UNIVERSITY OF HAWAI‘I SYSTEM REPORT

REPORT TO THE 2018 LEGISLATURE

Report on the
Statewide Dark Skies Protection Advisory Committee

Act 185, SLH 2017

December 2017

Act 185, Session Laws of Hawai'i 2017, establishes a Dark Skies Protection Advisory Committee to assist the University of Hawai'i in developing a statewide dark night skies protection strategy. The advisory committee is placed within the University of Hawai'i for administrative purposes. In addition, the University of Hawai'i and the advisory committee were charged with submitting reports to the Hawai'i State Legislature on its initial findings and recommendations, including any proposed legislation, to the legislature no later than twenty days prior to the convening of the regular session of 2018, and thereafter report updated findings and recommendations, including any proposed legislation, to the legislature no later than 20 days prior to the convening of each regular session of 2019, 2020, and 2021.

Due to scheduling conflicts, the advisory committee has not been able to convene an initial meeting. As such, the advisory committee does not have substantive findings and recommendations to report to the 2018 Hawai'i Legislature. Based on past experience with the complex technical and practical issues involved in this area and ongoing discussions with other agencies, including those involved in the advisory committee, we anticipate that the advisory committee will require significant time to arrive at consensus and therefore anticipate reporting initial substantive results for the regular session of 2019.
