Testimony for AEN on Jan 30, 2017 13:15PM in Conference Room 224

Submitted By	Organization	Testifier Position	Present at Hearing
David Z. Arakawa	Land Use Research Foundation of Hawaii	Support	No

Comments: The Land Use Research Foundation of Hawaii (LURF) SUPPORTS SB 771, which is to authorize the issuance of general obligation bonds to make capital improvements to the State's irrigation systems. Reliable irrigation is considered the lifeline of Hawaii's agricultural industry, and LURF understands that the capital improvements could include the building of, among other things, timely repair and maintenance improvements; more water storage capacity, backup well systems to ensure water security for farming; and that these capital improvements will provide long-term benefits in improved system efficiency as well as in planning for natural disasters such as droughts or for potential system failure. Given the increasing number of extended drought events caused by climate change, funding for capital improvements and timely repair and maintenance for the Hawaii's irrigation systems is necessary to ensure that Hawaii's agricultural crops receive a steady and dependable supply of water. LURF respectfully urges your favorable consideration of this measure.
