers Association Government Relations  
Teacher Lobbyist

My name is Rosemary Summers. I am a teacher from the Windward District on Oahu. Please pass SB 683 and SB 686 to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but also for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because it will benefit the children of Hawaii's future. As a teacher I love my students and sometimes feel so sad that our country/state does not support public education more. Public education is the heart of America. It is our responsibility as adults to make sure that we set up our students for a successful future and we'll do that best by funding their education. As an educator I get about \$400 per year for a class of 20 - 30 students. I do not mean to be ungrateful but it is not enough. Because I love and care about my students I spend up to an additional \$800 a year to help pay for supplies and computer programs that will help my students succeed. If you fund children's education the future dividends have no equal! Quality funded education offers children a chance to make something better of their lives! Without quality-funded education our society will suffer! Students spend more time at school than they do with their parents! Please help us, the teachers, help give the students of Hawaii a quality education by funding education.

Pay is a big struggle for us island public school teachers. I grew up in Hawaii. I love it here and hope so much to stay till the end of my days. The only reason I can afford to stay here is because as a 37-year-old single adult I live at home with my parents. I am happy I have this available to me, but I know that others are not so fortunate to have a place where rent is cheaper. As teachers we are not asking to be made rich, we are just asking for a fair pay - one that matches the cost of living here in Hawaii so that we can stay, not need a second or third job, in order to provide stability in our students lives. It is difficult every time a new teacher starts here in Hawaii and then leaves a year later because the pay is not enough for them to make it. As a permanent teacher it means you have to help train a new batch of teachers each year. If teachers could afford to live here the consistency would be better for the

students. In my 6 years of teaching here I have already seen many new teachers come and go because it is too hard to make it in Hawaii. As a teacher we wear many hats - we are a teacher, a counselor, a motivator, a disciplinarian, a psychologist, a cheerleader, a second mother or father, and the list goes on. Our job is not just from an 8 - 3 pm job. I don't mean to be ungrateful, but it is never ending. My colleagues and myself spend countless hours before school and after school working beyond contracted time. My colleagues and myself bring papers home to grade, lesson plans to be made, and make phone calls and send emails to parents. I don't mind going above and beyond for my job, but it is unreal how much a teacher goes above and beyond for their job with no extra monetary support. So teachers get a second or third job and sadly that sometimes affects how well they do their most important job, which is teaching, because they are tired or have other stressors in their lives. If the pay matched the price of living the state wouldn't have to go to other states to try to recruit new teachers. These new teachers are not here for the long haul, as a permanent resident is! This does not make education in Hawaii better, it makes it more chaotic and never stable. New teachers mean less experience, which means the teacher, is learning as they teach the child, which is often times not as effective. Teaching tends to be a "woman's" profession, so sometimes I wonder if it was a "man's" profession if the pay would already be higher.

Please know that I love what I do! I love working with children and seeing them grow and progress, but I also want to make it! I want to be able to live beyond paycheck to paycheck. I want to know that I can save enough to have a solid retirement. Please support Hawaii's children by supporting Hawaii teachers! Don't go beyond Hawaii - say yes to Hawaii teachers and know that they we do and

will continue to be working hard for the good of Hawaii's future...the children!

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Rosemary Summers, Windward District, Oahu

Dede Heiman	Individual	Oppose	No

Comments: Non-residents should not be taxed extra for teacher compensation or school improvements. I am absolutely opposed to these bills, SB683 and 686, , since they would make at least 30% of island rentals extremely costly to rent. The higher the cost of providing accommodations, the higher amount we have to charge our long-term renters. I agree with funding education, but not using these bills as taxation without representation disguised as a constitutional amendment. As an off-island investor who cannot vote, I have very little influence on the Hawaii representatives in my zip code regarding the constitutional amendment that SB 686 and 683 will produce. I would favor creating a lower bracket than \$7.50 per \$1000 of value for non-residents who have invested heavily in real estate. This will create a perverse incentive to defer maintenance for these costly to upkeep homes. In turn, these heavily taxed properties will provide less revenue to the local economy when contractors are working less due to the huge burden of this assessment on the properties. I will have to substantially increase my long-term tenants' rent above the monthly rent and GET. I may have to go to the short term market to avoid a negative cash flow with an additional \$1k rent a month from the assessment. I believe it will cause a steep drop in home value as well as the removal of said class of properties off the market once the owners move into their residential Class A properties to avoid this excessive tax. This assessment will not only discourage real estate investment, but will hurt long term renters. Those renters drive a very lucrative luxury economy. Dede Heiman

Comments: How does this guarantee schools will be more accountable or teachers will get paid more? Why should the State dip into the Counties main source of income? Why shouldn't parents have a little skin in the game when it comes to their children's education?

