Governor

SHAN S. TSUTSUI
Lt. Governor

State of Hawaii
DEPARTMENT OF AGRICULTURE
1428 South King Street
Honolulu, Hawaii 96814-2512
Phone: (808) 973-9600 FAX: (808) 973-9613

SCOTT E. ENRIGHT
Chairperson, Board of Agriculture

PHYLLIS SHIMABUKURO-GEISER
Deputy to the Chairperson

**TESTIMONY OF SCOTT E. ENRIGHT
CHAIRPERSON, BOARD OF AGRICULTURE**

BEFORE THE SENATE COMMITTEE ON WAYS & MEANS

**FEBRUARY 23, 2017
1:30 P.M.
CONFERENCE ROOM 211**

**SENATE BILL NO. 808
RELATING TO THE HAWAII ASSOCIATION OF CONSERVATION DISTRICTS**

Chairperson Tokuda and Members of the Committee:

Thank you for the opportunity to testify on Senate Bill 808. This bill appropriates funds to the Hawaii Association of Conservation Districts (HACD) to assist with its staffing and operating costs. The Department of Agriculture supports this bill, but ultimately defers to the Department of Land and Natural Resources.

Proper conservation practices are essential to a farmer's success, and conservation plans are an important tool for farmers to use in order to maximize soil retention by implementing erosion and sediment control best management practices. HACD can provide farmers with the technical expertise needed to create their own conservation plans. With an approved conservation plan, farmers will be able to attain necessary permissions prior to clearing and grading their land to prepare it for planting and to put new lands into production.

Thank you for the opportunity to present our testimony.

DAVID Y. IGE
GOVERNOR OF HAWAII

**STATE OF HAWAII
DEPARTMENT OF LAND AND NATURAL RESOURCES**

POST OFFICE BOX 621
HONOLULU, HAWAII 96809

**Testimony of
SUZANNE D. CASE
Chairperson**

**Before the Senate Committee on
WAYS AND MEANS**

**Thursday, February 23, 2017
1:30 P.M.
State Capitol, Conference Room 211**

**In consideration of
SENATE BILL 808
RELATING TO
THE HAWAII ASSOCIATION OF CONSERVATION DISTRICTS**

Senate Bill 808 proposes to appropriate \$450,000 of general revenues in Fiscal Year 2017-2018 and Fiscal Year 2018-2019 for operating expenses and staffing costs of the Hawaii Association of Conservation Districts (HACD). **The Department of Land and Natural Resources (Department) supports this bill provided that its passage does not replace or adversely impact priorities indicated in our Executive Budget request.**

The purpose of the Soil and Water Conservation District (SWCD) Program is to educate, construct, maintain, and assist in the development of conservation plans to protect soil and water resources. Each SWCD is operated by a five-member volunteer board. HACD is an umbrella organization formed by the 16 SWCDs under Chapters 180 and 180C, Hawaii Revised Statutes, and administratively attached to the Department. In each of fiscal years 2015-2016 and 2016-2017, HACD and the SWCDs received \$322,500 in general funds, appropriated by Act 84, Session Laws of Hawaii 2015. The Department notes that the SWCD Program does not have a base budget appropriation and funding would be required for the continuance of their activities.

Thank you for the opportunity to comment on this measure.

HEARING BEFORE THE
SENATE COMMITTEE ON WATER AND LAND

TESTIMONY ON
SB 808: RELATING TO HAWAII ASSOCIATION OF CONSERVATION DISTRICTS

Room 211

1:30 PM

Aloha Chair Tokuda, Vice Chair Dela Cruz, and Members of the Committee:

I am Karen Ah Mai, Chairperson of the South Oahu Soil and Water Conservation District (SWCD) and representing the Hawaii Association of Conservation Districts (HACD), which is comprised of 16 Hawaii Soil and Water Conservation Districts (SWCDs) across the state. With the first District organized in 1948, the SWCDs are mandated by HRS §180 and comprised of volunteer directors. Many of the SWCD directors are also farmers and ranchers. They have a great understanding of the various issues related to agriculture, land use, conservation and the importance of servicing our communities.

