In consideration of  
**SCR 101/ SR 45**  
**REQUESTING THE HAWAII PUBLIC HOUSING AUTHORITY TO DOCUMENT VIATIONS OF THE  
PROHIBITION ON SMOKING IN AND AROUND PUBLIC HOUSING**

Honorable Chair Espero, Honorable Chair Baker, and Members of the Senate Committee on Housing and Senate Committee on Commerce, Consumer Protection, and Health, thank you for the opportunity to provide testimony in opposition to Senate Concurrent Resolution 101 and Senate Resolution 45, requesting the Hawaii Public Housing Authority (HPHA) to permanently document violations of public smoking in and around public housing.

The HPHA is grateful to the Legislature for passing the no-smoking ban at HPHA properties back in 2013, and welcomes efforts to improve the health and well-being of our tenants. However, the HPHA does not feel that this resolution is necessary in the enforcement of the law, as prior to the passage of the no-smoking law, the HPHA adopted administrative rules after consultation with the Resident Advisory Board, our tenants, and the public, and has since adopted lease addendums to administer the no-smoking policy, which already includes documenting violations (below). Any violation of the lease, administrative rules or statute by a tenant is already documented by management, added to the tenant's files and may be used in a case for eviction.

Under the proposed resolution, when a tenant violates the smoking ban in their unit, the HPHA is required to consider that infraction for the life of their tenancy in public housing. This proposal is harsh and unprecedented, as smoking on HPHA property, while unlawful, does not

rise to such a level as to necessitate indefinite punishment, especially for the elderly and disabled. Even if no other smoking violation is committed and the tenant complies with the smoking ban, the HPHA would be required to retain documentation on that incident and consider the incident for years into the future effectively removing any possibility of curing the violation and removing any statute of limitations.

It's important to note that our Resident Advisory Board, representing HPHA tenants across our Asset Management Projects (AMPs), have come out against the passage of this resolution as well as bill HB 829. With the exception of one HPHA tenant, the Authority has not received any complaints regarding the application and enforcement of the smoking law.

Although it is very difficult to administer this policy while tenants are inside their units and during afterhours and weekends while no staff is present, the HPHA has made great efforts and have documented multiple violations as follows:

<b>HPHA Asset Management Project (AMP)</b>	<b>Number of Violations Issued in 2016</b>	<b>Tracks Smoking Complaints from Tenants</b>
30 - Puuwai Momi	15	Yes
31 - Kalihi Valley Homes	4	Yes
32 / 33 - Mayor Wright Homes	3	Yes
34 - Kalakaua Homes	4	Yes
35 - Kalanihua	2	Yes
37 - East Hawaii	0	Yes
38 - Kaua'i	0	Yes
39 - Maui / Moloka'i	0	Yes
40 - Kuhio Homes	0	Yes
42 - Hale Po'ai	1	Yes
43 - West Hawaii	10	Yes
44 - Waimaha Sunflower	0	Yes
45 - Ko'olau Village	0	Yes
46 - North Hawaii	1	Yes
49 - Kauhale Nani	3	Yes
50 - Palolo Valley Homes	0	Yes

The HPHA appreciates the opportunity to provide the Senate Committees on Housing and Commerce, Consumer Protection, and Health with the HPHA's comments regarding SCR 101/SR 45 and ask that this Resolution be deferred. We thank you very much for your dedicated support.

**Position: STRONG SUPPORT**

I would like to thank both of these Committees for giving me the opportunity to testify today, in strong support of these measures, with particular attention to the second-to-last paragraph, stating:

"...the Hawaii Public Housing Authority is requested to permanently retain this documentation in a resident's record for the Authority to consider...", with the operative word there being, "**permanently**".

Last year (2016), two Resolutions with the same intent as these, SCR 87 and SR 58, were passed by these same two Committees with unanimous "yes" votes. I am most grateful -- as a strong advocate for the increased welfare and protection of non-smoking public housing residents -- that these measures were both adopted by the Senate unamended, and hope that by your judicious assessment, you may pass SCR101 and SR45, likewise unamended, for the same reasons.

These Resolutions hark back to the no-smoking statute passed in 2014 by this forward-thinking Legislature, instituted in light of the Surgeon General's statement that no amount of exposure to secondhand smoke is safe. On the same basis, HUD mandated in 2016 all its Public Housing Authorities to go smoke-free, in recognition of this unequivocal public health hazard and the resultant required standard.

However, the Hawaii Public Housing Authority (HPHA) adopted its own rule, which compromises the intent of these mandates, encouraging a climate of laxity and favoritism toward smokers.

Specifically, HPHA has a lease policy whereby a resident may have a documented smoking violation expunged from their record if they agree to attend a smoking cessation program. In theory, this seems a prudent measure to help smokers quit, which is everyone's goal. However, this policy is in practice a very counterproductive measure for

**I very strongly urge you to pass these Resolutions unamended**, for the justice of all non-smokers in public housing who are still at the mercy of unabated secondhand smoke exposure.

Thank you for your consideration of this very important public health issue.
