REQUESTING THE DEPARTMENT OF TRANSPORTATION TO STUDY THE EFFECTS  
OF PROHIBITING TRUCKS WITH A GROSS VEHICLE WEIGHT OF TEN  
THOUSAND POUNDS OR MORE FROM USING THE LEFT-MOST LANE ON  
CERTAIN HIGHWAYS.

1 WHEREAS, heavier trucks that are driving slower than the

4

5 WHEREAS, the left-most lane on a highway is typically  
6 designated as a passing lane; and  
7

8 WHEREAS, several states, including California, Connecticut,  
9 Georgia, Indiana, Michigan, and New Jersey, have enacted laws  
10 referred to as left-lane restrictions, which prohibit larger  
11 motor vehicles from using the left-most lane on highways with  
12 three or more lanes except to pass or turn left; and  
13

14 WHEREAS, there have been studies showing benefits to left-  
15 lane restrictions, such as increased average traffic speeds,  
16 though some studies have found negative consequences, such as an  
17 increase in accidents; now, therefore,

23 thousand pounds or more from using the left-most lane on certain  
24 highways and specifically any impacts it has on traffic  
25 congestion and safety; and  
26

27 BE IT FURTHER RESOLVED that the Department of  
28 Transportation is requested to include in the study an analysis  
29 of other states that have similar left-lane restrictions and how  
30 these laws affect traffic congestion and safety; and  
31

32 BE IT FURTHER RESOLVED that the Department of  
33 Transportation is requested to compare the effects of a full-

# S.R. NO. 136

1 time left-lane restriction and a left-lane restriction that is  
2 only applicable during peak commuting times; and  
3