The Hawaii Association of Conservation Districts strongly supports SB808, providing funding for staffing and operations of HACD. HACD greatly appreciates the support provided by the legislature and the long standing contribution by the State of Hawaii to the SWCDs.

HACD and the 16 Hawaii SWCDs are a prime example of a successful partnership between the State, County, Federal and private partnerships, with funding requested by DLNR that represent the State's share of this unique partnership.

Public/Private Partnership for FY2016

- **Federal** (cash and in kind): \$500K **State:** \$332K **County:** \$500K
- SWCD board members and volunteers donate in excess of 17,280 hours annually.
 - Multiply this out by a nominal \$25/hr consulting rate and this adds \$432k to the value of the partnerships;
- State funding then becomes a modest investment, leveraging every State dollar (\$332K) 4.3 times to \$1432K of agricultural based services.

Resource conservation and Protection Projects (examples)

A conservation plan (similar to a blueprint for a house) is a blueprint for managing ranches, farms and conservation lands. This plan not only helps the owner of the plan, but also helps to protect neighboring properties from runoff and streams from being polluted by inadvertent practices.

By assisting farmers and ranchers with technical support and in developing and processing conservation plans, the SWCDs help to address such issues as erosion, grading and grubbing, runoff, and water quality in general. We also help to provide outreach and help educate our youth and the educators who teach them. Assisting the members in our community is a priority for HACD and the SWCDs, which benefits everyone throughout the state.

In addition to assisting farmers, ranchers and landowners prepare and implement conservation plans; the organization seeks funding and implements projects across the State. Examples include:

- On Maui, Water Source Development for the Community, e.g. Kahakapao Reservoirs
- On Kauai, Assisted DLNR in the Permitting and Construction Phase of the Hanalei Project
- On Hawaii, watershed-based plans like the Waiulaula Watershed Management project
- On Oahu, EPA-funded 319(h) Water Quality Projects, such as the Ala Wai Watershed Project to control and reduce soil erosion, and prevent and reduce sediment reaching the ocean waters
- On Molokai, the Moomomi Watershed Project with the same objectives

Increased need of services due to extremes in weather conditions; SWCDs actively implement programs to protect and restore communities from natural disasters. Forecasts indicate extreme drought and flooding in future years. Examples of implemented projects include:

- Lahaina Temporary Flood Control Project
- Funding to haul water to drought impacted farmers and ranchers.

The investment by the State of Hawaii is a critical component to enable our SWCDs to continue their programs, as listed above, and will be leveraged with Federal and County funds to help make the greatest impact. With all of our SWCD Directors being volunteers, we hope that the Legislature can see the value and importance that our program has made on our Island communities. We sincerely appreciate your time and respectfully request your **support in passing SB 808**.

Attached is a detailed accounting of our funding request and a brochure describing HACD activities. As an alternative to this separate appropriation, **HACD REQUESTS THAT THE FUNDING BE PLACED IN THE DLNR BASE BUDGET**. Should you have any questions, please contact Michelle Watkins, HACD Executive Director, 808-230-4228.

We appreciate this opportunity to provide our input on this important matter.

FY2018 and FY2019 HACD/SWCD YEARLY BUDGET PROPOSAL

No. Item	Total #, Hrs/ Trips/Units	Hourly Rate/ Unit Cost	Full year Funding
A. ¹ Personnel Services			
Professional Staff: 40hrs/wk x 52weeks			
Conservation Specialist's (1 ea.: HI, Kauai, Maui, Oahu)	4	\$60,000.00	\$240,000.00
Executive Director	1	\$57,000.00	\$57,000.00
Grand Total for Item A			\$297,000.00
B. Travel/Training (airfare, per diem, reg fees, etc.)			
CS travel/training	4	\$1,200.00	\$4,800.00
² SWCD National Training- National staff to HI for training and/or SWCD rep to attend national training	16	\$1,200.00	\$19,200.00
² SWCD Travel- State HACD Quarterly Board Meetings	16	\$800.00	\$12,800.00
NACD National Meetings- HACD Rep- 2 meetings or 2 people for 1 meeting: DC, Annual & Pacific	2	\$4,000.00	\$8,000.00
HACD Travel: President, Officers, Legislative Committee Member, Exec. Director- Interisland Travel for Meetings	1	\$8,500.00	\$8,500.00
Grand Total for Item B			\$53,300.00
C. Operating Costs			
CS Office Supplies, NRCS security clearance, advertising, etc..	4	\$1,500.00	\$6,000.00
² SWCD Office Supplies: Equipment, postage, paper, copies, reports, etc..	16	\$3,200.00	\$51,200.00
² NACD Dues-National requirement per SWCD	16	\$750.00	\$12,000.00
HACD Expenses: Office Supplies, Monthly phone&internet charges, postage, equipment, yearly D&O Insurance, etc.	1	\$8,500.00	\$8,500.00
Grand Total for Item C			\$77,700.00
D. CS Misc. Expenses			
Administrative Fees for CS Management	1	\$22,000.00	\$22,000.00
Grand Total for Item D			\$22,000.00
TOTAL A-D			\$450,000.00

