Experience:

1. Twenty-six years of truck and crane maintenance with welding, fabrication, design and repair experience.
2. Twenty-six years as certified crane inspector, inspecting cranes worldwide and hiring out as a professional witness in some instances. *"Projects include inspecting mobile rough terrain cranes, crawler lattice boom type cranes and mobile truck cranes"*
3. Fifteen years as a Cal-Osha licensed crane certifier
4. Board Member of Load Systems International for ten years. I was involved in the development of their crane safety indicators and Rated Capacity system.
5. Seven years as a NCCCO certified crane operator *"Operating mobile, tower and overhead cranes"*
6. Seven years as a NCCCO practical examiner *"Providing operator examinations for the NCCCO"*
7. Current Washington State Crane Inspector
8. Past Field Mechanic for Coast Crane, Trained in Grove and National Cranes
9. Past Manager of S.I Equipment, Dealer for Manitowoc and Potain Tower Cranes
10. Served on the NCCCO task force for the development of a Crane Inspector program.

Hands on Experience

1. I have inspected and repaired hydraulic mobile cranes from as small as eight-ton boom trucks up to two hundred-ton truck cranes.
2. I have been involved in such major repairs as replacing boom lacing and repairing damaged cords in crawler and truck type lattice boom cranes.
3. I have performed and managed the repair of many types of hydraulic boom sections completely and including the engineering and repair procedures, which I would then have signed off by a licensed mechanical engineer.
4. I have provided operator training, maintenance training and crane inspection services for over thirty years on boom trucks, truck cranes, rough terrain cranes, and tower cranes.
5. I have worked with many firms over the years performing accident investigations and creating resolutions to prevent accidents.
6. I have managed the erection, inspection and testing of tower cranes manufactured by, but not limited to Potain and Linden-Comansa
7. I have attended factory support schools for manufacturers such as Grove, National, Comansa, PAT, LSI, Crosby and Terex cranes. Which these programs allowed me to be a leader in the crane industry.

Regards,

Doc Bailey