**To:** EDNtestimony

Dear Chair Woodson and Members of the Committee:

My name is Laura Burton. I am a teacher from Hanalei on Kauai. I am submitting testimony in support of **SB 683** and **SB 686** to increase funding for public schools.

Our children are our future. When teachers instruct their students, they build the foundation for equality and prosperity for tomorrow's generations. Every dollar invested in our community's public schools yields exponential returns, not just for our economy, but for the promise of a more open and democratic society.

Supporting these proposals will lift Hawai'i's schools into the 21st Century. A vote for these measures is a vote for lower class sizes that allow teachers to connect with their students, whole child education that includes the arts and Hawaiian studies, providing resources and services for students with special needs, and professional pay that reflects the value of our hardworking teachers.

We need additional funding for our public schools, because our teachers have been taking hits on our Health Insurance increases for the past 3 years. The past 2 years, the increases absorbed any pay increase we hoped to receive. This year, it will put teachers in the negative \$50 - \$150 per month. Our teachers are barely able to live on our incomes as they are, and many teachers working 2nd and 3rd jobs. Our keiki deserve better! They deserve our full attention and readily prepared teachers. They deserve Highly Qualified and experienced teachers. In our current situation, with few new teachers coming on board and many teachers leaving the state, due to high cost of living and such low pay, we need to keep the quality teachers that we do have. Materials and resources are great, but more importantly, you need well educated and experienced teachers to present the material, to engage students and to prepare these amazing young people for the future.

With the current trajectory, losing more and more pay to Health Insurance increases, without pay increases to balance them, I too, may have to leave the state in the next 1-2 years. This saddens me deeply.

To deliver the schools our keiki deserve, please support these bills. We need your help. Mahalo.

Thank you for hearing my testimony,

Laura Burton  
Teacher, Kauai

**From:** Ryan McGill <ryanmakai@gmail.com>  
**Sent:** Wednesday, March 15, 2017 7:00 AM  
**To:** EDNtestimony  
**Subject:** Testimony in support of SB 683 and SB 686

Chair Woodson and Members of the Committee:

Aloha. My name is Ryan McGill. I am a teacher from Hanalei School on Kaua'i. I am submitting testimony in support of SB 683 and SB 686 to increase funding for public schools.

I know at our school we are very fortunate to have strong parent and community support. Our PTA is very successful in supporting our school, but without their successful fundraising and generous funding we would have virtually no arts, PE, or enrichment curriculum or instructors at our small school. These programs, and the extra funds that our PTA help provide to purchase technology supplies and classroom materials greatly enrich our students' education. I am sad to think of all the schools that do not have this support and all the students that have to go without these benefits. I believe ALL schools need increased funding to support our new state wide academic strategies and to give our students a well-rounded education and the best opportunities for their future.

Also, as a teacher in my fifth year in the DOE, I am very aware of the high turnover amongst teachers, and I am feeling the pressure myself. Living here on Kaua'i, and with a young daughter about to enter preschool, I am realizing that the important work I do is not bringing in enough income for me to support my family. I am realizing that for me to be able to give my daughter a valuable head start on her education, I will need to either take a second job, or find another way to make a living that generates more income. I know I could make more money working in the tourist or service sector, but I do really enjoy what I do, working with my school to help educate our keiki. It would make me very sad to leave my school, but like many teachers I have seen in the same situation, I will have to make my family the first priority. I wish I did not have to choose. I hope that some attention can be given to this issue before we lose more good quality teachers because we are not paying them what they deserve as skilled professionals, and what they need to support their families with the high cost of living in Hawaii.

Mahalo for your consideration, and your support of education.

Sincerely,  
Ryan McGill