¹ All personnel includes total benefits such as: complete medical coverage, workmans comp., TDI, liability, 401K, vac/sick leave, hourly pay etc...

² SWCD Operating Costs within DLNR budget currently \$2,250/Yr/District (Total=\$36,000/Yr); request increase to operate and pay NACD dues, attend required monthly meetings, etc.

MAHALO TO OUR PARTNERS

Federal Partners

USDA Natural Resources Conservation Service,
<http://www.pia.nrcs.usda.gov>
 NRCS is the main technical assistance provider for the 16 SWCDs in Hawai'i. District planners work out of NRCS Field Offices and all of our conservation plans are done according to NRCS standards.

USDA Farm Service Agency,
<http://www.fsa.usda.gov/FSA/>
 FSA administers and manages farm commodity, credit, conservation, disaster and loan programs. Hawaii farmers produce a variety of agricultural commodities, and the Hawai'i FSA strives to serve our unique agricultural communities with farm programs and low-interest loans.

Environmental Protection Agency,
<http://www.epa.gov/region09/>
 EPA strives to protect human health and the environment nationwide. In Hawai'i, EPA develops and enforces regulations, provides financial assistance for environmental programs, sponsors volunteers, and expands the community's knowledge of the environment through education and research.

USDA Rural Development,
<http://www.rurdev.usda.gov/hi/>
 RD seeks to meet the needs of our diverse rural population by delivering Rural Development programs and services in housing, rural utilities, and business-coops.

State of Hawai'i Partners

Department of Land & Natural Resources,
<http://www.hawaii.gov/dlnr>
 As a sub-entity of the State, HACD falls under the State of Hawai'i DLNR. DLNR has a wide range of responsibilities, ranging from land management and permitting to historic preservation and natural resources conservation.

Department of Health – Clean Water Branch,
<http://health.hawaii.gov/cwb>
 The State of Hawai'i DOH aims to protect and improve the health and environment for all people in Hawai'i. Its Clean Water Branch focuses on keeping our inland and coastal waters healthy, and directs the Polluted Runoff Control Program, which administers grant money from EPA through Section 319(h) of the Federal Clean Water Act to address polluted runoff throughout the State.

University of Hawai'i Cooperative Extension Service,
<http://www.ctahr.hawaii.edu/site/extprograms.aspx>
 UH Extension Service provides science-based information in agriculture, natural resources and human resources. Its Agricultural Diagnostic Service Center provides insect identification and disease diagnosis; soil, plant, water and feed analysis; and seed sales of cultivars of vegetables and papayas developed by the College.

Coastal Zone Management Program,
<http://www.hawaii.gov/dbedt/czm/>
 The Hawai'i CZM Program partners several environmental programs in Hawaii to promote a sustainable coastal environment by building upon our heritage and inspiring island stewardship.

County Partners

County of Kaua'i,
<http://www.kauai.gov/>
 Kaua'i County serves the transportation, safety, environmental and developmental needs of Kaua'i citizens. The County has been actively supporting East & West Kaua'i SWCDs activities for many years.

City & County of Honolulu,
<http://www.honolulu.gov/>
 The City & County of Honolulu offers a variety of services to the citizens of O'ahu. Over the past 2 years, the City has helped fund two O'ahu SWCDs planners through the O'ahu RC& D.

County of Maui,
<http://www.co.maui.hi.us/>
 Maui County encompasses the islands of Maui, Molo-ka'i, Lāna'i and Kaho'olawe. The County has offered financial and in-kind support for the Maui SWCDs over many years.

County of Hawai'i,
<http://www.hawaii-county.com/>
 In addition to the many services it offers, Hawai'i County is a long standing supporter of the Hawai'i Island SWCDs.

Non-Profit Partners

HAWAII FARM BUREAU **Hawai'i Farm Bureau Federation,**
<http://www.hfbf.org/>
 The Hawaii Farm Bureau is a non-profit organization that promotes local farming by analyzing issues and formulating actions to ensure the future of Hawai'i agriculture. Issues include taxes, land use, water, legislative activity and marketing. All agricultural producers are strongly encouraged to join.

Resource Conservation & Development,
<http://www.pacrimrcd.org/>
 NRCS established the RC & D program to accelerate natural resources conservation and development and utilization of natural resources. RC & D groups improve the capability of state and local agencies in rural areas by focusing efforts and assistance on individual producers.

O'ahu RC & D: <http://www.oahurcd.org/>
 Garden Isle RC & D: <http://www.gircd.org/>
 Tri Isle RC & D: <http://tri-isle.org/>
 Big Island RC & D: <http://www.bigislandrcd.org/>

CONSERVATION EDUCATION

COMMUNITY OUTREACH

Hawaii Association of Conservation Districts
sustainable quality of life through visionary conservation

Who we are

The Soil & Water Conservation Districts are legally constituted, self-governing units under the Hawaii Soil and Water Conservation Law, Chapter 180, Hawaii Revised Statutes. We were organized under the State Department of Land and Natural Resources for the protection and conservation of soil and water resources in the interest of the health, safety, and general welfare of people in this region.

What we do

- ◆ **Conservation Planning**
- ◆ **Public Outreach**
- ◆ **Special Projects**

A voluntary board cannot adequately provide enough time to initiate, implement, and support its program.

Conservation Education Program

- Sammy Soil & Ruby Raindrop
- Conservation Awareness Program - Land Judging Contest
- Conservation Poster Contest
- Make a Splash with Project WET (Water Education for Teachers)
- Hanalei Elementary School Conservation Education Area.
- Fireweed Eradication and Education Project
- Agricultural Road Drainage Techniques
- Created a Windbreak educational video.
- Animal waste management, stream bank protection, and erosion control to assist farmers in employing better practices workshops
- Hanalei Valley Irrigation Intake Protection/ Streambank Stabilization Preliminary Investigation Project
- Demonstration and Training in Critical Area Stabilization Techniques on Agricultural Roads and Unprotected Waterways
- Year of the Soil - Soil Health Workshops throughout the state
- Educate elected officials as to what our community's resource concerns are and how to address them
- Kona's Native Hawaiian Plant Book

Community Outreach

- USDA Grant Programs to Improve and Protect Ag and Conservation Lands
- Maui Fair
- Hawaii State Capitol Ag Day
- Ag Fest
- Watershed Education for elementary and high school students, and community organizations.
- Initiating optimum water utilization meeting with the community and landowners.
- Coordinated Resource Management Plan

(CREP)

- Worked with County, State, and Piihonua Community Association on gaining visible access to Diversion No. 4 of the Wailuku/Alenaio Inspection Project.
- Earth Day

Other Miscellaneous Items

- Lanai and Molokai Market Places
- Molokai Heifer Program
- Coqui Frog Eradication Program
- Miconia Eradication Program
- Maui Invasive Species
- Animal Stocking & Quarantine Station
- Community Wildfire Protection Plans
- MoMISC – Molokai (Maui) Invasive Species Committee
- Molokai Agricultural Community Program
- Molokai Recycling Center Proposal
- Molokai Heifer Project
- Molokai Junk Car Removal
- Maalaea Wind Farm project.
- Developed a Hawaiian Arboretum in Wailua.
- Kekaha Game Management Area
- Participate in the Kauai County Drought Mitigation Committee.
- Kupulena Ag Park Development
- Applied for funding from the Bureau of Reclamation to haul water to 291 landowners, farmers, ranchers and residential property owners who do not have access to the municipal water supply and are being affected by severe drought conditions.
- Ahu Lani Sanctuary Restoration Project

For a complete list of SWCD partnership projects, visit <https://dlnr.hawaii.gov/swcd> or email hacdhawaii@gmail.com

SOME OF SWCDs' STATEWIDE PARTNERSHIP PROJECTS

Conservation Planning

- State DLNR Requirements for Conservation Plans on All New Land Leases
- Develop and Review Conservation Plans
- Review and Comment on County Grading and Grubbing Plans
- Honolua Bay Coral Reefs Initiative Projects.
- Rural Water Project
- Molokai Ag Development Projects
- Maui Ag Development Projects Phase 1, 2
- Kanae Water Flume Restoration Project
- Kahakuloa Stream Intake Project
- Guidelines to Hawaii State Livestock Waste Management
- Assisted DLNR in the Permitting and Construction Phase of the Hanalei Project
- Operations and Maintenance Inspection of the Wailuku/Alenaio Project.
- Irrigation Project at Kokee
- Improved Access of Hoopii Pond
- Ookala Re-forestation Project.
- Native species vegetation restoration plan, fire management plan, sediment management plan and educational materials
- Agricultural Road Stabilization Project at Pioneer Hi-Bred's Waimea Research Center.
- Restore irrigation systems abandoned by Lihue Plantation Co.

Watershed Planning and Projects

- West Maui Ridge to Reef Initiative
- Honolua Watershed Project
- West Maui Algae Bloom Projects
- Lahaina Interim Flood Control Project
- Lahaina Watershed Project
- West Maui 319 Projects
- Puamana Channel Maintenance Project
- Lahainaluna High School Drainage Improvement Project

- State Land Terraces – Lahaina
- Sugarcane Diversion Improvements
- Kamehameha School Diversion Improvements
- Feral Animal Control Fencing Project
- Upcountry Dual Waterline
- TAKO POKE Project: construction of multiple Best Management Practices (BMPs) within drainage ways mauka of Wailea/Kihei.
- Watershed Base Plan for South Molokai
- Kula Storm Water Reclamation Study
- Southwest Maui Watershed Based Plan.
- Moomomi Watershed Project
- Emergency Watershed Protection (EWP)
- Kekaha Watershed Project
- Lower Hamakua Ditch Project
- Hilo Bay Watershed-Based Restoration Plan to improve water quality in Hilo Bay.
- Emergency Funding for Flood Damages and Prevention on North Shore Kauai
- Emergency response funding through NRCS for Hurricane Iniki in 1992
- Ulumalu-Peahi Water Line Distribution
- Kahoolawe Restoration Project
- Operations and Maintenance Inspection of the Naalehu Debris Basin Watershed project.
- Pelekane Bay Watershed Project
- Proposing studies to determine and address runoff into Kealahou Bay.
- Manawainui Watershed Implementation Project
- Waiahewahewa Watershed Project
- Sponsored the Hanalei River Suspended Sediment Monitoring Project
- DOH Agreement to perform baseline survey of Makeahua Gulch
- DOH Agreement to update CRMP Waiulaula Watershed Management
- Waipio Valley Flood Damage Reduction and Stream Stabilization Preliminary Investigation
- Kona SWCD Flood Control Structure Inspections and Assists with Flash Flood Damage Assessments

1 - Identify Problems and Opportunities

Planning can start with a problem, an opportunity, shared concerns, or a perceived threat.

2 - Determine Objectives

The stakeholders identify their objectives.

3 - Inventory Resources

Appropriate natural resource, economic and social information for the planning area is collected.

CONSERVATION PLANNING

4 - Analyze Resource Data

Study the resource data and clearly define existing conditions for all of the natural resources, including limitations and potential for the desired use.

5 - Formulate Alternatives

to achieve the goals for the land, by solving all identified problems, taking advantage of opportunities, and meeting the social, economic, and environmental needs of the planning project.

6 - Evaluate Alternatives

to determine their effectiveness in addressing the client's problems, opportunities and objectives.

Conservation Plan

7 - Make Decisions

The land owner/manager chooses which project or plan will work best for their situation.

8 - Implement the Plan

Technical assistance is provided to help with the installation of adequate and properly-designed conservation practices.

9 - Evaluate the Plan

Conservation planning is an ongoing process that continues long after the implementation of a conservation practice.

February 23, 2016

HEARING BEFORE THE
SENATE COMMITTEE ON WAYS AND MEANS

TESTIMONY ON SB 808
RELATING TO HAWAII ASSOCIATION OF CONSERVATION DISTRICTS

Room 211
1:30 PM

Aloha Chair Tokuda, Vice Chair Dela Cruz, and Members of the Committee:

I am Randy Cabral, President of the Hawaii Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,900 farm family members statewide, and serves as Hawaii's voice of agriculture to protect, advocate and advance the social, economic and educational interests of our diverse agricultural community.

The Hawaii Farm Bureau strongly supports SB 808, providing funding for staffing and operations of the Hawaii Association of Conservation Districts (HACD).

HFB appreciates the support provided by the legislature to the Hawaii Association of Conservation Districts. This program is an excellent example of successful public-private partnerships that brings benefit not just to farmers and ranchers, but to everyone in the State of Hawaii. We support the position of HACD.

The Soil and Water Conservation Districts were born out of the efforts of farmers who saw the value in implementing conservation practices. No laws told them they had to do it. It was common sense. You protect the resource that grows the crops and raises the livestock that you depend on. These districts provide an excellent example of public private partnerships and how Federal, State and County governments can leverage resources to accomplish more than each can do for themselves.

Over the years, the Districts have also originated major water projects across the State bringing in Federal dollars to be matched by State resources. Today, we have two projects remaining and HACD continues to work with our Congressional Delegation to complete the Upcountry Dual line and the Lahaina Flood Control Projects. Drought mitigation is a major concern for farmers and ranchers. We are constantly looking for ways in which we can partner with USDA NRCS to implement programs in Hawaii.

While the conservation districts are most often associated with preparation and approval of conservation plans, the scope of their activities are much broader. As part of the

National Association of Conservation Districts, we have access to material that can help the state agencies meet regulatory requirements. For example, those Counties involved in MS4 or Municipal Stormwater requirements by EPA, have education requirements. Each year, there is a focus area across the country. 2017's topic is "Where does your Water shed?" educating children about where water comes from and the need to be cognizant about practices such as oil discharges from your cars that may end up in the storm drain or dumping hazardous wastes where it can end up in streams. These are programs that can be implemented by Districts as part of their outreach. By funding the Districts, you contribute to their capacity to carry out these tasks.

Another example is Soil Judging. Each year, students across the state enter a contest to test their abilities to correctly identify, evaluate, classify, and describe soil profiles and their applicability for various uses including housing. Did you know that Hawaii students have consistently placed in National competitions that take place in Oklahoma each year? Through these experiences, students have developed an interest in pursuing careers in agriculture.

HFB strongly supports the position as stated by HACD. We agree that placing this funding as a line item in the DLNR budget is prudent. We respectfully request your strong support of funding the Hawaii Association of Conservation Districts and placing them as a line item in the DLNR budget.

Thank you for the opportunity to testify on this measure.

Hawaii Cattlemen's Council, Inc.

COMMITTEE ON WAYS AND MEANS
Senator Jill N. Tokuda, Chair
Senator Donovan M. Dela Cruz, Vice Chair

DATE: Thursday, February 23, 2017
TIME: 1:30 PM
PLACE: Conference Room 211

SB 808 – RELATING TO THE HAWAII ASSOCIATION OF CONSERVATION DISTRICTS.

Makes an appropriation to the department of land and natural resources for the operational expenses and staffing costs of the Hawaii association of conservation districts.

Chair Tokuda, Vice Chair Dela Cruz, and Members of the Committee:

My name is Dale Sandlin, and I am Managing Director of the Hawaii Cattlemen's Council. The Hawaii Cattlemen's Council, Inc. (HCC) is the Statewide umbrella organization comprised of the four county level Cattlemen's Associations. Our 150+ member ranchers represent over 60,000 head of beef cows; more than 75% of all the beef cows in the State. Ranchers are the stewards of approximately 25% of the State's total land mass.

The Hawaii Cattlemen's Council **strongly supports** SB 808 as this bill provides critical funding for a vital component of agriculture in Hawaii.

The 16 Soil and Water Conservation Districts in Hawaii works with farmers and ranchers to protect and promote good soil and water management practices in the state.

While these Districts are a quasi-governmental board und the Department of Land & Natural Resources, they remain staffed through volunteer District Directors and are severely underfunded by the State. They often receive little assistance and support in their work to provide a vital resource for the people of Hawaii.

We ask that this committee support this bill, as it provides the funding the Districts need to continue their service.

Thank you for giving us the opportunity to testify on this important matter.

Position: Support

Chair Tokuda, and Members of the Senate WAM Committee:

I am Larry Jeffs, owner and operator of Larry Jeffs Farms, LLC, which is part of our family-run business of farms on Oahu and Molokai, under the administrative umbrella of Sugarland Growers, Inc. We have more than 35 years of Hawaii farm experience on Molokai and Oahu. I am a volunteer director for the West Oahu Soil and Water Conservation District (SWCD).

The SWCD framework and authority were created through HRS 180. It helps farmers and ranchers with conservation plan development as well as assist respective County governments' with grading permit and plan reviews. Throughout the State, 80 volunteer directors in 16 SWCD work with local area partners to accomplish its work that includes conservation and environmental education outreach.

Your support of this funding request will go far toward strengthening environmental stewardship of agriculture soil and water use, particularly as Hawaii welcomes many new farmers and ranchers. It will also facilitate eligibility of farmers and ranchers for federal and state programs that require conservation plans and its implementation at the farm or ranch level.

Thank you for the opportunity to present testimony

February 21, 2017

Senator Jill N. Tokuda, Chair
Senator Donovan M. Dela Cruz, Vice Chair
Senate Committee on Ways and Means
State Capitol, 415 S. Beretania St.
Honolulu, Hawaii 96813

Dear Chair Tokuda, Vice Chair Dela Cruz, and Members of the Committee:

The Hawaii Aquaculture and Aquaponics Association **strongly supports SB 808**, "Relating to the Hawaii Association of Conservation Districts." The conservation districts provide essential services to Hawaii's farmers, aquafarmers, and ranchers including education, conservation plans, and permitting. By encouraging sustainable agricultural practices, they help to ensure that Hawaii's environment and its agricultural productivity are preserved for future generations. The conservation districts' funding is already strained, and demand for the districts' services will only expand if Hawaii is to become more self-sufficient in agricultural production. Therefore, we urge you to support increased funding for the conservation districts by passing SB 808.

Thank you for the opportunity to testify on this important matter.

Sincerely,

A handwritten signature in cursive script that reads "Frederick M. Mencher". The signature is written in black ink and is positioned above the printed name.

Frederick M. Mencher

Testimony by
Hawaii Government Employees Association

February 23, 2017

S.B. 808 - RELATING TO THE HAWAII
ASSOCIATION OF CONSERVATION DISTRICTS

The Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO has concerns with the intent of S.B. 808 which appropriates moneys to the Department of Land and Natural Resources for the operational expenses and staffing costs of the Hawaii Association of Conservation Districts.

The purpose to educate the public and construct and maintain conservation projects and programs in Hawaii, review each county's grading permits and conservation plans, and to educate all farmers, including immigrant farmers on government services and the processes in filing for permits is beneficial to the State of Hawaii. However, the concern is that any moneys that are appropriated are intended to hire private staff. Should the legislature appropriate moneys, it should be to hire additional Department of Land and Natural Resources employees.

Thank you for the opportunity to submit comments for S.B. 808.

Respectfully Submitted,

Randy Perreira
Executive Director

HEARING BEFORE THE
SENATE COMMITTEE ON WAYS AND MEANS

TESTIMONY ON
SB 808: RELATING TO HAWAII ASSOCIATION OF CONSERVATION DISTRICTS

Room 211
1:30 PM

Aloha Chair Tokuda, Vice Chair Dela Cruz, and Members of the Committee:

I am Michelle Watkins, Executive Director of the Hawaii Association of Conservation Districts. HACD is comprised of 16 Hawaii Soil and Water Conservation Districts (SWCDs). With the first District organized in 1948, the SWCDs are mandated by HRS §180 and comprised of volunteer directors. Many of the SWCD directors are also farmers and ranchers. They have a great understanding of the various issues related to agriculture, land use, conservation and the importance of servicing our communities.

I strongly support SB808, providing funding for staffing and operations of HACD. HACD greatly appreciates the support provided by the legislature and the long standing contribution by the State of Hawaii to the SWCDs.

HACD and the 16 Hawaii SWCDs are a prime example of a successful partnership between the State, County, Federal and private partnerships, with funding requested by DLNR that represent the State's share of this unique partnership.

Public/Private Partnership for FY2016

- **Federal** (cash and in kind): \$500K **State:** \$332K **County:** \$500K
- SWCD board members and volunteers donate in excess of 17,280 hours annually.
 - Multiply this out by a nominal \$25/hr consulting rate and this adds \$432k to the value of the partnerships;
- State funding then becomes a modest investment, leveraging every State dollar (\$332K) 4.3 times to \$1432K of agricultural based services.

Resource conservation and Protection Projects (examples)

A conservation plan (similar to a blueprint for a house) is a blueprint for managing ranches, farms and conservation lands. This plan not only helps the owner of the plan, but also helps to protect neighboring properties from runoff and streams from being polluted by inadvertent practices.

By assisting farmers and ranchers with technical support and in developing and processing conservation plans, the SWCDs help to address such issues as erosion, grading and grubbing, runoff, and water quality in general. We also help to provide

outreach and help educate our youth and the educators who teach them. Assisting the members in our community is a priority for HACD and the SWCDs, which benefits everyone throughout the state.

In addition to assisting farmers, ranchers and landowners prepare and implement conservation plans; the organization seeks funding and implements projects across the State. Examples include:

- On Maui, Water Source Development for the Community, e.g. Kahakapao Reservoirs
- On Kauai, Assisted DLNR in the Permitting and Construction Phase of the Hanalei Project
- On Hawaii, watershed-based plans like the Waiulaula Watershed Management project
- On Oahu, EPA-funded 319(h) Water Quality Projects, such as the Ala Wai Watershed Project to control and reduce soil erosion, and prevent and reduce sediment reaching the ocean waters
- On Molokai, the Moomomi Watershed Project with the same objectives

Increased need of services due to extremes in weather conditions; SWCDs actively implement programs to protect and restore communities from natural disasters. Forecasts indicate extreme drought and flooding in future years. Examples of implemented projects include:

- Lahaina Temporary Flood Control Project
- Funding to haul water to drought impacted farmers and ranchers.

The investment by the State of Hawaii is a critical component to enable our SWCDs to continue their programs, as listed above, and will be leveraged with Federal and County funds to help make the greatest impact. With all of our SWCD Directors being volunteers, we hope that the Legislature can see the value and importance that our program has made on our Island communities. We sincerely appreciate your time and respectfully request your **support in passing SB 808**.

As an alternative to this separate appropriation, **HACD REQUESTS THAT THE FUNDING BE PLACED IN THE DLNR BASE BUDGET**. Should you have any questions, please contact me at 808-230-4228.

I appreciate this opportunity to provide input on this important matter.

Hawaii Fish Company (HFC), a family-owned North Shore aquaculture farm, testifies in strong support of SB 808 which would appropriate funds for the operational expenses and staffing of the Hawaii association of conservation districts.

HFC has been a beneficiary of the excellent services of this excellent program a number of times over the course of our 35 years in commercial aquaculture farm development and production, most recently in 2016. This program is especially beneficial to the State's numerous small and mid-sized farms who are key to the continued expansion of local food production in Hawaii.

HFC urges your continued support of this important program by passage of SB 808. Thank you for the opportunity to testify in strong support of this measure.

Sincerely,

Ron and Lita Weidenbach
HFC Co-Owners

Comments: Please fund HACD. The work it does for farmers and the environment is invaluable but unfortunately, it is perennially severely underfunded.
